

## **CARD GAME RULES:**

Put the two packs of cards together, shuffle the cards and place them face down in the middle of the table. The youngest player goes first, and rolls the dice. The player to their left then picks up the top card and asks them the question corresponding to the number shown on the dice:

1 = 1980s 4 = Titles 2 = 1990s 5 = Initials3 = 21st Century 6 = Oldies

If the player gets the answer right, they keep the card and place it face-down in front of them, showing the letter on the back; if they get it wrong, the card is placed at the bottom of the pack. Play then passes to the left.

The winner is the first player to get a complete set of cards spelling out the word N-0-W-! (including the exclamation mark).
