

# Welch 1399

## Technical Specifications

Free-Air Displacement, L/M .....	35
CFM .....	1.2
Guaranteed Partial Pressure	
Blankoff, Millitor .....	15
Pump Rotational Speed, RPM .....	750
Number of Stages .....	1
Oil Capacity, qts. ....	1/2
Standard Belt Guard (not shown) .....	No. 1371H
Net Weight, Pump Only, lbs. ....	28
Net Weight, Mounted Pump, lbs. ....	49
Shipping Weight, Mounted Pump, lbs. ....	57
Optional Exhaust Filter, Complete .....	No. 1417
Filter Element, Air Maze .....	No. 1417F
Filter Element, Technolab .....	No. 1417L
Size of Rubber Stopper for Intake .....	00
Line Cord, with Switch for 115V .....	No. 41-1058
Line Cord, with Switch for 230V .....	No. 41-1057

# Welch 1399

## Dimensions

## Applications

- vacuum ovens • glove boxes • general laboratory vacuum • vacuum furnace evacuation • backing turbomolecular/diffusion pumps
- rotary evaporation • refrigeration system evacuation • epoxy degassing
- vacuum sterilization • backing mass spectrometers • freeze drying
- vacuum centrifugal applications • vacuum distillation • space research
