Quarter Panel Guards

REQUIRED TOOLS

Vehicle Paint Safe Cleaning
Supplies

Philips Screw Driver

KIT CONTAINS

Quarter Panel Guard (Driver/Passenger)
Self-Taping Screws

QTY

1ea
4

1) PREPARE YOUR VEHICLE

With vehicle paint safe cleaners and cloths, clean your vehicle's quarter panel areas free of dirt and debris to help with the installation.

Repeat on the opposite side.

2) REMOVE TAPE BACKING

Ensure there is a clear place for the part and peel the red backings of the adhesive strips.

NOTE: If you would like to reinforce the guards positions onto the body, we've included 4 self-taping screws, two for each side, to be installed at the dimpled zones shown below.

3) INSTALL

Slide the guard over the panel and press firmly against the adhesive face, ensuring it's secure.

4) ENJOY YOUR NEW FISHBONE QUARTER PANEL GUARDS!!
