## Leybold NT-450

### Technical Specifications

Mains supply, 50/60 Hz, selectable	100/120/220/240 V $\pm$ 10 %
Maximum power input	970 VA
Maximum output voltage	3 x 38 V
Overload current limitation	3,5 A
Rated frequency	415 Hz
Admissible ambient temperature*)	0 – 40 °C
Max. load of relay contacts**)	
at 4 AR-L	250 V
at 120 WR-L	30 – V
Dimensions (WxHxD)	445x148x380 mm
Weight	15 kg
Solid-State Frequency Converter, Cat. No.	853 63

\*) For all instruments:  
admissible air humidity according to applicable  
clause F of DIN 40 040. VDE Specifications 0100, 0110,  
0160.

\*\*\*) Switching power with suitable spark extinguishing.  
With external voltages higher than 42 V cover terminal  
strip X 4, earth the equipment additionally.
