

dermlite mcc

Just slide MCC over your Android or iOS device's main camera and tighten. When you're done, loosen it a little and pull off – quick & easy. MCC works with DL4, DL200, DL3N, DL1, Foto X, even DermLite handyscope, and its patented magnetic ar-

The pocket-size adapter for your phone or tablet.

ray holds your DermLite, yet won't interfere with your smartphone's electronics. Just like your DermLite, MCC fits in your pocket. Now it's always with you, ready when you are.
