

SUSTAINABILITY POLICY

Go Fashion (India) Limited perceives sustainability as an opportunity to achieve leadership in sustainable fashion and co-create long term value for the stakeholders. We are committed towards integrating sustainability in our every business decision across our value chain. For us, sustainability is beyond just a business imperative and a way to redesign the future of business.

We, at Go Fashion (India) limited ensure that:

- ✚ Maintain positive compliance to all applicable legal and statutory requirements and conform to the Sustainability standards and other requirements;
- ✚ Strengthen our health and safety management system through continuous measuring, monitoring, benchmarking and reporting our safety practices and performance;
- ✚ Enhance value creation through conscious consumption of natural resources and energy; avoidance and prevention of pollution; promoting waste management and recycling measures;
- ✚ Foster collaboration and association with value chain partners to enhance quality and efficiency of operations, products and services;
- ✚ Promote Education, Health & Sanitation, Skilling, Water & Watershed development and Digitization through CSR initiatives to build better way of life; create social value through holistic development of communities;
- ✚ Develop conducive working environment for employees; promote inclusiveness and diversity at workplace;
- ✚ Ensure stakeholder engagement through adopting the principles of inclusiveness, transparency and actively communicate and disclose sustainability approach and performance;

Go Fashion (India) Limited will consistently track, monitor, report in line with national reporting frameworks.
