

De-Ice Master⁺

De-Ice Master⁺ is a premium blended calcium chloride liquid deicer/anti-icer with corrosion inhibitor Ice Ban that melts to **-25° and below!**

Why De-Ice Master⁺ is effective:

- ***De-Ice Master + melts ice and snow in temperatures as low as -25°***
- ***Use as a pre-wetting agent on salt spreaders to significantly reduce bounce & scatter of bulk materials during application and lower melt temperature of salt***
- ***Pre-storm direct application on roads helps prevent surface bonding of ice and snow, allowing for cleaner & quicker snow removal***
- ***Treat stockpiles to keep materials free flowing***
- ***Reduce salt usage by as much as 40%.***
- ***Less Salt! Less Labor! Increased Efficiency!***
- ***Easily blends with most products!***
- ***Cost competitive versus other corrosion inhibited products***
