ABOUT

AQUALUNG

OUR STORY

Aqualung, part of the Aqualung Group, is the leading global designer and manufacturer of dive and water sports gear. Now available in more than 100 countries around the world, Aqualung pioneered the creation of modern diving equipment when **Captain Jacques-Yves Cousteau** teamed with engineer **Emile GAGNAN** in 1943 to develop the first “aqua-lung,” making **underwater exploration possible**. Aqualung is committed to providing sustainable, innovative, reliable, and easy-to-use products that allow adventure seekers to enjoy responsible water exploration and continues to set the industry standard for water sports equipment in technology, comfort, safety and design.

OUR WORLD

At Aqualung we believe that **underwater exploration** is an **unexpected journey** from which you can't come back unchanged. A journey where the unbelievable becomes believable, where emotions and sensations are multiplied. An unexpected journey that enriches each of us. That is why we keep on questioning the status quo, daring to think differently so we can offer every explorer the safest and most advanced water gear for their quest. At Aqualung we provide the most advanced water gear enabling anyone to reconnect with oceans and go **beyond the expected**.

Depth 16^{FT} | 6TH JULY 2021

BELIZE | 17°51'43"N 87°58'41"W

“Belize has the most manatees of any country in Central America. These playful and gentle creatures can be found in the waters just offshore from Belize city, thanks to the country's focus marine protected areas.”

BEYOND THE EXPECTED

2023 A SUSTAINABLE FUTURE

This ocean planet is our home, and it's up to us to protect our aquatic playground. From product conception to creation to packaging, Aqualung is reimagining the business of diving and how it fits into a **more sustainable world.**

At every turn, we are asking “**what can we do to make this better for the planet?**” We aim to promote **a healthier ocean** for future generations of divers and **ocean lovers.** True and lasting changes require hard work and dedication, principles Aqualung applies to achieve our vision of a better tomorrow.

We also acknowledge that sustainability is not enough in today's world. By working together, divers and dive companies can bring awareness to aquatic issues, **advocate for change,** and begin **the restoration** of the precious habitats we are fortunate to visit.

Just as life follows a cycle, we believe in circular economic practices that **restore the environment** and **eliminate waste.** From the design and creation of our products to our **eco-friendly** packaging projects to the initiatives of our **Ocean Ambassadors** to the achievements of divers like you, Aqualung celebrates and supports a **brighter future for the ocean.**

FREEDOM AWAITS

AQUALUNG'S FREEDIVING LINE

Reveal the secrets of the underwater world when you dive with total freedom. Today's freediver finds peacefulness a better indicator of a good dive than a gold medal. The focus is on extending fun and the only competition is yourself.

Released from traditional scuba equipment, freedivers can join and enjoy nature in a brand-new way. In a breathless world, the pulse of the ocean comes alive, aquatic life embraces you as one of their own, and the ultimate peace descends on the world.

Freediving connects you with your own body as you learn and push the boundaries of your abilities. Dedicated only to your desires, freediving allows you to relax and open yourself to the beauty of the depths.

**FREE YOURSELF,
THE OCEAN AWAITS.**

Aqualung is synonymous with the scuba regulator we invented it. And we continue to lead the way with the best underwater breathing devices available today. Every aspect of our technology is aimed at both performance and comfort.

Experience the perfect breathing system today from Aqualung.

A close-up photograph of a diver's hand, wearing a black neoprene glove, adjusting a scuba regulator. The hand is positioned in the foreground, slightly out of focus, while the regulator and the diver's black wetsuit are more in focus. The background is a blurred teal color, suggesting an underwater environment. The word "Regulators" is written in large, white, sans-serif font, oriented vertically on the right side of the image. A small registered trademark symbol (®) is located at the top of the word.

Regulators®

Our Regulator Technologies.

1st Stage

AUTO CLOSURE DEVICE™

ACD prevents water and debris from reaching 1st stage parts or lubrication, maintaining oxygen compatibility and extending life between services.

DE-ICE

Ice formation is deterred by deep ribs which provide increased surface area, an overmolded cap, and an integrated dry chamber.

BLACK COATING

Durable stainless-steel parts are coated in a black Titadur® treatment for superior durability.

PERMANENT DRY CHAMBER

Dry chamber protects internal parts from water or contaminant damage, providing extreme durability.

OVER BALANCED MECHANISM

Balanced to both depth and tank pressure, our auto-balanced or over-balanced system means the same easy breathing at every point on every dive.

BLUE HIGH PRESSURE SEAT

The core of the 1st stage, this seat opens and closes with every breath, forming a perfect seal with durable materials that work in all conditions and with all gasses.

DUST CAP PROTECTION

Protects the inlet fitting from damage and seals the 1st stage when it's off the tank.

2nd Stage

COVER OPENING CHANNELS

Wider opening allows water to pass sideways over the diaphragm, preventing freeflow in strong currents and reducing cracking effort.

MASTER BREATHING SYSTEM

Integrated control of the Venturi effect and inhalation effort means one adjustment completes both tasks simultaneously.

INTERCHANGEABLE MOUTH PIECE

Mouthpiece tie is easily removed without tools and can be reused to avoid plastic waste.

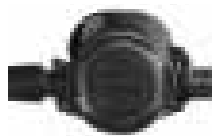

COMFOBITE

Aqualung exclusive mouthpiece featuring a palate bridge to reduce jaw fatigue and keep the 2nd stage secure.

AIR CHANNEL DEFLECTOR

Bi-material component directs air evenly through the 2nd stage and lowers exhalation effort.

NEW Helix Compact Pro

HELIX COMPACT PRO YOKE	RG154002
HELIX COMPACT PRO DIN	RG154003
PACK HELIX COMPACT PRO YOKE + OCTO	RQ137000
PACK HELIX COMPACT PRO DIN + OCTO	RQ137001

You don't need to be big to make a big impact. That thinking inspired the **Helix Compact Pro** the smallest and most compact regulator Aqualung has ever produced. This amazing piece of technology is equally designed for warm and cold water, meaning it's perfect for jetsetters on the go, minimalists packing light, and even local divers who simply want unequalled performance per ounce.

Technical Features

1st stage

ACD **AUTO CLOSURE DEVICE™**
ACD prevents water and debris from reaching 1st stage parts or lubrication, maintaining oxygen compatibility and extending life between services.

PERMANENT DRY CHAMBER
Dry chamber protects internal parts from water or contaminant damage, providing extreme durability.

2nd stage

COMFOBITE
Patented ComfobiteAqualung exclusive mouthpiece featuring a palate bridge to reduce jaw fatigue and keep the 2nd stage secure. Mouthpiece reduces jaw fatigue. Secures the 2nd stage more comfortably.

COVER OPENING CHANNELS
Wider opening allows water to pass sideways over the diaphragm, preventing freeflow in strong currents and reducing cracking effort.

NEW Helix Compact

HELIX COMPACT YOKE	RG154000
HELIX COMPACT DIN	RG154001

Something so small and light, you'd hardly notice it's there that was the goal that led to the new **Helix Compact**. This regulator is designed for anyone looking to save space while maintaining the advantages of a full-sized regulator. It offers unparalleled comfort, breathing ease, and function in a travel-sized package.

Technical Features

1st stage

BLUE HIGH PRESSURE SEAT
The core of the 1st stage, this seat opens and closes with every breath, forming a perfect seal with durable materials that work in all conditions and with all gasses.

DUST CAP PROTECTION
Protects the inlet fitting from damage and seals the first stage when it's off the tank.

2nd stage

COMFOBITE
Patented ComfobiteAqualung exclusive mouthpiece featuring a palate bridge to reduce jaw fatigue and keep the 2nd stage secure. Mouthpiece reduces jaw fatigue. Secures the 2nd stage more comfortably.

COVER OPENING CHANNELS
Wider opening allows water to pass sideways over the diaphragm, preventing freeflow in strong currents and reducing cracking effort.

