

INSTRUCTIONS

There are two IQ tests in this kit, so you can take another one at a different time or share with a friend. The forty questions in each IQ test are multi-discipline. They are designed to test verbal, numerical and spatial (diagrammatic) aptitudes in approximately equal measure.

A time limit of 120 minutes is allowed for the completion of all 40 questions. You should keep strictly to this time limit otherwise, your assessment rating will be invalidated.

It is recommended that you read the instructions to each question before attempting to solve it.

INSTRUCTIONS

The use of calculators is not permitted when answering numerical questions, which are designed to test your aptitude when working with numbers as well as your powers of mental arithmetic.

If you have time to spare at the end of the test use the extra time to quickly review your answers. You do not get any extra marks for finishing early! We've all been guilty of slips of the pen at one time or another and this may well be one of those occasions!

No part of this publication may be reproduced, stored in a retrieval system or transmitted in any form by any means electronic, mechanical, photocopying or otherwise without prior permission in writing from the publisher.

ASSESSMENT

Score 1 point for each completely correct answer.

Score	Approx IQ Rating
36-40	141+
31-35	131-140
25-30	121-130
19-24	111-120
14-18	90-110

ASSESSMENT

Score	Rating	Percentage of population
36-40	Genius Level	Top 5%
30-35	High Expert	Top 10%
25-29	Expert	Top 30%
20-24	High Average	Top 40%
14-19	Middle Average	Top 60%
12-13	Low Average	Bottom 40%
9-11	Borderline Low	Bottom 30%
4-8	Low	Bottom 10%
0-3	Very Low	Bottom 5%

NOTE: This test contains all-new questions specially devised for this kit and is not, therefore, a standardized IQ test. With the scoring instructions provided it should however give you a realistic assessment of how you would perform in such a test.
