

Players: 2+ . Age: 8+

SETUP

Remove the challenge cards from the box, shuffle and place face down.
Remove the character cards from the box, shuffle and place face down in a separate pile. The youngest player starts and spins the spinner to begin the game. Players may want to have pens and paper handy for some of these Mega-tastic challenges!

AIM

The aim of the game is to collect five character cards (one of each book represented) and complete one final challenge to win the game.

PLAY

Players, in turn, spin the spinner and follow the instructions given. If a player completes their challenge, they may spin again. If they complete three challenges in a row, they can pick up a card from the top of the character cards pile. After three spins their turn is complete, and the next player continues with the game. If a player does not complete their challenge, they do not spin any further.

WINNING

Once a player has collected all five of the different character cards they continue playing as normal until they have completed one final challenge.

CHARACTER CARDS

Players can gain character cards in three ways:

- Successfully completing
 three challenges in one turn.
- 2. Completing a challenge on a yellow space.
- 3. If the spinner stops on 'Collect a character card', players are not required to complete a challenge on this space!

PARTNERS

On a player's turn, if another player is required to complete their challenge or to partner with the spinning player, the chosen player should play along with the challenge. If they are seen to be sabotaging the challenge they should surrender one of their character cards to the spinning player.

When a player has to surrender a character card, they should fan out their cards face down, for the other player to choose.

TIMING CHALLENGES

During timed challenges, players can use the 30-second sand timer and signal the end of a player's turn by blowing the whistle! For shorter challenges players can count down the time!

WHO WILL BE THE MEGA-TASTIC CHAMPION?!

Harper