Helix Pro Partner

HELIX PRO PARTNER DIN	RG150004
-----------------------	----------

A **Helix Pro** Partner version is a first stage with an Octopus, each with a unique serial number, an excellent choice for an alternative air source. The 1m long bright yellow hose on the 2nd stage allows for easy buddy sharing and visibility during dives. This regulator is cold water CE approved. It benefits from the patented ACD technology. The 1st stage is fully protected even when the regulator is not under pressure. The Aqualung **Helix Pro** can be reviewed every 2 years.

Technical Features

- Balanced diaphragm 1st stage provides superior, consistent performance.
- Heat exchangers on 2nd stage help to prevent ice forming on the mechanism.
- "T" shape body for streamlined hose positioning.
- In-line ergonomic Venturi knob allows for make precise adjustments, even while wearing gloves.
- Integrated dry chamber keeps inner components clean and dry by isolating them from the outside environment.

Helix

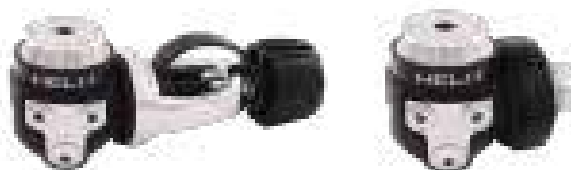

HELIX YOKE	RG150000
HELIX DIN	RG150001

PK HELIX DIN OCTOPUS	RQ135001

At the intersection of perfect performance and durable simplicity is the **Helix** regulator. This model combines high function through its balanced 1st and 2nd stages along with increased endurance.

Technical Features

- Perfectly balanced diaphragm 1st stage provides supreme performance at any depth or tank pressure.
- Easy-to-grip, in-line Venturi knob allows for precise adjustments to customize your breathing experience.
- T-shaped first stage body design allows for better streamlining of multiple hoses.

Titan

TITAN YOKE	RG128111
TITAN DIN	RG128112
TITAN YOKE + OCTO + SPG + BAG	RC126112
TITAN DIN + OCTO + SPG + BAG	RC126111
TITAN YOKE + OCTO	RQ133111
TITAN DIN + OCTO	RQ133112

The **Titan** regulator is reliable and robust. It integrates the lightweight feel, rugged durability and easy-to-breathe functionality of its predecessors. It offers excellent performance and easy maintenance at an affordable price. It's easy-to-maintain, lightweight, compact, and comfortable design makes it a great fit for beginners.

Technical Features

- Balanced diaphragm 1st stage provides superior, consistent performance.
- "T" shape body for streamlined hose positioning.
- In-line ergonomic Venturi knob lets make precise adjustments, even while wearing gloves.

Calypso

CALYPSO

CALYPSO YOKE	RG126111

CALYPSO PARTNER

CALYPSO PARTNER - DIN	RG126115
CALYPSO PARTNER - NITROX M26X2	RG126117

CALYPSO

The **Calypso** is always emulated but never equaled. It is compact, lightweight, easy to clean, pack, and maintain. It is durable and dependable in even the most demanding conditions, the perfect tool for dive centers.

CALYPSO PARTNER

A version of the **Calypso** delivered with a 1m long yellow hose and the **Calypso Octopus** 2nd stage. This regulator is cold water CE approved.

Technical Features

- The large-diameter piston gives you more stable pressure out.
- Designed with large holes in end caps for easy cleaning and better thermal exchange and improved resistance to freezing.
- Includes a 2nd filter, which can be changed without dismantling and provides increased protection from polluted air.
- In-line ergonomic Venturi knob allows for precise adjustments, even while wearing gloves.

Helix Compact Pro Octopus

HELIX COMPACT PRO OCTOPUS

RS146000

Whether you own a **Helix Compact Pro** & Helix Compact regulator or not, this small compact and friendly octopus is the one you want to take on your next dive trip.

Technical Features

INTERCHANGEABLE MOUTH PIECE
Mouthpiece tie is easily removed without tools and can be reused to avoid plastic waste.

COVER OPENING CHANNELS
Wider opening allows water to pass sideways over the diaphragm, preventing freeflow in strong currents and reducing cracking effort.

LEG3ND Octopus

LEG3ND OCTOPUS

RS119005

The **Leg3nd Octopus** provides the same great performance as the **Leg3nd** primary 2nd stage.

Technical Features

- The LEG3ND octopus is pneumatically-balanced resulting in smooth and easy breathing.
- A heat exchanger (patented) which surrounds the valve mechanism, dissipates the cold caused by gas expansion while drawing in the warmth of the ambient water.
- The easy-to-grip venturi lever prevents unwanted freeflow at the surface while giving a performance boost at depth.
- Includes 1m yellow hose and yellow front cover making it easy to locate in an emergency.

Helix Pro Octopus

HELIX OCTOPUS

RS144001

The **Helix Pro Octopus** provides the same great performance as the **Helix Pro** primary second stage.

Technical Features

- The Helix octopus is pneumatically-balanced resulting in smooth and easy breathing.
- A heat exchanger (patented) which surrounds the valve mechanism, dissipates the cold caused by gas expansion while drawing in the warmth of the ambient water.
- The easy-to-grip venturi lever prevents unwanted freeflow at the surface while giving a performance boost at depth.
- Includes 1m yellow hose and yellow front cover making it easy to locate in an emergency.

Calypso Octopus

CALYPSO OCTOPUS

RS137111

Compliment your **Calypso** and Titan regulators with this reliable, easy breathing octopus.

Technical Features

- Mid-size, high performance octopus to compliment the Titan and Calypso regulators.
- High visibility 39" yellow hose and high visibility yellow cover makes it easy to locate in an emergency.
- The venturi lever prevents unwanted freeflow when not in use.
- Easy purge front cover.
- Not recommended for overbalanced regulators of the Legend series.

ABS Octopus

ABS OCTOPUS

RS142111

The **ABS Octopus** has unique 120-degree angle between the hose and mouthpiece, so it works in right- or left-hand positions without kinks in the hose or the need to put the mouthpiece in upside down.

Z Valve

Simple one outlet valve. Can be used in yoke configuration up to 232 bars or DIN to 200 bars. Manufactured from quality brass which meets the very strict NFA51105 standard than warranties a very low level of impurities. It received a multi-coat plating with a final coat of chrome. Thanks to an insert it can easily converted from yoke (INT) to DIN connection.

Tag Valve

Two outlet valve. Can be used in yoke configuration up to 232 bars or DIN to 200 bars. Manufactured from quality brass which meets the very strict NFA51105 standard than warranties a very low level of impurities. It received a multi-coat plating with a final coat of chrome. Thanks to an insert it can easily converted from yoke (INT) to DIN connection.

Decades of design innovations and technological advancements means Aqualung has perfected the buoyancy compensator, exceeding the needs and expectations for all levels of divers. We've dialed in buoyancy control with our exclusive i3+ inflation/deflation mechanism.

We've created customization options galore with our unique ModLock system. And as the world transforms, we will continue to revolutionize jacket, back-inflate, and hybrid styles of BCDs. Rejoice in your BCD from Aqualung.

BCD's®

Our BCD Technologies.

WRAPTURE HARNESS™

An ultra-thin inner harness that fixes the BCD snug to the body to prevent riding up in the water while also distributing weight evenly by holding the tank closer to your center of gravity so you can stand and walk upright with ease.

GRIP LOCK TANK BAND

Tanks stay upright and secure with the GripLock Tank Band featuring a finger-saving metal buckle that will never pinch and micro adjustment options for the strap to help you quickly adjust for different sized cylinders.

SWEVELING BUCKLES

As you adjust the webbing, the buckle turns automatically to follow the fit of your torso.

BLADDER RETRACTION SYSTEM

Stretch webbing pulls in BCD bladder sides when deflated to eliminate drag and help streamline your profile, reducing your effort and lowering air consumption.

SURE LOCK II

Snap in the integrated SureLock II Weight Release System pockets with an audible “click” and quickly remove them with one smooth pull.

i3+

Exclusive to Aqualung, divers can adjust buoyancy with a simple side lever. Pulling up inflates in small or large bursts, and pushing down opens all the exhaust valves to vent without adjusting body position.

MODLOCK

This unique connector system creates easily interchangeable size and accessory configuration for a personalized dive.

