**ISOTOP** has been recognised as an industry leader in the creation of compression-molded **ISOTOP** tabletops and chair seats for over 38 years. We take pride in our dedication to innovation, continuous technical developments, and cutting-edge design that has yielded a variety of prestigious awards. Specified by designers and architects around the world - **ISOTOP** products are selected for its aesthetic appeal and durability with German technology. Our ability to understand and fulfil the business needs of our customers in the hospitality industry is continuously establishing us as the market leader across the world.

## AWARDS

# THE ART & SCIENCE BEHIND OUR TABLETOPS

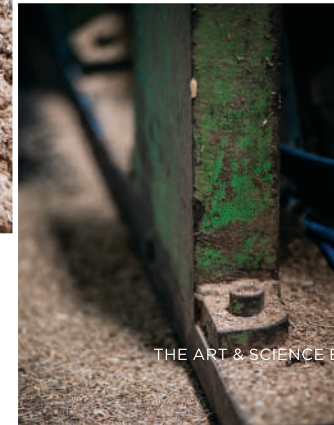

At **ISOTOP**, each product is a testament of our dedication and craftsmanship to our global customers.

We seek to capture your creativity through the art of modern tabletop designs. Whether you prefer the warmth of wood grains, the charm of stones, the simplicity of solid colours, or your own customised design. Our diverse selection will suit your every need, concept and budget.

Our fully optimised manufacturing process and various carefully selected materials are used in the science of **ISOTOP** tabletops – such as plantation wood chips, resin & wax

are formulated and precisely moulded under high pressure and temperature, with a durable surface laminate to withstand the daily impacts encountered. Our high density tabletop edges are seamlessly fully laminated during the moulding process, giving it a smooth and tough resistance. Experience the tangible difference with our tabletops that are manufactured to the highest quality standards.

By combining the confidence of art and science, we strive to provide innovative solutions for the growing commercial market.

# WHY ISOTOP?

## IMPROVED FORMULA

Lasting outdoor quality with High-definition (HD) laminate design clarity (where Cement looks like real cement, and Fabric looks like real fabric).

## 2 YEARS WARRANTY

On all ISOTOP Plus® tabletops.

## HEAT RESISTANT

UP TO 180°C

No apparent adverse effect from hot food on its surface.

## DAMP PROOF

Damp proof features with sealed surface and edges.

## WEATHER RESISTANT

Resistant against all types of weather conditions. Suitable for both indoor and outdoor use.

*Newly improved outdoor substrate quality – resistance to rain and shine (certified up to 50% more water resistant than conventional substrate).*

## ELEGANT & COMFORTABLE

Smooth finishing and colour variety to match any decoration. Rounded corners and edges ensure safety and comfortable seating arrangement.

## ABRASION & SCRATCH RESISTANT

Withstands scratching, wear & tear from crockery and cutlery.

*Significant improvements on laminate wear & tear resistance by up to 17 times longer lasting than conventional surface.*

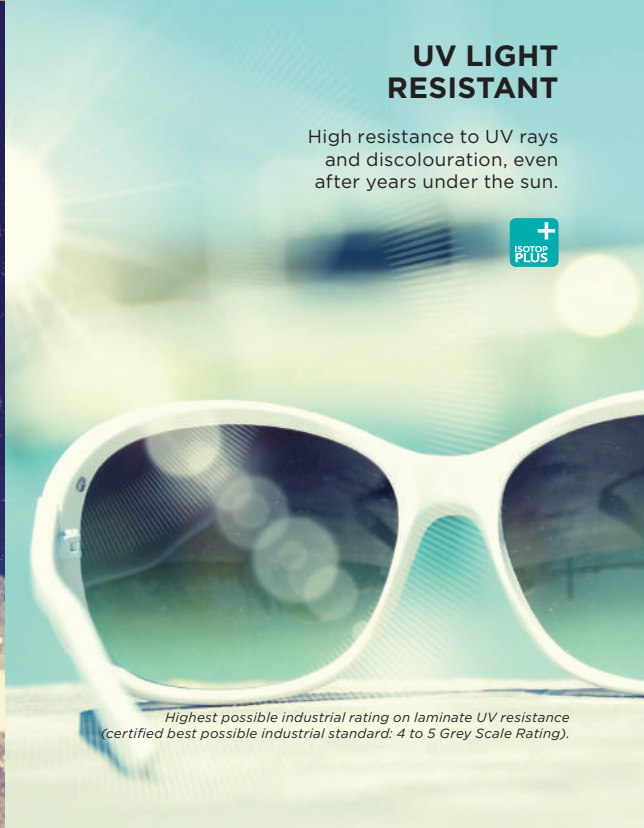

## STAIN RESISTANT

Impermeable against corrosive and sticky substances from liquid or solid food.

