## PRECAUTIONS

### MOVING THE PRODUCT

Please switch off the product and unplug the power cord before moving the product.

### INSTALLATION

Keep the product out of direct sunlight, excessive heat, and water. Do not install the product on uneven or inclined surfaces. Do not install the product where there is a lot of industrial oil, smoke, gas, or metallic dust. Install the product so the inlet and outlet of the product are not completely blocked.

### IN THE VEHICLE

Do not install the product in locations besides the vehicle cup holder. Place the product firmly into the vehicle cup holder. The pod fits into cupholders with a width of 3 inches and a height of 2 inches or more. When using the product, the proper temperature is 0 ~ 104°F. Proper temperature for storing the product is 14 ~ 158°F. Be careful not to spill liquids such as water or drinks on the bottom of the cup holder. Do not place the product in direct sunlight. The pod is only compatible with a vehicle voltage of DC 5V.

## PRECAUTIONS

### WHEN USING

Do not let water or foreign objects inside the product. Do not touch the power cord with wet hands. Do not unplug the power cord while the product is running.

1. This appliance is not intended for use by people with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
2. Children should be supervised to ensure that they do not play with the appliance.
3. This product should only be used with the provided power cord.

## PRECAUTIONS

### RESTRICTIONS ON USE

Do not use in places with high temperature or high humidity. Do not disassemble, repair or remodel the product. Do not place heavy objects on the product. Turn the product off if you notice any irregularities such as high temperatures or strong odors.

.....

### CLEANING

Please make sure to switch off the product before cleaning. Do not spray water on the product or wipe it with benzene, thinner, alcohol, acetone, etc. Do not disassemble or clean the inside of the product.

MEDIUM

HIGH

### FILTER REPLACEMENT INDICATOR

Automatic Filter Replacement Indicator.

LED indicator will blink for 5 seconds to let you know to replace the filter when the device is turned on.

After replacing the filter, push the power button for 3 seconds and the LED light will stop blinking.

## MANAGING PRODUCT

### EXTERIOR CLEANING

1. Use a vacuum cleaner to remove the dust from the air inlet and outlet.
2. Use a soft cloth to gently wipe the exterior.

### FILTER CLEANING

1. Remove the pre-filter from the product.
2. Use a vacuum cleaner to remove large dust from the prefilter.

Do not wash with water.

Remove the circular filter by holding the base and the rest of the product and turning it. It is recommended to replace the filter each year.

COUNTRY OF ORIGIN	South Korea

## FAQ

### SYMPTOMS

- The power does not turn on.

---

### THINGS TO CHECK

- Is the USB plug connected properly?
- Is the LED indicator at the front turned on?

---

### POSSIBLE SOLUTIONS

- Properly connect the product with USB plug.
- Please press the power button to operate.

## FAQ

### SYMPTOMS

- Filter replacement indicator is still blinking after replacing the filter

### THINGS TO CHECK

- Did you push the power button for more than 5 seconds after replacing the filter?
- Is the filter properly assembled?

### POSSIBLE SOLUTIONS

- Push the power button for more than 5 seconds. Properly assemble the filter.

## FAQ

### SYMPTOMS

- The shape of the Maple wood panel has changed.

### THINGS TO CHECK

- Maple wood panel is sensitive to temperature and humidity (water).

## SYMPTOMS

- The wind is not coming out. The wind power is weak. The wind speed doesn't change.

.....

 THINGS TO CHECK

- Is the filter properly assembled?
- Is the filter contaminated? (This may affect the airflow).

.....

 POSSIBLE SOLUTIONS

- Please check if the filter is properly assembled.
- Please clean the filter.

## SYMPTOMS

- Air outlet has a strange odor.

.....

 THINGS TO CHECK

- Was the product used in areas with smoke?
- Was the product brought from a different location?

.....

 POSSIBLE SOLUTIONS

- Filter has the tendency to absorb odor, thus temporarily could emit odor. This will eventually fade away.
- The product may still emit odors from the previously used locations.

## FAQ

### SYMPTOMS

- Filter does not have the maple scent anymore.

.....

### THINGS TO CHECK

- The filter may lose its scent, but the effect of maple wood remains.
