Underwater exploration was forever changed with the invention of the Aqua-Lung, known today as the regulator. **Consequently, the sport of Scuba Diving was born.**

Since then, AQUALUNG has consistently **developed state-of-the-art dive technologies**, paving the way to the present day, where we are industry leaders in regulators and BCDs. Innovation, creation, and unmatched experience have propelled us to become **one of the most desirable and respected dive brands worldwide.**

AQUALUNG is proud to be much more than just a company.

**We represent 80 years of history, 80 years of taking underwater exploration to new depths, and, above all, 80 years of Technical Excellence.**

Aqualung is synonymous with the scuba regulator as we invented it. And we continue to lead the way with the best underwater breathing devices available today. Every aspect of our technology is aimed at both performance and comfort.

Experience the best breathing system today from Aqualung.

Regulators®

# Our Regulator Technologies.

## 1<sup>st</sup> Stage

**ACD** **AUTO CLOSURE DEVICE**  
ACD prevents water and debris from reaching 1<sup>st</sup> stage parts or lubrication, extending life between services.

**DE-ICE**  
Ice formation is deterred by deep ribs which provide increased surface area, an overmolded cap, and an integrated dry chamber.

**BLACK COATING**  
Durable stainless-steel parts are coated in a black Titadur® treatment for superior durability.

**PERMANENT DRY CHAMBER**  
Dry chamber protects internal parts from water or contaminant damage, providing extreme durability.

**OVER BALANCED MECHANISM**  
Balanced to both depth and tank pressure, our auto-balanced or over-balanced system means the same easy breathing at every point on every dive.

**BLUE HIGH PRESSURE SEAT**  
The core of the 1<sup>st</sup> stage, this seat opens and closes with every breath, forming a perfect seal with durable materials that work in all conditions and with all gasses.

**DUST CAP PROTECTION**  
Protects the inlet fitting from damage and seals the 1<sup>st</sup> stage when it's off the tank.

## 2<sup>nd</sup> Stage

**COVER OPENING CHANNELS**  
Wider opening allows water to pass sideways over the diaphragm, preventing freeflow in strong currents and reducing cracking effort.

**MASTER BREATHING SYSTEM**  
Integrated control of the Venturi effect and inhalation effort means one adjustment completes both tasks simultaneously.

**INTERCHANGEABLE MOUTH PIECE**  
Mouthpiece tie is easily removed without tools and can be reused to avoid plastic waste.

**COMFOBITE**  
Aqualung exclusive mouthpiece featuring a palate bridge to reduce jaw fatigue and keep the 2<sup>nd</sup> stage secure.

**AIR CHANNEL DEFLECTOR**  
Bi-material component directs air evenly through the 2<sup>nd</sup> stage and lowers exhalation effort.

# Helix Compact Pro

You don't need to be big to make a big impact. That thinking inspired the **Helix Compact Pro** the smallest and most compact regulator Aqualung has ever produced. This amazing piece of technology is equally designed for warm and cold water, meaning it's perfect for jetsetters on the go, minimalists packing light, and even local divers who simply want unequalled performance per ounce.

## Technical Features

### 1<sup>st</sup> stage

**ACD AUTO CLOSURE DEVICE**  
ACD prevents water and debris from reaching 1<sup>st</sup> stage parts or lubrication, maintaining oxygen compatibility and extending life between services.

**PERMANENT DRY CHAMBER**  
Dry chamber protects internal parts from water or contaminant damage, providing extreme durability.

**BLUE HIGH PRESSURE SEAT**

**DUST CAP PROTECTION**

### 2<sup>nd</sup> stage

**COMFOBITE**  
Patented ComfobiteAqualung exclusive mouthpiece featuring a palate bridge to reduce jaw fatigue and keep the 2<sup>nd</sup> stage secure. Mouthpiece reduces jaw fatigue. Secures the 2<sup>nd</sup> stage more comfortably.

**COVER OPENING CHANNELS**  
Wider opening allows water to pass sideways over the diaphragm, preventing freeflow in strong currents and reducing cracking effort.

# Titan

The **Titan** regulator is reliable and robust. It integrates the lightweight feel, rugged durability and easy-to-breathe functionality of its predecessors. It offers excellent performance and easy maintenance at an affordable price. It's easy-to-maintain, lightweight, compact, and comfortable design makes it a great fit for beginners.

Technical Features

- Balanced diaphragm 1st stage provides superior, consistent performance.
- “T” shape body for streamlined hose positioning.
- In-line ergonomic Venturi knob lets make precise adjustments, even while wearing gloves.

CPN	DESCRIPTION	UPC	D4	D3	D2	D1	RRP
RG128111	TITAN YOKE	886957925661					
RG128112	TITAN DIN	886957926187					

# Calypso

The **Calypso** is always emulated but never equaled. It is compact, lightweight, easy to clean, pack, and maintain. It is durable and dependable in even the most demanding conditions, the perfect tool for dive centers.