## BREAK-PROOF & SHOCK RESISTANT

Holds up well against rough handling.

## UV LIGHT RESISTANT

High resistance to UV rays and discolouration, even after years under the sun.

*Highest possible industrial rating on laminate UV resistance (certified best possible industrial standard: 4 to 5 Grey Scale Rating).*

## CREATIVE FINISHING IN HIGH-DEFINITION (HD)

Through latest digital laminate technology, the tabletop is customisable to meet different needs. As with all ISOTOP Plus\* tops, designs also stand out to appear more sharp and real.

## CIGARETTE BURN RESISTANT

If a cigarette falls on the top by mistake, it will burn itself out without leaving a mark on the surface.

### JOINTLESS SURFACE

Stands tall against weather factors, while giving no chance to trapped dirt and laminate peeling.

### MINIMUM MAINTENANCE

Simple wiping with wet cloth or mild detergent to remove stains.

### STABILITY

Neither too heavy nor too light, yet stable when laden and withstands gusts of wind.

### ENVIRONMENTALLY FRIENDLY

All **ISOTOP** tabletops are made from sustainably harvested materials, while our manufacturing process complies with PEFC Controlled Sources and ISO 14001 Standard.

### GERMAN TECHNOLOGY

We use fully optimised manufacturing technology, materials, and technical know-how from Germany, to produce our world class tabletops.

### MADE IN MALAYSIA

All **ISOTOP** tabletops are manufactured at our own factory in Muar, southern Malaysia.

## ISOTOP ADVANTAGES

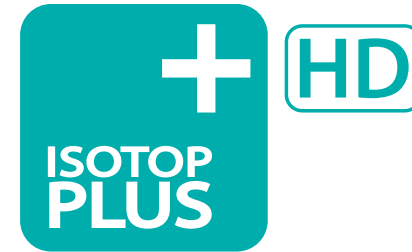

All **ISOTOP** tabletops are crafted with in-built properties of a **durable surface, high-density substrate and smooth edges**. Its durable surface provides damp resistance, stain resistance and burning cigarette retardant, while the high-density substrate reinforces it with strength and stability for long term and heavy usage. **ISOTOP** tabletops only requires household detergent for easy cleaning with minimum maintenance.

- 

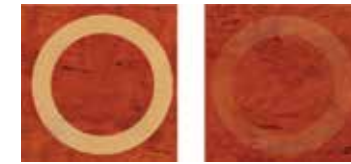

**1** Extra Protective Surface  
TÜV and EN438 Standard
- 2** Decorative Layer  
High UV Resistance and  
Blue Wool Scale Rating
- 3** Thick Kraft Barriers
- 

**4** Improved Substrate Formula
- 5** Strong Reinforce Backer

### Lasting Outdoor Quality with HD Clarity

**ISOTOP Plus®** is reinforced with extra in-built surface and substrate qualities over our standard **ISOTOP** tabletops. The surface is strengthened with an additional layer of tough resin coating for extra protection against consistent abrasions, scratches and intensive usage such as outdoor fast food chains in high traffic areas. Laminate designs also stand out to appear more sharp and real. The improved formula and further enhanced substrate of **ISOTOP Plus®** is built for long-lasting outdoor usage that can withstand the wear and tear impacts encountered every day.

**17 TIMES MORE  
ABRASION RESISTANT**  
**ISOTOP Plus®** is more durable  
than conventional surfaces.

**SURFACE  
RESISTANCE**  
High surface resistance  
to TÜV Standard.

**EMISSIONS  
COMPLIANCE**  
E1 Emissions Standards  
Compliance.

**PEFC™**  
PEFC/34-31-190  
**CONTROLLED  
SOURCES**  
Made from PEFC  
Controlled Sources.

**EUROPEAN  
STANDARD**  
Comply with latest European  
Standard EN438 laminated  
surface quality.

**WEATHER  
RESISTANCE**  
High Weather Resistance  
to SGS standard.

## ISOart

Specially created by award-winning Cilicon Faytory, a Singapore-based multi-disciplinary design studio. This designers' collection is an exploration of how graphics can be applied in commercial spaces. The diversified styles would be able to meet different exterior or interior spatial qualities.

Leaves | Sliq Compact

Directed by **Cici Chen** (Industrial Designer) and **Lui Honfay** (Architect) the studio is able to offer designs that combined their individual experiences in detailed product knowledge from an industrial design standpoint and space application from

an architectural perspective. The result is the ultimate in aesthetically pleasing, user-oriented designs that have won awards in numerous international competitions. Their designs are extensively exhibited at various international furniture fairs.