Modlock™ System

Aqualung's patent-pending **Modlock™** connectors revolutionize the way we look at BCDs. Thanks to a round clipping design and 27 sizes configurations, the Modlock™ allows you to fully customize your BC for the perfect fit and needed accessories.

Beyond picking our base components such as the back pad, the waistbands, and the shoulders straps available in 3 sizes, you can add up a range of optional accessories such as

different sized trim pockets or an SMB holder.

Unlock each component in a matter of seconds to reduce volume for transportation or adapt your configuration before going diving. You won't need a special tool to do it, a simple pen or key works.

BCD Size Guide & Lift Capacity

Power. Performance. Peace of mind. That's the **Axiom i3+** Men's BCD. The incorporated exclusive i3+ inflation/deflation system means perfecting your buoyancy has never been so easy. Our innovative jacket-style BCD has an inner Wrapture harness that holds you tight and keeps you upright by distributing tank weight. Focus on the important part of diving—enjoying it—with the Axiom i3+.

Technical Features

WRAPTURE HARNESS™

An ultra-thin inner harness that fixes the BCD snug to the body to prevent riding up in the water while also distributing weight evenly by holding the tank closer to your center of gravity so you can stand and walk upright with ease.

i3+

Exclusive to Aqualung, divers can adjust buoyancy with a simple side lever. Pulling up inflates in small or large bursts, and pushing down opens all the exhaust valves to vent without adjusting body position.

SURE LOCK II

Snap in the integrated SureLock II Weight Release System pockets with an audible "click" and quickly remove them with one smooth pull.

SWEVELING BUCKLES

As you adjust the webbing, the buckle turns automatically to follow the fit of your torso.

BLACK / GREY / RED	BC17001102XS	BC1700110XS	BC1700110M	BC1700110ML

Simply the best women's BCD out there. The **Axiom i3+** for women offers our exclusive i3+ inflation/deflation system for easy buoyancy control. Our innovative jacket-style BCD has an inner Wrapture harness that holds you tight and keeps you upright by distributing tank weight. The BCD is shaped shortened, scalloped sides to take pressure off the hips and for those with shorter torsos. Experience the ultimate BCD for women's diving.

BLACK	BC1251001	BC1251002	BC1251003

Dive the way you've always dreamed go **Rogue**. This back-inflate BCD has the options you need with 27 combinations of interchangeable back, waist, and shoulder pieces that fit together via the ModLock connector system. Minimalist design in weight and volume means easy transportation of your gear anywhere you choose to dive.

Technical Features

MODLOCK

This unique connector system creates easily interchangeable size and accessory configuration for a personalized dive.

SWEVELING BUCKLES

As you adjust the webbing, the buckle turns automatically to follow the fit of your torso.

SURE LOCK II

Snap in the integrated SureLock II Weight Release System pockets with an audible "click" and quickly remove them with one smooth pull.

BLADDER RETRACTION SYSTEM

Stretch webbing pulls in BCD bladder sides when deflated to eliminate drag and help streamline your profile, reducing your effort and lowering air consumption.

The **Pro HD** is a wrap-around jacket with weight integration that is sure to appeal to a wide range of divers. It provides excellent value because it is so feature-rich for the price. Wherever you want to take it, it's ready to go.

Technical Features

- **PATENTED SURELOCK II WEIGHT SYSTEM.**
- **Gear Up!** Multiple pockets, D-rings, and knife attachment points make stowing and accessing gear easy.
- **Configurable** Some divers may prefer to run their instruments behind the left pocket and out the scooped opening on top, in front of the lobe.
- **Backpack Handle Easy** to carry: proprietary backpack has built-in handle.

LIGHT CORAL	BC1640194XS	BC1640194S	BC1640194M	BC1640194ML

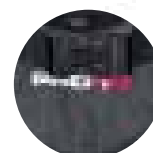

Strong. Sleek. Secure. The **Pro HD Women** is a wrap-around, jacket-style BCD designed to fit the female diver. With its adjustable waistband and specially curved shoulder straps, you can customize it for a perfect fit. Plus, its lower profile lobes and shorter torso length help it rest comfortably on the hips.

Technical Features

- **HYBRID JACKET ADV-STYLE** jacket combined with back inflation unit gives you the best of both worlds: a streamlined profile during your dive and the ability to float comfortably at the surface.
- **PATENTED SURELOCK II WEIGHT SYSTEM.**
- **OCTO POCKETS** Two octo-pocket locations for versatility: right lobe and top of front lobe.
- **Gear Up!** Multiple pockets, D-rings, and knife attachment points make stowing and accessing gear easy.

Pro HD Compact

	XXS/XS	SM/MD	MD/ML	XL/XXL
ORANGE	BC16501082XSXS	BC1650108SM	BC1650108MLL	BC1650108XLXXL

Tired of paying excess baggage fees? This ultra-light, weight-integrated, back-inflation BCD is everything you need without extra weight or bulk. Lift it and feel for yourself that even a ML/LG weighs less than 4.75lb/2.2kg with airway and weight pockets included! Can be packed flat or rolled. The perfect BCD for travel.

Technical Features

- Innovative tank support system eliminates the need for a hard pack.
- A valve strap pulls the top of the cylinder in towards the center of gravity transferring the load to the hips and relieving the shoulders.
- PATENTED SURELOCK II WEIGHT SYSTEM.
- Great packability – flat or rolled.

Dimension

	SM	MD	ML	LG	XL
BLACK	BC1340110S	BC1340110M	BC1340110ML	BC1340110L	BC1340110XL

Our high standards put the **Dimension** far above the standards in back inflation-style BCDs. This BCD incorporates our Wrapture harness system and SureLock II mechanical weight release system, and is made of specially developed ResisteK material to stand up to the most rugged conditions in salt or chlorinated water without fading or abrasion.

Technical Features

- **WRAPTURE HARNESS SYSTEM:**
An ultra-thin inner harness that fixes the BCD snug to the body to prevent riding up in the water while also distributing weight evenly by holding the tank closer to your center of gravity so you can stand and walk upright with ease.
- **GRIPLOCK TANK BAND:** Tanks stay upright and secure with the GripLock Tank Band featuring a finger-saving metal buckle that will never pinch and micro adjustment options for the strap to help you quickly adjust for different sized cylinders.
- **PATENTED SURELOCK II WEIGHT SYSTEM:**
allows you to easily insert the weight pouch and an audible “click” lets you know the weights are secure in the BCD. Once engaged, the weights can be released with a firm pull of the handle.
- **BLADDER RETRACTION SYSTEM:**
Bladder retraction system pulls in the sides of the bladder during deflation to keep you streamlined and reduce drag.

Lotus

	XS-SM	MD	ML
BLACK / CHARCOAL + removable weight pockets	BC1360110S	BC1360110M	BC1360110ML

The **Lotus** is a women's back inflation-style BCD that incorporates our integrated Wraapture harness system. The Lotus hugs the contours of the female body with specially curved shoulder straps and side lobes to provide an even better fit. Also includes SureLock II mechanical weight system.

Technical Features

- WRAPTURE HARNESS SYSTEM:**
An ultra-thin inner harness that fixes the BCD snug to the body to prevent riding up in the water while also distributing weight evenly by holding the tank closer to your center of gravity so you can stand and walk upright with ease.
- PATENTED SURELOCK II WEIGHT SYSTEM:**
allows you to easily insert the weight pouch and an audible "click" lets you know the weights are secure in the BCD. Once engaged, the weights can be released with a firm pull of the handle.
- GRIPLOCK TANK BAND:** Tanks stay upright and secure with the GripLock Tank Band featuring a finger-saving metal buckle that will never pinch and micro adjustment options for the strap to help you quickly adjust for different sized cylinders.
- BLADDER RETRACTION SYSTEM:**
Bladder retraction system pulls in the sides of the bladder during deflation to keep you streamlined and reduce drag.

You're ready for every adventure and unexpected situation with the **Wave** BCD: its fade-resistant ResisteK material is rugged and durable to resist fading and abrasion. This entry-level, wrap-around, jacket-style BCD has a sweet new look.

