# SNARLER™

From October 2020, all new quad bikes are required to: meet the specified requirements of the US standard for quad bikes, ANSI/SVIA 1-2017, or the European standard for quad bikes, EN 15997:2011. From October 2021, general use quad bikes are required to meet the minimum stability requirements and must also be fitted with an operator protection device (OPD) or have one integrated into its design. Currently the QuadBar Industries (OPD) is available as an optional accessory and as of October 2021 all Segway Powersports ATVs sold in Australia will have the compliant (OPD) fitted at point of sale. Until further notice The (OPD) will continue to be available as an optional accessory in New Zealand. For more information on safety standards visit: [www.productsafety.gov.au/standards/quad-bikes](http://www.productsafety.gov.au/standards/quad-bikes).

# DYNAMIC POWERTRAIN

570CC liquid cooled, single cylinder, 4-stroke, DOHC engine delivers max 44HP and 48N·m of torque. The 570CC engine adopts the optimal design of insulator spark plug and optimized CAM. With the addition of electronic fuel injection system, the powertrain has good adaptability in high/low temperature and high altitude environment.

# SMART MOVING & SMART FUN

## SMART EPS, SMART COMMANDING SYSTEM (SCS), SMART MOVING APP

Segway's Smart EPS System is designed with standard/comfort/sport modes that will adjust automatically according to traction conditions. You can access the real-time data of your vehicle through Smart Commanding System (SCS). Add an SOS emergency contact person. In case of a serious collision/roll, the app will automatically send an SMS with location to that person.

# SAFETY & PERFORMANCE

## DUAL A-ARM INDEPENDENT SUSPENSION

Adjustable front and rear air shocks that adapt to difficult terrain and driving styles. The front suspension is Dual A-Arm with 7 in./ 180mm travel. The Rear Suspension has 8.3 in./210mm of travel. With 10.7 in./270mm ground clearance the Segway Snarler easily clears obstacles and makes your ride joyful and comfortable.

## CAPABLE OF CARRYING HEAVY LOADS

Rear **80kg**  
Front **40kg**

## 2500lb WINCH

Choose the optional Electric winch to pull up to 2500lb pounds and easily help you out of any trouble.

## FRONT AUTOMATIC DIFF-LOCK WITH 2WD/4WD SWITCH

Auto-locking front differential with switchable 2WD/4WD plus switchable rear diff-lock. From turf to rocks to mud. The Snarler delivers all the traction you need to conquer challenging terrain.

**SEGWAY**  
Powersports

**FEAR NO PLACE**

Founded in 1999 by Dean Kamen in the USA, Segway Brand (hereinafter referred to as “Segway Powersports”) is an innovative company in the field of design and manufacturing, included but not limited to: Quad Bikes, Utility Side by Sides, Sport Side by Sides and On-road vehicles. Approaching the international market from a long-term perspective, Segway Powersports has numerous self-developed patented designs including a hybrid powertrain, internal combustion engines, a smart IOV system, advanced vehicle designs etc. Segway Powersports is a high-tech enterprise integrating a superior supply chain and its own factories. The company specializes in the R&D, production, sales and after-sales service of Powersports products. Segway Powersports adheres to the motto of “FEAR NO PLACE” and aims to be the leading on and off-road mobility solution provider. Segway Powersports is a subsidiary of the Segway-Ninebot Group which is a unicorn in the global smart mobility industry. Segway-Ninebot has three major business regions including Asia-Pacific, Europe and America, and its products are sold in more than 100 countries and regions around the world. It owns over 1,000 global core patents. By meeting the diverse, cool and fun needs of users, Segway-Ninebot continues to lead the industry with its new product development.
