DISCLAIMER - FORWARD-LOOKING STATEMENTS

This Presentation contains forward-looking statements that relate to the Company's current expectations and views of future events and should be read together with the more detailed information and financial data and statements available on the Company's SEDAR profile at SEDAR.com. This Presentation does not contain all of the information you should consider before purchasing securities of the Company. It is not intended to be relied upon as advice to investors or potential investors and does not take into account the investment objectives, financial situation or needs of any particular investor. In some cases, these forward-looking statements can be identified by words or phrases such as "may," "might," "will," "expect," "anticipate," "estimate," "intend," "plan," "indicate," "seek," "believe," "predict" or "likely," or the negative of these terms, or other similar expressions intended to identify forward-looking statements. The Company has based these forward-looking statements on its current expectations and projections about future events and financial trends that it believes might affect its financial condition, results of operations, business strategy and financial needs. These forward-looking statements include, among other things, statements relating to: the Company's expectations regarding its revenue, expenses and operations; the Company's intention and ability to grow the business and its operations, including its ability to complete research and development activities; future product rollouts in new markets; expectations regarding production and sales; expectations with respect to future production costs and capacity; expectations regarding our growth rates and growth plans and strategies; the Company's expected business objectives for the next twelve months; and the Company's expectations with respect to international developments and initiatives. Forward-looking statements are based on certain assumptions and analyses made by the Company in light of the experience and perception of historical trends, current conditions and expected future developments and other factors it believes are appropriate and are subject to risks and uncertainties. In making the forward-looking statements included in this Presentation, the Company has made various material assumptions, including but not limited to: (i) obtaining or complying with the necessary regulatory approvals; (ii) that regulatory requirements will be maintained; (iii) general business and economic conditions, including the ongoing impact of COVID-19; (iv) the Company's ability to successfully execute its plans and intentions, including with respect to the ramp-up of commercial operations and the achievement of expected revenues; (v) the availability of financing on reasonable terms; (vi) the Company's ability to attract and retain skilled staff; (vii) market competition; (viii) the products and technology offered by the Company's competitors; and (ix) that the Company's current good relationships with its suppliers, service providers and other third parties will be maintained. Although we believe that the assumptions underlying these statements are reasonable, they may prove to be incorrect, and we cannot assure that actual results will be consistent with these forward-looking statements. Given these risks, uncertainties and assumptions, prospective purchasers of the Company's securities should not place undue reliance on these forward-looking statements. Whether actual results, performance or achievements will conform to the Company's expectations and predictions is subject to a number of known and unknown risks, uncertainties, assumptions and other factors, including those listed under "Risk Factors" in the Company's Listing Statement filed under the Company's SEDAR profile at SEDAR.com. The Company's forward-looking statements are based on the reasonable beliefs, expectations and opinions of management. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended. There is no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. We do not undertake to update or revise any forward-looking statements, except as, and to the extent required by, applicable securities laws in Canada.

DISCLAIMER TO UNITED STATES INVESTORS

The securities of the Company have not been registered under the United States Securities Act of 1933, as amended (the U.S. Securities Act), or any state securities laws and may not be offered or sold within the United States or to U.S. Persons unless registered under the U.S. Securities Act and applicable state securities laws or an exemption from such registration is available.

“AT TAAT, WE DON’T CREATE NEW SMOKERS, WE GIVE EXISTING TOBACCO SMOKERS THE CHOICE TO LEAVE NICOTINE BEHIND WHILE KEEPING THE EXPERIENCES THEY LOVE.”

– SETTI COSCARELLA, CEO TAAT

TAAT AT A GLANCE

OUR STORY:

- TAAT Global Alternatives was founded to develop a best-of-class nicotine-free and tobacco-free smoking experience.
- TAAT represents a disruptive, attractive alternative to tobacco cigarettes and other smoking products.
- Under veteran leadership with a “Big Tobacco” pedigree, TAAT launched in Q4, 2020.

OUR PRODUCT:

- TAAT’s patent-pending refinement technique goes through a 14-step proprietary process.
- The result is a product like no other that smells, tastes, smokes and feels like any other tobacco product.