Technical Features

- ResisteK Material** Looks good, and stays that way: made of new, technologically advanced ResisteK material to resist fading and abrasion in saltwater and chlorine.
- Octo Pockets** Three octo-pocket locations for versatile, functional stowage that suits your preferences.
- BACKPACK HANDLE:** Easy to carry integrated handle.
- Additional Dump Option** Lower rear. Also has highly visible orange pull bob and can be used in horizontal or head-down orientations.

An underwater scene with a green and yellow coral reef in the foreground and a blue background filled with white bubbles. The word 'instruments' is written vertically in large white letters on the right side, with a registered trademark symbol at the top.

instruments®

**Dive instruments from Aqualung are
“Complex Made Easy.”**

**From our innovative TFT and IPS
screens to our simple magnetic
charging connection to the advanced
Bluetooth 5.0, today’s divers have
an unlimited wealth of convenient,
easy-to-use technology and connectivity
at their fingertips.**

**Discover a whole new world on your
next adventure with the reliability and
functionality of computers
and instruments from Aqualung.**

Our Instrument Technologies.

BT 5.0™

Bluetooth with twice the data transfer speed (2 Mbps) for uninterrupted connection and four times the communication distance as compared to Bluetooth 4.2.

MAGNETIC CHARGING CONNECTION

Power your dive computer in a snap with Aqualung's magnetic charging cable.

TFT

TFT (thin-film transistor) technology offers smooth screen changes for an uninterrupted view of your data along with increased energy efficiency when compared to a regular LCD display.

IPS™

IPS ("In-Plane Switching") screens provide better visuals with richer colors and accurate viewing from all angles, even in direct sunlight.

NATO STRAP

This unique strap design doubles back to create a full loop. A simple buckle closure helps the computer stay centered and fastened on your wrist.

DIVERLOG+ APP

Staying connected and managing your dives has never been simpler! Wireless Bluetooth Smart connectivity lets you wirelessly sync your dive data with the DiverLog+ app on your mobile device (available for iOS and Android). With your DiverLog+ app, you can remotely control all your dive computer settings, view dive log and profile data, add locations, notes and other details from your adventures. After your dive, share your memories, stats, photos, and dive site locations on social media.

* Our technology ensures that once set, your transmitter is permanently paired to your computer and you will not experience the frustration of a lost pairing underwater.

* To ensure accuracy and reliability in our analog collection, Aqualung goes well above the industry standard in utilizing the highest-quality Swiss-manufactured Bourdon tubes.

* Most of our computers are specifically designed with user-replaceable batteries for your convenience.

THE AQUALUNG DIFFERENCE

Aqualung controls all **aspects of design**, development and manufacturing of our dive instrumentation. We do this to ensure we have high **quality products** that our divers can rely on. Because of this commitment, you will find this **Aqualung Difference** throughout our product line.

Technical Features

- Easy-to-read scale up to 5,000 PSI / 350 bar rated.
- Nitrox compatible up to 50%.
- Luminescent gauge face for easy reading in low light.
- Swiss made, shock resistant Bourdon tube.
- Integrated temperature scale.
- Oneway safety valve.
- Hoselength is 36"/ 91.44cm.

Console, 2-Gauge

2 GAUGE - IMP	NS114117
2 GAUGE - MET	NS114118

Our **2-gauge** console includes a Pressure Gauge, Depth Gauge and Writing Slate. Designed with ease-of-use and simplicity in mind, the pressure and depth gauge displays are designed with such features as a luminescent gauge face for easy reading in low light. In addition, the **2-gauge** console can be easily upgraded in the future with the addition of a Compass.

Technical Features

- Easy-to-read scale up to 5,000 PSI / 350 bar rated.
- Luminescent gauge face for easy reading in low light.
- Integrated temperature scale.
- Nitrox compatible up to 50%.
- Swiss made, shock resistant Bourdon tube.
- Oneway safety valve.
- Hose length is 36" / 91.44cm.

Designed with readability in mind, Aqualung's **Compass** is perfect for navigation under any conditions.

Technical Features

- Large easy to read numbers.
- Large side view window allows for easy and accurate navigation.
- Luminescent gauge face for easy reading in low light.
- Fluorescent markings at 10°, 20°, 30°, and 130° for navigation in low-light environments.

Depth Gauge Wrist

WRIST, 200'	NS114136
DEPTH GAUGE WRIST, 60m	NS114137

The Aqualung **Depth Gauge**, with its specially designed depth scale and luminescent gauge face, allows for easier reading at a glance.

Technical Features

- High fidelity depth scale provides easier reading at shallow depths.
- On the wrist mount version the strap is designed to fit a variety of wrist sizes and wet/drysuit meters.
- Maximum depth indicator.
- Luminescent gauge face for easy reading in low light.
- Wrist mount boot allows for future upgrades to the i300C dive computer module.
- Available in imperial or metric.

Transmitter

TRANSMITTER	NS119113
TRANSMITTER O2 CLEAN	NS119114

Aqualung's **Transmitters**, used in conjunction with a compatible wrist computers, allow you to monitor current pressure and gas time remaining without a stiff high pressure hose, while providing a more streamlined profile.

Technical Features

- Hoseless Gas Pressure Transmission for the i450T, i470TC, i750TC, i770R and i770RTX.
- Battery is user changeable and commercially available.
- Nitrox compatible up to 40%.
- Once set, the transmitter is permanently paired and will not accidentally pair with other computers.

See the world clearly with a new mask from Aqualung. Our technologically advanced masks suit every diver's needs and unique face shape.

Frameless technology provides panoramic views while dual-lens masks provide the option for easy, snap-in lenses.

Our emphasis on innovative design and our use of quality materials in our snorkels delivers comfort and fit you need to breath easy and feel confident on your dive.

Snorkels & Masks[®]

Our Mask Technologies.

ADVANCED FIT TECHNOLOGY™

Only available from Aqualung, AFT creates varying textures within the silicone so it can better conform to any face shape to improve sealing and comfort.

QUICK RELEASE BUCKLES

Even thick gloves won't get in the way of this one-touch adjustment system with buckles attached directly to the silicone skirt for added stability of the mask on the face.

PRESSURE REDUCTION ZONE

Each mask is reinforced for stability and pressure points are reduced to maximize comfort and eliminate leaks.

NEW LENS QUICK RELEASE SYSTEM

Remove and replace lenses safely and in a quick snap with our special locking system and included tool.

FRAMELESS TECHNOLOGY

By eliminating the frame, the silicone is sealed directly to the lens, creating a compact and close-fitting design for optimal vision.

UNIVERSAL ADVANCED SILICONE SKIRT™

Our advanced technology and wrap-around geometrical shape made of crystal-clear, soft silicone provides the perfect fit for the widest variety of face shapes and sizes.

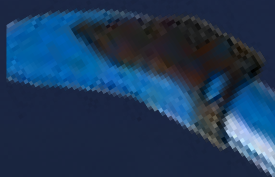

CARDANIC JOINT BUCKLES

Used to permit both vertical and horizontal rotation of the buckle, the joint will never pinch your face or pull the mask.

Twin elliptical silicone purge valves

Purge channel splash guard

Purge System

From the twin elliptical silicone purge valves on the Aquilon **Purge** to the single valved solutions on the Zephyr and Zephyr flex you gain an efficient draining snorkel. To give you a safe dry and comfortable breath. All our splash guards feature a purge channel to allow the majority of the water to escape directly.

Comfo-Bite™ Mouthpiece

The Patented **Comfo-Bite™** Mouthpiece is constructed of hypoallergenic silicone to reduce fatigue and is also available in a midi version and can be easily replaced.

CUSTOM LENSES

OUR LATEST MODELS OFFER A CHOICE OF CUSTOM LENSES TO ENHANCE YOUR VISUAL EXPERIENCE UNDERWATER. CHOOSE YOUR CUSTOM LENSES BASED ON YOUR MOST COMMON DIVING CONDITIONS.

CLEAR
Standard clear lens.

ULTRA CLEAR
Compared to standard glass, there is no green tint to be seen. This glass is clear to the edge. It renders colors, textures and shapes with impressive clarity.

