Testopin is injectable steroid which contains the hormone Testosterone Propionate in preparations of 100 mg per ML. The Testosterone Propionate ester is much faster acting (2-3 days) than Enathate or Cypionate, and thus requires a more frequent injection schedule such as every day or every other day in order to keep blood levels as stable as possible. Testopin 100 is a high-speed anabolic and androgenic steroid, a testosterone propionate drug. He receives effective use not only in power and mass-gathering, but also drying courses, when the main task is the construction of high-quality (dense and relief) muscles, and not its maximum increase. It seems to be a relatively harmless steroid drug.

Testopin-100 against the background of other Injectable Steroids stands out for its power. With this anabolic, athletes can gain a large amount of mass, as well as quickly increase strength. Our online steroid store offers athletes to buy Testosterone propionate at an attractive cost. More information about Testosterone propionate.
