WATERFRONT
SHORE, DOCK & BOATLIFT LIGHTING

The new SunTino **WATERFRONT** lighting series provides indirect lighting that will make your waterfront more beautiful, enjoyable, secure and usable at night. All SunTino dock fixtures are wireless and constructed with solid aluminum frames to ensure years of use. Our exclusive solar light modules are removable and feature automatic on, and preset timer off settings. Each fixture provides intensity option settings between 80-180lm of indirect light. Our complete line of solar water front lighting systems include fixtures for docks, boatlifts, and shoreline steps. Great for residential and commercial applications.
