Leybold NT-120

Technical Specifications

Solid-State Frequency Converter		NT 120
Mains supply, 50/60 Hz, selectable	V	110/120 240 ±10%
Maximum power input	VA	570
Maximum output voltage	V	3 x 42 ¹⁾
Overload current limitation	A	3,5
Rated frequency	Hz	840
Admissible ambient temperature ⁺⁾	°C	0 - 45
Max. load of relay contacts ⁺⁺⁾		
at 4 AR-L	V	250
at 120 WR-L	V	30 -
Dimensions (W xH X D)	mm	213x135x330
Weight	kg	10,6
Solid-State Frequency Converter		Cat.No. 854 32

+) For all instruments: admissible air humidity according to applicable clause F of DIN 40 040. VDE Specifications 0100, 0110, 0160.

++) Switching power with suitable spark extinguishing. With auxiliary voltage higher than 42 V cover terminal box X4, earth the equipment additionally.