Technical Features

- The large-diameter piston gives you more stable pressure out.
- Designed with large holes in end caps for easy cleaning and better thermal exchange and improved resistance to freezing.
- Includes a 2<sup>nd</sup> filter, which can be changed without dismantling and provides increased protection from polluted air.
- In-line ergonomic Venturi knob allows for precise adjustments, even while wearing gloves.

RG126111	CALYPSO YOKE	886957922059					

# LEG3ND Octopus

The **Leg3nd Octopus** provides the same great performance as the Leg3nd primary 2nd stage.

## Technical Features

- The LEG3ND octopus is pneumatically-balanced resulting in smooth and easy breathing.
- A heat exchanger (patented) which surrounds the valve mechanism, dissipates the cold caused by gas expansion while drawing in the warmth of the ambient water.
- The easy-to-grip venturi lever prevents unwanted freeflow at the surface while giving a performance boost at depth.
- Includes 39" (1m) yellow hose and yellow front cover making it easy to locate in an emergency.

CPN	DESCRIPTION	UPC	D4	D3	D2	D1	RRP
RS119005	LEG3ND OCTOPUS	191649990538					

# Helix Compact Pro Octopus

If you own a **Helix Compact Pro regulator**, this small compact and friendly octopus is the one you want to take on your next dive trip.

## Technical Features

**INTERCHANGEABLE MOUTH PIECE**  
Mouthpiece tie is easily removed without tools and can be reused to avoid plastic waste.

**COVER OPENING CHANNELS**  
Wider opening allows water to pass sideways over the diaphragm, preventing freeflow in strong currents and reducing cracking effort.

CPN	DESCRIPTION	UPC	D4	D3	D2	D1	RRP
RS146000	HELIX COMPACT PRO OCTOPUS	191649130613					

# Helix Pro Octopus

The **Helix Pro Octopus** provides the same great performance as the **Helix Pro primary** second stage.

Technical Features

- The Helix Pro Octopus is pneumatically balanced resulting in smooth and easy breathing.
- A heat exchanger (patented) which surrounds the valve mechanism, dissipates the cold caused by gas expansion while drawing in the warmth of the ambient water.
- The easy-to-grip venturi lever prevents unwanted freeflow at the surface while giving a performance boost at depth.
- Includes 39" (1m) yellow hose and yellow front cover making it easy to locate in an emergency.

CPN	DESCRIPTION	UPC	D4	D3	D2	D1	RRP
RS144001	HELIX PRO OCTOPUS	191649070902					

# Calypso Octopus

Compliment your **Calypso** and **Titan** regulators with this reliable, easy breathing octopus.

Technical Features

- Mid-size, high performance octopus to compliment the Titan and Calypso regulators.
- High visibility 39" yellow hose and high visibility yellow cover makes it easy to locate in an emergency.
- The venturi lever prevents unwanted freeflow when not in use.
- Easy purge front cover.
- Not recommended for overbalanced regulators of the Legend series.

CPN	DESCRIPTION	UPC	D4	D3	D2	D1	RRP
RS137111	CALYPSO OCTOPUS	886957924046					

# ABS Octopus

The **ABS Octopus** has unique 120-degree angle between the hose and mouthpiece, so it works in right- or left-hand positions without kinks in the hose or the need to put the mouthpiece in upside down.

Not recommended for overbalanced regulators of the Legend series.

Decades of design innovations and technological advancements means Aqualung has perfected the buoyancy compensator, exceeding the needs and expectations for all levels of divers.

We've dialed in buoyancy control with our exclusive i3+ inflation/deflation mechanism.

We've created customization options galore with our unique ModLock system. And as the world transforms, we will continue to revolutionize jacket, back-inflate, and hybrid styles of BCDs. Rejoice in your BCD from Aqualung.

# Our BCD Technologies.

## WRAPTURE HARNESS

An ultra-thin inner harness that fixes the BCD snug to the body to prevent riding up in the water while also distributing weight evenly by holding the tank closer to your center of gravity so you can stand and walk upright with ease.

## SWIVELLING BUCKLES

As you adjust the webbing, the buckle turns automatically to follow the fit of your torso.

## SURE LOCK II

Snap in the integrated SureLock II Weight Release System pockets with an audible “click” and quickly remove them with one smooth pull.

## MODLOCK

This unique connector system creates easily interchangeable size and accessory configuration for a personalized dive.

## GRIP LOCK TANK BAND

Tanks stay upright and secure with the GripLock Tank Band featuring a finger-saving metal buckle that will never pinch and micro adjustment options for the strap to help you quickly adjust for different sized cylinders.

## BLADDER RETRACTION SYSTEM

Stretch webbing pulls in BCD bladder sides when deflated to eliminate drag and help streamline your profile, reducing your effort and lowering air consumption.

## i3+

Exclusive to Aqualung, divers can adjust buoyancy with a simple side lever. Pulling up inflates in small or large bursts, and pushing down opens all the exhaust valves to vent without adjusting body position.

