Getting Started

Install the "Smart Life" App

Scan the QR code below to install the Smart Life App or search for the "Smart Life" where you get your Apps. The free app Smart Life app is compatible with mobile devices that support iOS 8.0 and above and Android 4.4 and above.

Register your account and input the verification code to complete registration.

App Set up Guide

If you are installing devices into more than one room or building it is advised you set up the different areas before adding the devices. This gives you better control over each area. Please note devices cannot be transferred into these rooms after they have been set up outside the room.

Create a Home

- 1. From the Home page choose, Me in the bottom right hand corner.
- 2. Choose Home Management

Adding a Device to your chosen Room

8. From the main app page, top left hand corner you will see the list of your "Homes", using the down arrow choose which "Home" you want to add the device to. 9. Next you choose from within your home, what "Room" you wish to add the device to.

- 10. Choose Add device.
- 11. Select "Security & Video" and then "Smart Camera Wi-Fi"

- 12. Choose the Wi-Fi you are going to connect the camera to.
- 13. Next hold the mobile phone screen in front of the camera, the distance between the two should be 15 to 20 cm. Try not to shake the mobile phone during scanning.

14. You will hear a prompt to confirm the device has been added.

Congratulations your WatchOvers IP Camera has been added successfully!
