

SEWING MACHINE SERVICE AND REPAIRS

Sewing machines and overlockers need to be serviced regularly to keep them sewing well.

Our technician has over 40 years of experience repairing and servicing domestic sewing machines and overlockers. He is fully qualified and certified to service and repair all brands including PFAFF, Husqvarna Viking, Bernina, Janome, Brother, Singer and Elna.

Machines can be dropped off at our store during regular business hours. Our technician collects and returns the machines every 2 weeks.

Please contact us by phone 0295808780 or email mail@oatleycottage.com.au if you have any questions. We will need to know the brand and model of your machine and a brief description if it will require a service or if there is a specific issue.