OUR PORTFOLIO:

- **ORIGINAL**
(big, bold flavour)
- **SMOOTH**
(silky flavour with a lighter taste)
- **MENTHOL**
(delivers a minty hit of freshness)

OUR CONSUMER:

- Blue-collar man (adventurer, early adopter, corporate jock by day, weekend warrior)
- Male 60%, female 40%
- Avg. # of cigarettes consumed daily = 13

THE CURRENT CIGARETTE MARKETPLACE

SMOKERS ARE LOOKING FOR ALTERNATIVE PRODUCTS LIKE E-CIGARETTES, BUT MANY, IF NOT MOST, RETURN TO SMOKING.

- **Over 80% of smokers** have tried e-cigarettes but only **3.2% of the market** is e-cig category. ¹
- **NRTs (nicotine replacement therapies)** have been largely ineffective at impacting smoking incidence.
- **Smokers prefer a solution that is more familiar** and fits seamlessly with their smoking moments (morning coffee, afternoon commute, socializing with friends).
- **Smoking is expensive.** Consumers indicate that “the cost” is the **#1** reason they dislike smoking which is often driven by high tax incidence. ²
- Potential new federal and state legislative bans on menthol flavours and reduction in nicotine levels in tobacco **make the TAAT brand a great alternative for smokers who want to continue to use these products.**

MANUFACTURING AND DISTRIBUTION

MANUFACTURING & DISTRIBUTION

PRIMARY MANUFACTURING

- TAAT, in its production facility in Las Vegas, NV, deploys its patent-pending technology to create the core material for production.

SECONDARY MANUFACTURING

- World-class contract manufacturing and packaging of cigarettes from TAAT material at a per-unit price.
- TAAT ships its proprietary material to a world-class contract manufacturer that creates the final product.
- Capable of shipping final products globally.
- Highly scalable.

