

Agilent TwisTorr 84FS AG

Technical Specifications

Input	100 ÷ 240 Vac
	50/60 Hz
Maximum input power	210 VA
Output voltage	76 Vac
Output frequency	1,350 Hz
Nominal output power	100 W
Operating temperature	+5 °C to +45 °C
Storage temperature	-20 °C to +70 °C

Dimensions

Dimensions: millimeters (inches)

Features & Benefits

- pump speed reading after stop command (stop speed reading)
- front/remote/serial operation
- 24Vdc pump fan cooling drive
- input voltage auto setting
- vent valve drive
- pressure reading
