## **INSTALLATION INSTRUCTIONS**

PART NO. FB21260 Fishbone Offroad Stainless Steel Tie-Down Kit

# 1) WARNING! USE THE TIE-DOWN KITS AT YOUR OWN DISCRETION.

These are not to be used for any structural components, these are not lift points, nor recovery points. Use at your own discretion.

#### 2) APPLICATIONS

These kits were designed to help aid securing down items to your vehicles. These fit locations where a  $\frac{1}{2}$ " hole is such as on the parts below:

Fishbone Bed Racks Fishbone Storage Racks Fishbone Tub Rail Tie-Downs Fishbone In-Bed Tire Carrier

### 3) INSTALL

Find a suitable  $\frac{1}{2}$ " Hole location where this tie down kit is desired to be installed, place a lock washer and then a normal washer onto the bolt, place bolt through hole, place the additional washer on top of mounting surface and lastly thread the eye-nut in place. Thread Locker is recommended for vibration resistance.
