4 May 2023 5:30-9pm @ Gingerboy
27-29 Crossley St, Melbourne

Topics covered include

Basics of obstructive sleep apnea (OSA)

→ A 1.5 hr pre training video to build a knowledge base for specific training at the evening event.

In clinic screening and treatment workflow

→ How to identify patients with OSA and guide them through diagnosis and treatment using mandibular advancement devices.

How to screen patients

→ Questionnaires, observation and direct marketing.

Diagnosis (sleep testing devices

- diagnosis of sleep apnea and snoring)
→ Simple options to diagnose patients at risk of OSA.

What can Good Sleep Co offer

→ All the tools you need to run a successful dental sleep medicine practice including Good Sleep Co's unique mandibular advancement devices.

Creating a case

→ Digital impressions, bite registrations and lab sheet.

Basics of CPAP and trial therapy

→ Understanding therapy options is critical to become a well-rounded dental sleep medicine practitioner.

Permanent CPAP therapy

→ And your chance to ask the experts.