MIRROR
This lens reduces reflection and glare, making it ideal for conditions with high light levels in shallow water or a sandy seabed.

Zephyr Flex

HOT LIME / BLACK	SN135113
BLUE / BLACK SIL	SN135112
BLACK / BLACK SIL	SN135111
PETROL / WHITE	SN1359809
BLACK / ORANGE	SN135114

Technical Features

- At the very heart of the snorkel is our shaped and protected silicone Elliptical Purge Valve: the shape of the valve guarantees sealing as well as ease of purging.
- The anatomically-designed mouthpiece made from medical silicone reduces jaw fatigue.
- The joint between the mouthpiece/valve box and the corrugate is a swiveling sealed connection that rotates for a better fit.
- The large snorkel retainer is very easy to use even with thick gloves, thanks to an ergonomically-designed structure.
- The D-barrel-shaped tube helps the Zephyr Flex rest more streamlined against the diver's face.

Aquilon

	BLUE / BLACK	SN117112
	BLACK / BLACK	SN117111
	BLACK / WHITE	SN1170109

Technical Features

- Type: Traditional.
- The top is made of a TPR soft material to be safe and harmless.
- Anatomic mouthpiece 100% silicone.

Air Dry

	BLACK / BLACK SIL	SN114113
	HOT LIME / CLEAR SIL	SN114112
	MET BLUE / CLEAR SIL	SN114116
	SILVER / CLEAR SIL	SN114117

Technical Features

- Vent system over the tube reduces water splash-in.
- Lower reservoir with two purge valves.
- Flexothane tube is supple yet resistant.
- Comfo-bite silicone mouthpiece.

NEW Impulse Classic Flex

YELLOW	SN3110107
BLUE	SN3110140
WHITE	SN3110109
BLACK	SN3110101

Technical Features

- **KEEPS WATER OUT**, the **Impulse** has two valves: if a wave breaks over the snorkel, the upper valve directs most of the water out before it reaches the mouthpiece. But if water does get past the first valve, it will drain out through the lower valve.
- **CLEARs EASILY**, in the unlikely event that you would need to clear the reservoir below the mouthpiece, all it takes is a gentle puff of breath.
- The flex section allows for easy positioning and will drop away when not in use.

Impulse Dry

BLACK	SN1740101
BLUE	SN1744001
WHITE	SN174115
TROPIC YELLOW	SN1740701
RED	SN1740601
PETROL	SN1749801

Technical Features

- **Fast Valve Response**: Our patented Impulse Dry valve faces forward so that it closes faster.
- **Easily switch from scuba back to snorkel**: the self-draining purge valve prevents water entry.
- **Eliminates Jaw Fatigue** with our patented Comfo-Bite mouthpiece does not necessitate clenching your teeth.
- The flex section allows for easy positioning and will drop away when not in use.

From full-foot to open-heel, your next pair of fins from Aqualung are waiting. Our fins are technology-packed to provide the ultimate in durability, control, and performance.

Comfort is key and ensured by our ergonomic features such as the mid-foot pivot point or customizable options such as our three choices of heel straps. Kick confidently with fins from Aqualung.

Fins®

Our Fin Technologies.

MID FOOT PIVOT POINT™ (PATENT)

The fin blade connects via dual pivot points to the middle of the foot pocket, allowing for a natural foot position, larger range of motion, and increased control.

WAVE RIB TECHNOLOGY™

Unique composite material side ribs produce a wave effect as your energy output is transferred through the fin, providing power improving kick efficiency.

CHANNEL STRUCTURE

Molded channels are structured for smoother water movement over the blade, producing strong movements in any water conditions.

HYDRO POWER VENT

Vent at the top of the foot pocket allows water to channel through the blade, reducing resistance and providing stability for any kicking style.

Wave Rib

The elastomer rubber sections of the side ribs work together with the wave-shaped structures, accumulating (loading) the energy

of every kick that is released during the kick cycle. The effect is a solid, powerful yet easy kick.

Straps & Buckles System

Our buckles and straps are fitted to the fin using a mushroom fitting, this aids the buckle in both being fully secure while still being able to rotate in all directions no matter what force

is applied. The straps used are varied from our Silicone Bungee to stainless steel springs to our made in house polymer straps.

Mid Foot Pivot

Aqualung's Mid-foot pivot patented technology links the blade to the middle of the foot pocket through two pivot points. This allows the foot and toes to keep the natural stable position while keeping a wide range of motion in the blade. The result is more comfort, energy, control and efficiency.

Kick it like a pro, even if it's your first dive: the **Stratos ADJ** is designed for ease, with responsive, dual-material side ribs and blade to help you get the most out of your kick. The blade quickly reaches the optimal angle needed to move water quickly and efficiently. This is a strap-style fin for easy adjustment.

Technical Features

- **ERGONOMIC STRAPS:** Ergonomic straps let you adjust the size for your perfect fit. Easy to operate, even while wearing thick gloves.
- **MAXIMUM EFFICIENCY:** Softer materials hold your foot while a more durable material is precisely placed to prevent the fin from stretching during the crucial power stroke of the kick cycle.
- **OPTIMAL POSITIONING:** Flexible material between the blade and pocket aids in positioning of the fin for maximum propulsion.

A full-pocket, entry-level fin that’s ideal for your next scuba or snorkeling adventure. Lightweight yet robust, compact yet comfortable, this fin is ideal for travel. Enjoy the ergonomic foot pocket designed for the anatomy of the foot. This fin features a rigid sole for optimal foot protection and smooth power transition to the blade.

Technical Features

- **FULL-POCKET DESIGN:** High comfort, no booties required. Full-pocket fins give you increased perception of your kicks effect on the water. Foot pocket is made of soft material for comfort.
- **RESPONSIVE, DUAL-MATERIAL CONSTRUCTION:** Blade is made of lightweight polypropylene with rubber inserts for durability and elasticity. Structured side ribs ensure progressive, controlled flexing of the fin.
- **STABLE FIT:** Grip on inner sole ensures stability by preventing your feet from sliding around inside the fin. This means you’re less likely to lose your fin or waste energy from your foot moving inside the pocket.
- **RIGID SOLE:** The rigid sole offers optimal foot protection and smooth power transition to the blade.

Aqualung's Drywear collection is produced using the highest quality durable materials offering the best flexibility and movement.

The culmination of years of innovation and testing, our versatile suits give you the ultimate combination of fit, warmth, and comfort.

A woman with curly hair, wearing a black wetsuit, is looking down. The wetsuit has 'AQUILA' printed on the chest and 'DRYWEAR' on the sleeve. A circular logo with a stylized 'N' is visible on the sleeve. The background is blurred, showing what appears to be a boat or outdoor setting.

Blizzard Slim Fit

The **Blizzard slim fit** dry suit is Aqualung's ideal entry-level dry suit it comes with a high level of quality matched by equally good looks. The re-designed **Blizzard slim fit** now includes a new cargo pocket with a large opening and an integrated mesh drain panel. The dry suit is constructed with compressed 4mm neoprene to limit the extra buoyancy and keep its thickness even at depth, and it comes with comfortable suspenders.

Technical Features

- Environmentally friendly PAH (Polycyclic Aromatic Hydrocarbons) free neoprene.
- Durable Small Diamond coating on shoulders and arms increases durability.
- Watertight taped interior seams for watertight integrity.
- Highly visible ultra-reflective safety tape.
- Abrasion Resistant Powertex reinforcement panels.
- Wide opening cargo pocket with mesh drainage panel for extra storage.

Alaskan

The **Alaskan** is our latest design in trilaminate drysuits. It features a telescopic torso and front zipper that allow the diver to equip himself. The neck and wrist seals are produced in latex and boots have reinforced soles for increased durability.

Technical Features

- Telescoping torso for ease of donning.
- Adjustable crotch strap and suspenders secure suit in place.
- Latex wrist & neck seals keep water out.
- Spacious pockets with attachment loops.
- Durable material overlays in seat and knees for longer life in high-wear areas.

Swimsuit Freeflex

Freeflex

Focus on the joys of connecting with nature. **FreeFlex** is designed for ultimate stretch, fitting like a second skin you can wear all day. Freedivers will enjoy the high performance and premium hydrodynamic materials that allow you to glide easily through the water on your way to adventure.

