

ELEVY PROFESSIONAL LASH AND BROW LIFT TOOLS

ELEVY LIFT TOOLS is a set of 205 items tools designed to perform the treatment of molecular reconstruction of eyelashes and eyebrows with the professional ELEVY LASH & BROW MOLECULAR RECONSTRUCTION KIT

A set includes

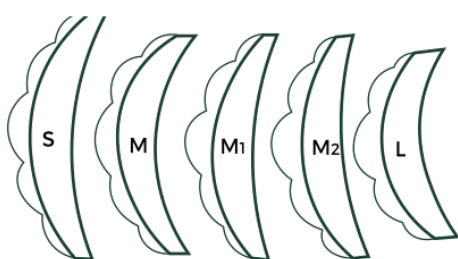

Disposable Micro-Brush
(50 pcs.)

Disposable Bamboo Brush
(50 pcs.)

Disposable Silicone Brush
(50 pcs.)

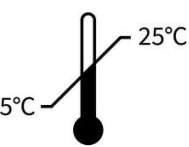

Reusable Silicone Eyelash Perming Curler Pads
(2×5 pcs., size: S, M, M1, M2, L)

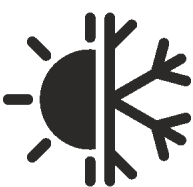

Disposable Under-Eye Patches
(50 pcs.)

Storage conditions

Store at 41–77°F / 5–25°C. Store disposable bamboo brushes in a dry place.

Do not overcool or overheat.

Avoid direct sunlight.

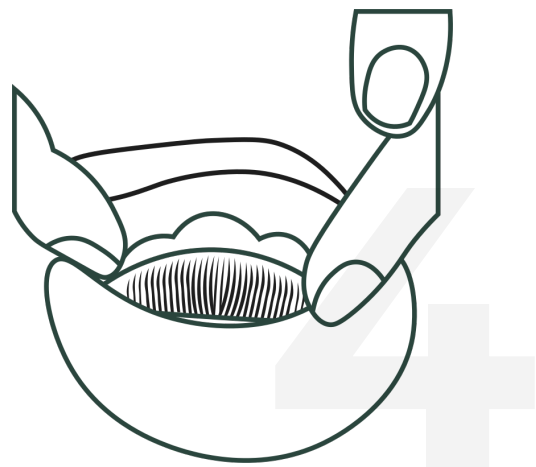

How To Use

Use the micro-brush to apply a thin coat of the kit components to the eyelashes and eyebrows.

Use the bamboo brush to comb through the eyebrows and eyelashes. Also with a brush, you can remove the remnants of the treatment components.

Use the silicone brush to separate eyelashes and remove the glue residue.

Use different sizes of silicone eyelash perming curler pads to give the eyelashes the desired curl depending on the lash length.

Use hydrating under-eye patches to separate lower and upper eyelashes.

Disclaimer

These tools should only be used as instructed. Please, read the instructions carefully before use.