## ADVERTOP

A new media of commercial advertisement by **ISOTOP**. Product logos, insignias, labels or customised designs can be laminated onto our durable and high resistant tabletops that are catered to restaurants, cafes, bistros, and many others.

- Produce with latest German digital laminate technology.
- Required image file formats in AI, Tiff or JPEG with 300 dpi resolution.
- Available with a minimum order of just 40 pieces.

9

NO  
SKIN

**No Skin** tabletop was developed to give a timeless and industrial look for the professional catering industry. With a soft and minimalist approach, it creates an inviting and comfortable ambience.

1. **No Skin** is made from Malaysian Rubberwood logs that is completely produced in our factory. This allows us to create an affordable tabletop with impressive craftsmanship.
2. The raw wood consists of only the healthiest pulpwood from sustainable domestic plantation. It is carefully shred, dried and compression-molded into a unique high weather resistant substrate.
3. High quality duroplastic synthetic resins are used as binding agents for the core material. The properties of the finished product is further refined with various additives, followed by a multi-stage process to bound and hardened in the pressure mold. The **No Skin** surface is entirely coated with strong translucent laminate layers for increased resistance.
4. The smooth and joint-less edge surface prevents delamination, trapped dirt, and moisture build up.

# 10

STEEL  
EDGE

**Steel Edge** accessory completes every tabletop with added character and charm. The brushed stainless steel or matte black multi-coating complements a wide range of designs, for a more classic and timeless feel.

1. **Steel Edge** has two finishing options:
  - *Brushed Stainless Steel with Hairline Finish*
  - *Galvanised Steel Matte Black Multi-Coating*
2. Both options are suitable for outdoors, and can be further customised with up to hundreds of **ISOTOP** designs. **Steel Edge** gives both form and function, with choices for elegance or cool industrial look.
3. The tabletop and bottom edge surfaces are sealed securely for increased durability. The resulting **Steel Edge** profiles for joint tables are perfectly straight, with a sleek and gapless appearance. This simple feature gives more flexibility for unlimited table arrangements.

Pearl White,  
Brushed Stainless Steel Edge | 35MM

Available with a minimum order of just 40 pieces.

CATIONS

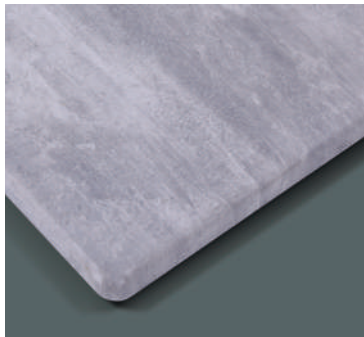

## EDGE PROFILES

**ISOTOP** offers 4 edge profiles to suit different requirements.

### SLIQ COMPACT

NEW with **ISOTOP Plus®** and **Live®** technology

*Strong performance and charm, every day*

- *Product patent pending.*
- *Available exclusively in all ISOTOP Plus® designs.*

**Sliq Compact** provides a stylish, modern, and minimalist look that is designed for today's hospitality and dining trends.

1. Engineered with all the benefits of our classic **ISOTOP** tabletops.
2. Improved formula with **ISOTOP Plus®** for lasting outdoor usage, and a newly developed **Live®** laminate technology, that continuously prevents warping.
3. **Sliq Compact** is produce in super dry matte finishing, which brings tabletop designs to life, for a true material look.
4. The edge profile gives a sleek and compact appearance. It is also user friendly with smooth and non-sharp edges.
5. Suitable for both intensive indoor and outdoor usage.

### 35MM

A durable tabletop that is manufactured to international quality standards. The tabletop is produce in high gloss finishing for everlasting new and fresh outlook. A uniformed smooth and high density thick edge for robust and chunky appearance. **35MM** tabletops are available on request in high weather resistance and extra toughness qualities of **ISOTOP Plus®** for more intensive indoor and outdoor usage.

### BASIC

**BASIC** range is the original and ancestor version of classic **ISOTOP** products for every purpose and occasion. The tabletop surface is produced in matte finishing with a timeless waterfall edge in 26 mm thickness. Manufactured with time proven qualities of classic **ISOTOP**. Suitable for indoor and shaded usage.

### 888TOP

A lightweight **888TOP** with qualities of classic **ISOTOP**. The tabletop surface has a durable and matte finishing effect made for less intensive usage. An economical and unique protruded 18 mm thick edge neatly surrounds the surface to prevent liquid spillages from over flowing to the table end. **888TOP** is lightweight and used with foldable underframe for portability and space saving conveniences. Suitable for indoor and shaded usage.