Technical Features

- 2MM Yamamoto neoprene is petroleum free and ultra-stretchy for added sustainability and comfort.
 - Lower half of the suit features Glideskin finishing for improved hydrodynamics.
- Sophisticated color palate is reflected through fresh graphics for a stylish look that matches how good you feel.
 - Simple construction means minimizing issue points and maximizing freedom of movement.

Sphera X

Our number one seller for freediving, the **Sphera X** is our lowest volume mask. It offers a panoramic view of your surroundings, premium silicone for the ultimate fit, and an EVA zippered case to reduce waste and protect the Plexisol lenses which are embedded with anti-fog properties. Dive without limits with the **Sphera X**.

Technical Features

 **ADVANCED FIT TECHNOLOGY™**
Only available from Aqualung, AFT creates varying textures within the silicone so it can better conform to any face shape to improve sealing and comfort.

Micromask X

A revolutionary mask design that positions the lenses within your ocular orbit (the natural facial recesses of the eyes). This results in significantly improved peripheral vision and an incredibly low internal volume. Plus, patented Micromask technology reduces frame bulk for a low profile, reducing drag.

Technical Features

CARDANIC JOINT BUCKLES

Used to permit both vertical and horizontal rotation of the buckle, the joint will never pinch your face or pull the mask.

Cyclone X

These fins are lightweight and reactive thanks to a thermoplastic blade construction. The foot pockets use a soft rubber for efficient power transfer with a lateral rips for progressive blade flex. The **Cyclone X** Fins add another level of adaptability with the use of a modular system to suit your diving needs. The modular design is also perfect for travelling, allowing the fins to be disassembled and packed into shorter travel bags and reassembled at the destination. This new tip profile will prevent slipping from side to side while kicking.

NEW Freediving Buoy 50L

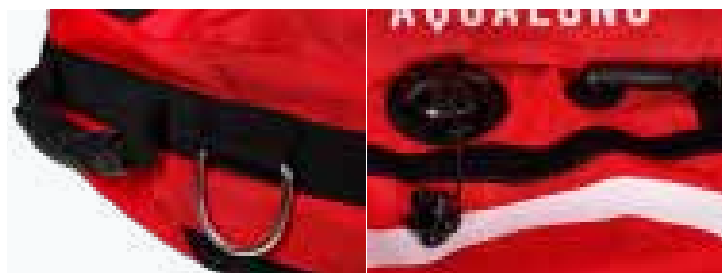

RED/WHITE

FL136060950L

This **freediving buoy** is dedicated to freediving. The flag is included. It is made of a highly resistant outer material and has multiple handles and D-rings for preparing the dive. The large internal space allows the halyard to be stowed away during transport. The inflation device can be oral or pump-assisted. The adapter is not provided.

Technical Features

- Oral Inflator & Dump valve.
- 3 robust handles and 3 lateral handles to hold in the water.
- Fast drainage thanks to the Single-layer net design at the bottom.
- Large opening zipper on the top.
- 1 D buckle at the bottom.
+ 2 D buckles on the side.
- Standard diving flag to be fixed inside the dedicated loop.

Aquilon

● BLUE/BLACK	SN117112
● BLACK/BLACK	SN117111
● BLACK/WHITE	SN1170109

Technical Features

- The top is made of a TPR soft material to be safe and harmless.
- Anatomic mouthpiece 100% silicone.
- Type: Traditional.

From our premium super stretch neoprene to our environmentally friendly Yulex neoprene alternative, Aqualung has the modern wetsuits to suit every diver's preference and needs. Innovative technologies such as water-based glues and liquid fusion seams offer superior performance in every detail. Experience the warmth, comfort, and style of Aqualung wetsuits.

Wetsuits[®]

Our Wetsuit Technologies.

**LIQUID FUSION**

Liquid fusion technology coats triple-stitched seams for added durability and ankle cuff seals to limit water entrance.

**WATER BASED GLUE (AQUA A)**

Eco-friendly, water-based glues replace volatile solutions used in other bonding agents.

**POWERTEX KNEEPADS**

Durable Powertex kneepads provide protection for high-abrasion areas while maintaining superior flexibility.

**YULEX™**

A neoprene-free, plant-based foam rubber that is soft on sensitive skin and still offers the performance of any great wetsuit.

**SUPER STRETCH**

An innovative neoprene used in our premium wetsuits that has 3x the stretch of standard neoprene.

Environmental friendly features

Aqualung is committed to using environmentally friendly materials and processes whenever possible to help reduce our carbon footprint.

LAMINATION

Water Based Glue

The laminating glue is water-based hence eliminating solvent volatile compounds.

FABRICS

Dope-Dyed Yarn

Dope-dyeing infuses dye pigments into molten plastic solution to produce colored yarns without dyeing process. This saves tremendous amounts of water while reducing energy consumption and water pollution.

NEOPRENE RUBBER FOAM

Eco Carbon Black

Carbon black, one of the key ingredients of neoprene, can now be pyrolyzed made from scrap rubber tires. This significantly reduces energy consumption and reduces CO2 emission by 200g per wetsuit.

Ultra Flexible Neoprene

Aqualung has innovated its own Superstretch neoprene material called AquaFlex. Used throughout the whole suit, our AquaFlex neoprene has three times the stretch of standard neoprene and is available in our premium wetsuits.

RASHGUARDS

Our range of rashguards is all for a better protection against UVA and UVB.

Thanks to the polyester, they are long lasting in pools and highly chlorine resistant.

100% RECYCLED

The polyester fabric used for our rashguards is 100% sourced from recycled plastic bottles.

Iceland

Chosen by instructors and dive teams all over the world, the **Iceland** is our most advanced and semi-dry yet. Made for durability and performance, outer materials stand up to anything you put this suit through while inner materials remain soft for all-dive comfort. Experience unparalleled warmth, exceptional movement, and flexibility like you've never felt before.

Technical Features

LIQUID FUSION
Liquid fusion technology coats triple-stitched seams for added durability and ankle cuff seals to limit water entrance.

POWERTEX KNEEPADS

NEW DynaFlex

Full Suit - Back Zip

DynaFlex offers unparalleled fit and performance for all your cold-water dives. We used only the highest quality materials and techniques to create this innovative take on the classic back zip full suit. You can dedicate your whole day to diving in this ultra-stretch, ultra-comfy, and ultra-warm suit.

Technical Features

SUPER STRETCH

An innovative neoprene used in our premium wetsuits that has 3x the stretch of standard neoprene.

WATER BASED GLUE (AQUA A)

Eco-friendly, water-based glues replace volatile solutions used in other bonding agents.

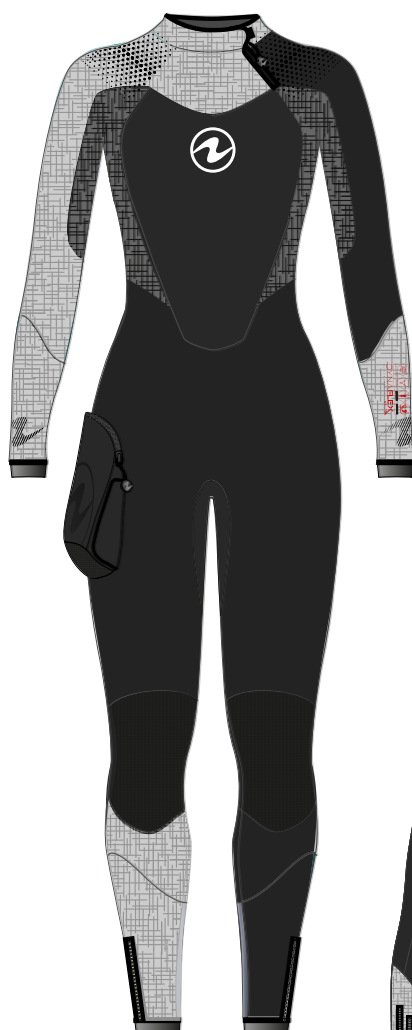

POWERTEX KNEEPADS

Durable Powertex kneepads provide protection for high-abrasion areas while maintaining superior flexibility.