DISTRIBUTION

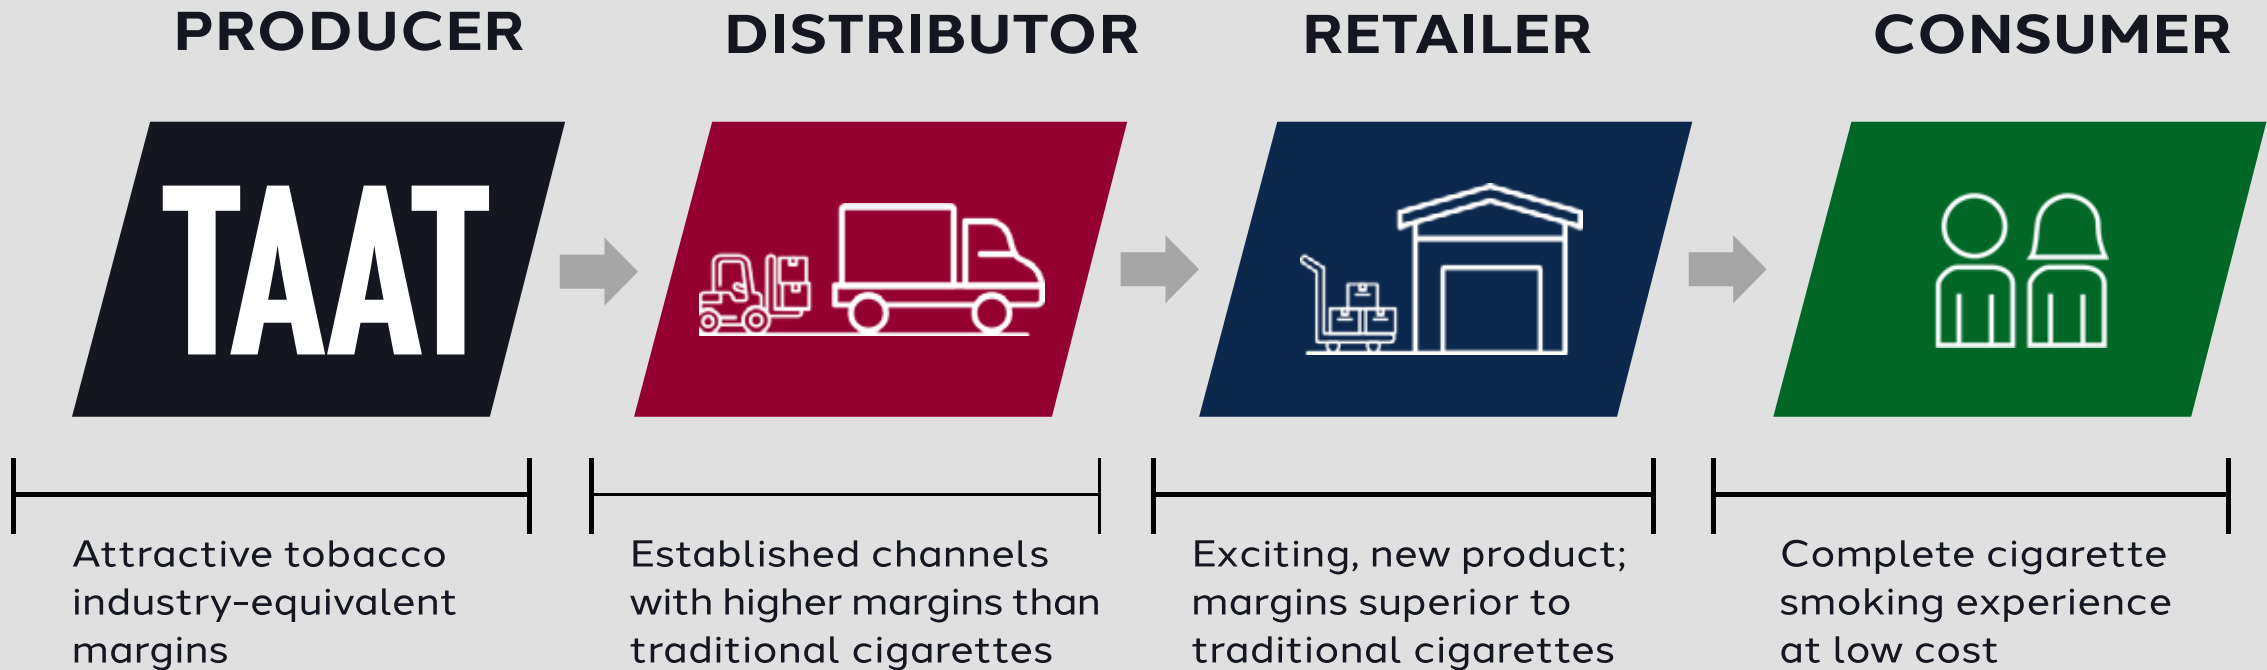

- Leverage existing tobacco sales channels globally.
- Build strategic relationships with industry leaders.
- Leverage off existing tobacco infrastructure.

WIN-WIN ECONOMICS

STRONG INCENTIVES TO SUPPORT TAAT'S BRANDS
ACROSS THE SUPPLY CHAIN

UK + IRELAND

- Green Global Earth (distributor for the U.K. and Ireland) placed a reorder (several times the amount of the initial order) within four months.
 - Purchase order for two containers of TAAT™ valued at €720,000 (approximately CAD \$1,075,000)
- TAAT's distributor received clearance to be sold in all of Great Britain (England, Scotland and Wales).
- TAAT will be sold in the United Kingdom at an attractive price point compared to leading brands of tobacco cigarettes, which stands to allow legal-aged smokers in the United Kingdom to benefit from cost savings by switching to TAAT.

AUSTRALIA

- Received P.O. for €360,000 (approximately CAD \$536,000) for a full shipping container of TAAT to be distributed in Australia.
- Australia has the highest average price of a tobacco cigarette pack in the world — the equivalent of USD \$25.12 for a 20-pack of Marlboro, compared to USD \$8.00 in the United States.
- Current estimates indicate that TAAT™ will retail for approximately 30% less than tobacco cigarettes in Australia.
- Competitive advantage allows TAAT to sell its product in branded packaging, as Australian law requires tobacco cigarettes to be sold in “plain packaging.”

MARKETING, SPONSORSHIP AND BRANDING

MARKETING ADVANTAGES

- Not subject to tobacco taxation
- Capable of advertising where tobacco cannot
- Fewer global packaging constraints than tobacco
- Not subject to menthol ban
- More attractive price point
