

## Signet Ring Face Sizes

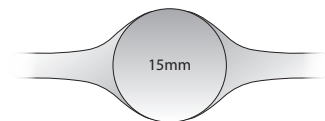

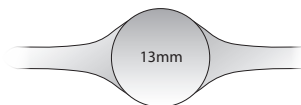

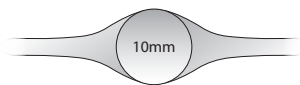

The Asprey signet rings are hand made and hand engraved for you by our distinct craftsmen in our London workshop. The different styles in our signet ring range give you the opportunity to choose the ideal canvas for your bespoke artwork. If you're not sure which size or shape best suits your hand, this guide is meant to help with your selection.

Please make sure that you print this guide at 100% scale on an A4 paper. You can confirm the print size is correct by verifying the size indicated in each shape.