Wave modular system

The Wave modular wetsuit system provides versatile options that are durable and comfortable. The modular system addresses wetsuit needs for a variety of water temperatures—from 13° to 25°C (55°F -77°F). For colder waters, there is an add-on step-in jacket and an optional hood or the 6mm jumpsuit with hood attached and front zipper. For warmer water, the reversible shorty offers the right solution. Thanks to the high-density neoprene, the size markings inside and outside (one color per size), and the white personal identification field to write the number of the suit along the zipper, the **Wave** collection provides the perfect solution for intensive use.

Wave 6mm with Hood

Technical Features

- 6mm high density neoprene (petroleum free).
- Durable thanks to the double-glued, two-thread blind-stitched seams.
- All seam junctions are sealed by a small patch to offer superior warmth, comfort and durability.
- Ring seals on arms and legs stop water entry.
- Ankle zipper on the model with ergonomical hood attached and front zipper.
- Powertex knee panel for more durability.

NEW Wave Junior Jumpsuit

The key to stoking a lifelong desire for adventure in kids is to provide a small amount of challenge, create opportunities for wonder, and minimize discomfort. That's why we've designed an ultra-stretchy, low-bulk kid's wetsuits available in 4mm thicknesses thick to keep small bodies insulated. Give them the chance to reach for something new.

Technical Features

- 7mm/4mm ultra stretch neoprene easy to pull on and off.
- Embossed knee pads.
- Long lasting seams are glued and blind stitched to keep the water out.
- 4mm, can be use as extra protection over a wetsuit or as a shorty for warm water.

CeramiQskin

Our **CeramiQskin** first layer range is the most advanced Aqualung undergarment ever designed to assist you in staying warm during dives. It can be used under a drysuit or a wetsuit, or it can even be used alone for warm water dives.

The material is an exclusive and technical fabric that gives a high level of thermal protection, zero buoyancy and extreme comfort thanks to the Ceramic technology applied in the tri-laminated fabric. **CeramiQskin** is a blend of Lycra exterior with a breathable Polyurethane (PU) membrane and polar fleece inside.

Technical Features

- Tri-laminated fabric: Lycra for elasticity on the outside, PU membrane with Ceramic technology in the middle for warm protection, and polar fleece against the skin for warmth and comfort.
- Zero buoyancy.
- Ceramic technology based from volcanic rocks, reflects infrared rays generate by the body to keep you warmth.
- Designed in France.

Gloves

Liquid Grip

	XS	S	M	L	XL
UNISEX 5 MM	GL1350140XS	GL1350140S	GL1350140M	GL1350140L	GL1350140XL
UNISEX 3 MM	GL1340140XS	GL1340140S	GL1340140M	GL1340140L	GL1340140XL

Aqualung **Liquid Grip** Gloves deliver optimal comfort, warmth and functionality. Liquid rubber seams help the gloves last longer with reduced water transfer and thread fraying. Patented X-tend cuffs provide a durable edge without reducing stretch.

Technical Features

- 3mm or 5mm neoprene thickness.
- Embossed grip for maximum grip.
- Liquid rubber-coated seams.
- X-tend cuff finish to preserve stretch and durability.

Dry Comfort

	XS	S	M	L	XL
UNISEX 4 MM	GL1170101XS	GL1170101S	GL1170101M	GL1170101L	GL1170101XL

4 mm **Dry Comfort** gloves that are extremely comfortable in cold waters. They feature two skin, glued & tapped seams and a rubberized coating on the palm for added durability.

Technical Features

- 4mm Seeflex Nylon II neoprene.
- Dry gloves: Double skin out wrist seals are completely watertight.
- Glued and taped seams.

Gloves

Thermocline K

	XS	S	M	L	XL	2XL
UNISEX 5 MM		GL1720106S	GL1720106M	GL1720106L	GL1720106XL	GL17201062XL

These ultra-rugged, warm, and highly ergonomic gloves give you protection and range of motion without expending extra energy on grip. With ballistic-strength nylon fiber on the palms, they provide optimal abrasion protection in harsher conditions and during high-adrenaline activities.

Technical Features

- 3mm or 5mm neoprene.
- Palms, fingers and fingerip backs in durable ballistic-strength nylon for durability.
- Triple-glued and blind stiched seams.
- Adjustable cinch closure at the wrist.

Thermocline

	XS	S	M	L	XL
UNISEX 5 MM	GL1330101XS	GL1330101S	GL1330101M	GL1330101L	GL1330101XL
UNISEX 3 MM	GL1320101XS	GL1320101S	GL1320101M	GL1320101L	GL1320101XL

You don't have to sacrifice range of motion for warmth with our **Thermocline** Glove, it's cut to mirror a gentle, natural flexion in the fingers to eliminate fatigue and make gripping easier. Choose from either 3mm or 5mm thicknesses to keep you warm.

Technical Features

- 3mm or 5mm neoprene (over 200% original size).
- Rubberized palm for better grip.
- Triple-glued and blind stitched seams.
- Adjustable cinch closure at the wrist.

Gloves

Admiral III

	XS	S	M	L	XL
BLACK / GREY	GL1260112XS	GL1260112S	GL1260112M	GL1260112L	GL1260112XL
BLACK / PURPLE	GL1260501XS	GL1260501S	GL1260501M	GL1260501L	

Wave hello to warm waters in a pair of 2mm **Admiral III** scuba diving gloves. Best suited to warm-water dives, they provide moderate protection, grip, and warmth.

Technical Features

- Poly-suede palm.
- 2mm neoprene.
- Adjustable hook-and-loop wrist closure.

Admiral II

	XS	S	M	L	XL	2XL
BLACK / WHITE	GL131111	GL131112	GL131113	GL131114	GL131115	GL131116

The Aqualung Admiral II gloves are just like the **Admiral III** gloves, but with more a more conservative look. They provide comfort during warm water dives, high stretch elastic finger gussets and adjustable hook & loop wrist closure. The durable poly suede palms are white to make signaling and hand signs easier to see under water.

Technical Features

- Poly-suede palm.
- 2mm neoprene.
- Adjustable hook-and-loop wrist closure.

Boots

Manta

	37	38/39	40	41	42/43	44	45	46/47
BLACK 5MM	BS167010137	BS16701013839	BS167010140	BS167010141	BS16701014243	BS167010144	BS167010145	BS16701014647

Manta Boots feature a raised heel, built-in arch, and a patented two-seam pattern for added comfort. Arch support ensures that your foot and ankle are stabilized. Manta Boots come equipped with a heavy-duty zipper for easy donning and doffing. Seams are glued and sewn to maximize boot strength and durability.

Technical Features

- Comfortable as a sneaker shoe: compression-molded sole build in arch support, and raised heel.
- Slip-resistant.
- Durable thanks to the heavy-duty fabrics and non-corrosive zipper.

SuperLow

47	BS194014047
48	BS194014048
49	BS194014049

The ideal warm water dive boot, **SuperLow** Boots are made from as few seams as possible, strategically placed away from the foot's widest areas to decrease chafing. Less seams doesn't mean less protection, as these boots are designed to prevent excess water retention and come with a treaded sole that keeps your feet from getting punctured or stung in and out of the water.

Technical Features

- 3mm neoprene.
- Maximum comfort thanks to ISO the Ergo shaped footbed and outsole to match the profile of the foot.
- Non corrosive YKK zippers.
- Thick treaded sole to protect the feet and specific pattern for slip-resistance.

Keep your feet warm and secure. The **SuperZip** Boots protect your feet with a tight seal that reduces water transfer to keep them warmer for longer. Meanwhile, the cuff binding is made from elastic to provide a more comfortable fit. **Superzip** Boots are strengthened with extra padding in the sole, toe cap, and heel cap to keep them going strong dive after dive.

Technical Features

- 3, 5 or 7mm neoprene.
- Maximum comfort thanks to the Ergo shaped footbed and outsole to match the profile of the foot.
- Protective 8mm thick treaded sole and additional protection and durable panels on critical areas on the upper.
- Non corrosive YKK zippers.

