Weight Meansuring

Start weighing the object

1. Place the scale on a solid and flat surface. Place bowl (if any) on the scale.
2. Press ⏻TARE button to turn on the scale.
3. Start weighing when LCD shows "0". Press UNIT button to convert to weighing mode.
4. Place the object on scale (or bowl) to start weighing. LCD will show the weight reading.

Volume Meansuring

Start Weighing the Blow

Pour milk

1. Place the scale on a solid and flat surface.
2. Press ⏻TARE button to turn on the scale.
3. Press UNIT button to convert mode to water or milk volume mode when LCD shows"0".
4. Put a container on the scale platform, LCD shows the weight of the container.
5. Press ⏻TARE button for Zero or Tare.
6. Pour liquid (water or milk) into the container, LCD will shows the volume of the liquid.
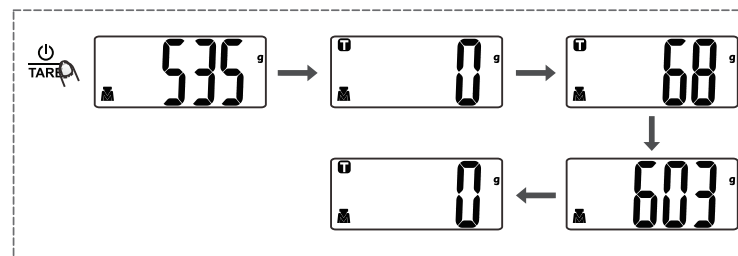

🏃 ZERO & TARE FUNCTION

To weigh different items consecutively without removing them from the scale. Put first item on the scale, get weight reading. Press ⏻TARE button to reset the LCD reading to "0" before adding next item. You can repeat this process.
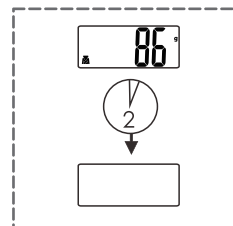

"TARE" Function :

When the ⏻TARE function is pressed, the LCD will display either '—-' or '0g.' '——' indicates that the scale is not stable, and you should wait for a moment. '0g' with an 'T' icon on the LCD means that the TARE function is activated. The maximum weight capacity is reduced by the total weight of all items.

Under this condition:

Pressing ⏻TARE allows you to view the total weight of all items on the scale. If you wish to weigh additional items, simply press ⏻TARE to reset the LCD reading to '0.'

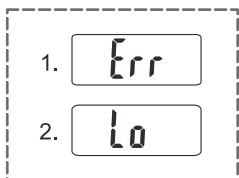

🏃 AUTO OFF (POWER SAVING MODE)

If there is no operation or weight changing in two minutes, scale will be auto off.

MANUALLY SHUT OFF

To maximize battery life, always long press [⏻ TARE] to turn off the scale after using.

WARNING

1. **Err**
2. **Lo**

OVER LOADED WARNING
When LCD shows Err, it is over loaded (Max 8000g), please take off the loads to prevent damage to the scale.

LOW BATTERY WARNING
When LCD shows Lo, battery power is low, please replace with new battery

ADVICE FOR USE & CARE

1.Clean the scale with a slightly damp cloth. DO NOT immerse the scale in water or use chemical/corrosive cleaners. Store the scale in a cool, dry place.
2.Immediately clean all plastic parts after contact with fats, spices, vinegar, and strongly flavored or colored foods. Avoid contact with acidic citrus juice.
3.Always use the scale on a solid, flat surface, and keep it stationary when weighing.
4.This product is a precision instrument; please handle it with care. Avoid striking, shaking, or dropping the scale.
5.If the scale fails to turn on, please check whether the batteries are installed or if the battery power is low.
6.Keep the scale away from high temperatures and avoid dismantling it arbitrarily.
7.This scale is designed for personal use only and is not intended for commercial use.
