Vapor Tight Light

VTL

JustRight LED

LED vapor tight fixtures are wet location rated commercial strip lights that are sealed against dust and moisture. For specialty applications that require sealed and gasketed components, vapor tight fixtures are the perfect choice to provide energy efficient light. Constructed with impact-resistant lenses and corrosion-proof housing, these industrial strip lights are protected against extreme weather and rust in the harsh environments.

General

Polycarbonate housing and lens with stainless steel hardware make this fixture the right choice for most general applications. User can select Wattage output at time of installation, thus reducing number of models required for a project.

120-347V universal power supply and adjustable color temperature are standard. Custom configurations are available. Contact us for details. Backed up by five (5) year extendable limited warranty.

Key Features

- Surface or Suspended Mounted
- Stainless hardware
- Polycarbonate housing
- Polycarbonate lens
- Quick release latches
- Wiring knock outs on either end of fixture
- Surge protector
- Class II/P driver, with 0-10V or Triac dimming as standard

- 120-347VAC universal power supply
- Wattage and Light Color (CCT) Adjustable
- 50,000+ Hours LED Life Expectancy
- Power factor: >0.98
- 5 Year Extendable Warranty
- Damp and Wet locations
- UL, cUL listed
- Ambient Temperature: -20 ~ 55 ℃ (-4°F to +131°F)
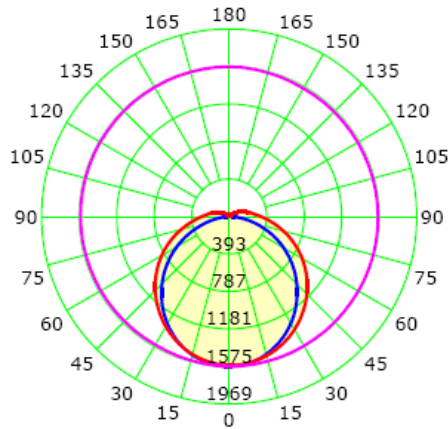

Applications

- Car Washes / Food Processing
- Gas Stations / Laboratories
- Parking Garages / Utility

- Industrial Facilities
- Refrigerators / Freezers
- Warehouses / Supermarket
