Edwards iPS-240 Technical Specifications

Input voltage	100-240 V a.c.
Input power	Max 300 VA
Input frequency	50/60 Hz
Inrush current	<40 A
Leakage current	<1.0 mA
Output voltage	48 ±2 V d.c.
Rated output current	5 A
Over-voltage protection	55.2-64.8 V d.c.
Over-current protection	Output fuse (7A, Fast-blow type)
Withstand voltage	Between input and FG: 1500 V a.c., 1 min between input and output: 2300 V a.c., 1 min (current limit: 20 A)
Allowable ambient temperature	0 to 40 °C
Storage temperature	-20 to 55 °C
Mass	3 kg

Features & Benefits

- STP-Link communication port on the front panel
- able to dock with iDT-001 display unit & become integrated power supply with an LCD display