EchoMid Boots offer the ideal solution to various conditions. Whether adding extra warmth underwater or keeping your feet protected walking on shore, these pull-on boots are a water lover’s best friend. **Echomid** Boots are crafted with an anatomically correct shaped footbed and outsole to increase comfort by matching the profile of your foot.

Technical Features

- Mid profile available in 3mm and 5mm neoprene.
- Maximum comfort thanks to the Ergo shaped footbed and outsole to match the profile of the foot.
- Non corrosive YKK zippers.
- Thick treaded sole to protect the feet and specific pattern for slip-resistance.

Ergo Sock

	XS	S	M	L	XL
BLACK / BLUE 3MM HIGH	BS1490140XS	BS1490140S	BS1490140M	BS1490140L	BS1490140XL
BLACK / BLUE 3MM LOW	BS1450140XS	BS1450140S	BS1450140M	BS1450140L	BS1450140XL

Protect your feet in all conditions with socks. We’ve designed this one to be worn comfortably with a wetsuit or drysuit: it adds a layer of warmth in cold waters and prevents blisters while wearing open-heel fins. Booties also protect your feet from scrapes and stings when wading in and out of the water during shore dives.

Technical Features

- 3mm neoprene available in high and low profile.
- Silicone print on the sole for grip.
- Glued and blind-stitched seams prevent water entering.

Vest

Hooded UnderVest

	XS	S	M	L	XL	2XL
BLACK - MEN		NE1230101S	NE1230101M	NE1230101L	NE1230101XL	NE1230101XXL
BLACK - WOMEN	NE1240101XS	NE1240101S	NE1240101M	NE1240101L	NE1240101XL	

With an ergonomic shape and integrated aluminum coating, the hooded undervest is the most advanced undersuit available from Aqualung. The aluminum coating acts like a shield and reflects your own body heat back to you, keeping you warm during cold water dives. Enjoy a perfect collar seal, created when the glide skin seals with the internal skin of your wetsuit, keeping water exchange to a minimum.

Technical Features

- 2.5mm superstretch neoprene (petroleum free) with aluminium coating to increase warmth.
- Collar in Glide skin for perfect sealing.
- Face seal to limit water entrance and bubble vents to remove trapped bubbles.

Explorer II Folder

● BLACK FOLDER, 141L BA134111

If your active lifestyle leaves you short on storage space, here's a big roller bag that folds into a small space when not in use. Part of our complete line of coordinating **Explorer II** bags for the traveling diver.

Technical Features

- Durable 1680D polyester and corrosion-resistant zippers.
- Rugged wheels and lightweight, extendable aluminium handle.
- Folding base for easy, low-profile storage.
- Size Folded 30 x 17 x 3" (76x43x7.5cm).
- Size unfolded 30 x 17 x 17" (76x43x43cm).
- Weight 10Lbs (4.5Kg).
- Volume: 140L.

Explorer II Roller

● BLUE BA1764001

● BLACK BA134112

This rolling luggage accommodates a full dive kit and all your other travel gear. Designed especially for scuba, it has side pockets that will fit our larger fins for stowing on the go. Coordinates with the rest of our **Explorer II** line of bags.

Technical Features

- Durable 1680D polyester and corrosion-resistant zippers.
- Protective internal frame structure to be shock-absorbent, skid rails protective V-diamond base and eight corner guards.
- Rugged Wheels and lightweight, extendable aluminium handle.
- Side pockets for the fins.
- Size 29 x 20 x 13" (73x51x33cm).
- Weight 9.5Lbs (4.4 Kg).
- Volume: 120L.

Explorer II Carry on

● BLACK BA134113

The **Explorer II Carry-On** is uniquely designed to pack an entire set of Aqualung travel specific dive gear. This bag has handles on both sides to help you get it in and out of airplane overhead compartments and comes with external and internal organization pockets.

Technical Features

- Durable 1680D polyester and corrosion-resistant zippers.
- Protective internal frame structure to be shock-absorbent, skid rails, 138 protective V-diamond base and eight corner guards.
- Rugged Wheels and lightweight, extendable aluminium handle.
- Size Folded 22 x 14x 8" (55 x 35.5 x 20cm) - 7.3Lb (3.3Kg).
- Volume: 40L.

Explorer Collection II : Duffel Pack

GLACIER	BA1774301
BLUE	BA1774001
ORANGE	BA1770801
BLACK	BA134114

With its carry-on dimensions, stowaway backpack straps, and mesh drying pocket, this is the most versatile dive pack on the market today. It's designed especially for scuba, with fin straps that hold any fin. Part of the complete line of Explorer II bags to get you outfitted for dive travel.

Technical Features

- Durable 1680D polyester and corrosion-resistant zippers.
- Protective internal padding, protective V-diamond base and six corner guards.
- Mesh drying pocket.
- Side pockets for the fins.
- Size 24x13x9" (61x33x23cm).
- Weight 3.5Lbs (1.5 Kg).
- Volume: 45L.

Adventurer Mesh

● BLACK	BA1750101
● RED	BA1750601
● BLUE	BA1754001
● GLACIER	BA1754301

Need a bag to store your gear between dive trips? Tired of wheeling your fancy travel luggage full of dive gear to the beach? Have an unorganized rental locker? The Aqualung **Adventurer Mesh** Bag is the perfect solution. Whether it's used to differentiate kit sizes in a dive locker, brought on a trip to leave your luggage in the hotel or just to keep your gear packed neatly away, the **Adventurer Mesh** Bag is up to the task.

Technical Features

- Soft Polyester mesh body folds down to the size of a sweatshirt for easy packing and travel.
- Mesh body allows to rinse your whole kit and let it dry while on the go.
- Corrosion resistant zippers.
- Removable padded shoulder strap.
- Size: 34 x 76cm.
- Weight 0,6kg (1,25livre).
- Volume: 70L.

Explorer II Regulator Bag

● BLACK BA1780101

The Aqualung **Explorer II Regulator Bag** is the perfect bag for protecting your regulators. The combination of foam and PE padded walls protect your delicate gear while the round shape minimizes hose kinks. The compact design packs flat and pairs with all the bags in the **Explorer II** Collection.

Technical Features

- Corosion resistant zipper.
- Protective padding.
- Size: 13x12x4" (33x30x10cm).

Travel Dry Bag

● BLACK BA111131

Perfect durable waterproof bag to carry wet equipment.

Technical Features

- Bag made with Tarpolin.
- 2 screwed Valves.
- Size: 85x35x45cm - 130 Liters.

These Small **Squeeze** Knives feature the time-tested patented “squeeze-lock” design which allows the user to easily remove and secure the knife into the sheath, every time. The articulated handle, metal butt cap and blade safety features are meticulously designed to suit the needs of a diver. It has even got a bottle opener and can be mounted on to any BCD.

Technical Features

- 8.9cm (3 1/2 in.) blade, 17.8cm (7 in.) overall length.
- 304 stainless steel or high grade Beta Alloy Titanium.
- Patented Locking mechanism.
- Nylon with fiberglass fill handle and sheath.

Micro Squeeze

MICRO SQUEEZE BLUNT TIP BLADE KN11811

MICRO SQUEEZE SAFETY BLADE KN11911

Small but mighty. These **Micro Squeeze** Knives feature the time-tested patented “squeeze-lock” design which allows the user to easily remove and secure the knife into the sheath, every time. This tiny knife can be mounted to your Aqualung buoyancy compensator pocket with the mounting hardware, to the chest strap, the shoulder straps or to a wrist computer strap for ultimate quick response and convenience.

Technical Features

- 5.1cm (2 in.) blade, 9.5cm (3 3/4 in.) overall length, 18.4cm (7 1/4 in.) including the handle extension webbing.
- 304 stainless steel or high grade Beta Alloy Titanium.
- Patented Locking mechanism.
- Nylon with fiberglass fill handle and sheath.

A close-up photograph of a diver's hand. The hand is holding a circular flashlight with a bright yellow lens. The diver is wearing a blue and white patterned wristband and a black sleeve with white diagonal stripes. The background is blurred, showing what appears to be a BCD inflator and other diving equipment.
