The world of David Walliams

Instructions

Aim: Gain as many pairs as you can!

Setup: Shuffle the tiles and lay them face down on a flat surface.

Play: Youngest player goes first. Players take turns in a clockwise direction to turn over two tiles at a time. The tiles must be completely turned over and laid flat on the surface so that all players can see them.

If you make a match (turning over two of the same tiles), you collect the tiles and have another go. If you do not turn over two of the same tiles they are placed face down again. Players must try to remember all the tiles that have been turned over, to allow them to make future matches.

Winner: When all the pairs have been found, the player with the most pairs is the winner!
