

Amano Environmental has been a trusted provider of advanced **air purification and dust collection systems** for over 50 years. Dedicated to creating cleaner, safer, and more sustainable environments.

Products

EM Electrostatic Series

Reducing indoor air pollution enhances safety, boosts productivity, lowers maintenance costs, and improves employee well-being by minimizing health risks and machine downtime.

- Quiet
- High and constant air flow
- For oil mist
- NEMA compliant motor

MJ Filterless Series

Cyclonic air flow & proprietary disk technology provides longer-lasting strong suction and high efficiency filtration.

- Quiet
- Low energy consumption
- High air flow
- For water soluble mist
- Afterfilter required for oil mist
- NEMA compliant motor

MZ Filter Series

Enhanced airflow with lower energy consumption. High efficiency mist collector that improves your work environment.

- Quiet
- Low energy consumption
- High air flow
- Easy change filters
- For water soluble mist
- Afterfilter required for oil mist
- NEMA compliant motor.

Why Amano Environmental?

With a core selection of dust and mist collecting technologies, Amano has helped improve productivity, reduce health care costs, lower operating costs and preserved the environment – both on and off the factory floor.
