All requirements for certification as a SDI Open Water Scuba Diver have been met - If **BOTH INSTRUCTOR SIGNATURES ARE PRESENT ON THIS FORM**The student is considered a certified open water diver. This signed form is only **VALID FOR 30 DAYS** from the last OW dive that the evaluating instructor signed and dated. This is only a temporary open water certification card until the diver receives their permanent open water c-card.

STUDENT LETTER OF AGREEMENT: The student agrees that all of the academic, confined and open water requirements for this SDI diver course have been successfully fulfilled by the student. As indicated by the signature below, the student is mentally and physically prepared to engage in open water diving activities without the direct supervision of an instructor, provided the area and conditions approximate those in which the diver was trained. In addition, the student recognizes the need for additional training in order to dive under any other circumstances and after periods of diving inactivity.

Diver Medical | Participant Questionnaire

Recreational scuba diving and freediving requires good physical and mental health. There are a few medical conditions which can be hazardous while diving, listed below. Those who have, or are predisposed to, any of these conditions, should be evaluated by a physician. This Diver Medical Participant Questionnaire provides a basis to determine if you should seek out that evaluation. If you have any concerns about your diving fitness not represented on this form, consult with your physician before diving. If you are feeling ill, avoid diving. If you think you may have a contagious disease, protect yourself and others by not participating in dive training and/ or dive activities. References to "diving" on this form encompass both recreational scuba diving and freediving. This form is principally designed as an initial medical screen for new divers, but is also appropriate for divers taking continuing education. For your safety, and that of others who may dive with you, answer all questions honestly.

Directions

Complete this questionnaire as a prerequisite to a recreational scuba diving or freediving course.

Note to women: If you are pregnant, or attempting to become pregnant, do not dive.
