CLEANING, STORAGE AND SAFETY

EN - Always clean your vibrator thoroughly before and after each use.

- We recommend using a premium water-based lubricant when needed. Silicone-based lubricants are not recommended and can cause damage to the product. Never use hand cream, or massage oils as lubricants for your intimate areas.

- To properly clean your dual motor clitoral vibrator, use a suitable silicone-compatible toy cleanser. If this is not available, wash the silicone area of your dual motor clitoral vibrator with luke-warm water and an antibacterial soap. Rinse clean and pat dry using a lint-free cloth or towel. Do not use cleaners containing alcohol, petrol or acetone.

- Avoid leaving your dual motor clitoral vibrator in direct sunlight and never expose it to extreme heat.

- Our products are designed to be splash-proof. Never immerse your vibrator in water.