## MODLOCK System

Aqualung's patent-pending **Modlock** connectors revolutionize the way we look at BCDs. Thanks to a round clipping design and 27 size configurations, the Modlock allows you to fully customize your BC for the perfect fit and needed accessories.

Beyond picking our base components such as the back pad, the waistbands, and the shoulder straps available in 3

sizes, you can add a range of optional accessories such as different sized trim pockets or an SMB holder.

Unlock each component in a matter of seconds to reduce volume for transportation or adapt your configuration before going diving.

You won't need a special tool to do it, a simple pen or key works.

The figures in this guide are approximate, just to give an idea, not absolute

Measuring points for waist size  
Men are measured at waistline, rather than normal beltline

Measuring points for OTS length

# Axiom i3+ Men

Power. Performance. Peace of mind. That's the **Axiom i3+** Men's BCD. The incorporated exclusive i3+ inflation/deflation system means perfecting your buoyancy has never been so easy. Our innovative jacket-style BCD has an inner Wrapture harness that holds you tight and keeps you upright by distributing tank weight. Focus on the important part of diving—enjoying it—with the Axiom i3+.

## Technical Features

### WRAPTURE HARNESS

An ultra-thin inner harness that fixes the BCD snug to the body to prevent riding up in the water while also distributing weight evenly by holding the tank closer to your center of gravity so you can stand and walk upright with ease.

### i3+

Exclusive to Aqualung, divers can adjust buoyancy with a simple side lever. Pulling up inflates in small or large bursts, and pushing down opens all the exhaust valves to vent without adjusting body position.

### SURE LOCK II

Snap in the integrated SureLock II Weight Release System pockets with an audible "click" and quickly remove them with one smooth pull.

### SWIVELLING BUCKLES

As you adjust the webbing, the buckle turns automatically to follow the fit of your torso.

# Axiom i3+ Women

Simply the best women's BCD out there. The **Axiom i3+** for women offers our exclusive i3+ inflation/deflation system for easy buoyancy control. Our innovative jacket-style BCD has an inner Wrapture harness that holds you tight and keeps you upright by distributing tank weight. The BCD is shaped with shortened, scalloped sides to take pressure off the hips and for those with shorter torsos. Experience the ultimate BCD for women's diving.

## Technical Features

# Axiom Women

The ideal blend of design and technology—that’s the **Axiom** Women’s BCD. Our innovative jacket-style BCD has an inner Wrapture harness that holds you tight and keeps you upright by distributing tank weight. Experience less drag and more stability to make underwater movements seamless. The women’s cut also features shorter sides for shorter torsos and a scalloped bottom so the BCD doesn’t rub on your hips.

Technical Features

**WRAPTURE HARNESS**  
An ultra-thin inner harness that fixes the BCD snug to the body to prevent riding up in the water while also distributing weight evenly by holding the tank closer to your center of gravity so you can stand and walk upright with ease.

# Rogue

Dive the way you've always dreamed – go **Rogue**. This back-inflate BCD has the options you need with 27 combinations of interchangeable back, waist, and shoulder pieces that fit together via the ModLock connector system. Minimalist design in weight and volume means easy transportation of your gear anywhere you choose to dive.

## Technical Features

### MODLOCK

This unique connector system creates easily interchangeable size and accessory configuration for a personalized dive.

### SURE LOCK II

Snap in the integrated SureLock II Weight Release System pockets with an audible “click” and quickly remove them with one smooth pull.

**GRIP LOCK  
TANK BAND**

### SWIVELLING BUCKLES

As you adjust the webbing, the buckle turns automatically to follow the fit of your torso.

### BLADDER RETRACTION SYSTEM

Stretch webbing pulls in BCD bladder sides when deflated to eliminate drag and help streamline your profile, reducing your effort and lowering air consumption.

# Pro HD Women

Strong. Sleek. Secure. The **Pro HD Women** is a wrap-around, jacket-style BCD designed to fit the female diver. With its adjustable waistband and specially curved shoulder straps, you can customize it for a perfect fit. Plus, its lower profile lobes and shorter torso length help it rest comfortably on the hips.

## Technical Features

- Hybrid Jacket ADV-style jacket combined with back inflation unit gives you the best of both worlds: a streamlined profile during your dive and the ability to float comfortably at the surface.
- Patented SURELOCK II Weight System.
- Two octo-pocket locations for versatility: right lobe and top of front lobe.
- Gear Up! Multiple pockets, D-rings, and knife attachment points make stowing and accessing gear easy.

# Pro HD Compact

Tired of paying excess baggage fees? This ultra-light, weight-integrated, back-inflation BCD is everything you need without extra weight or bulk. Lift it and feel for yourself that even a ML/LG weighs less than 4.75lb/2.2kg with airway and weight pockets included! Can be packed flat or rolled. The perfect BCD for travel.

## Technical Features

- Innovative tank support system eliminates the need for a hard pack.
- A valve strap pulls the top of the cylinder in towards the center of gravity transferring the load to the hips and relieving the shoulders.
- **PATENTED SURELOCK II WEIGHT SYSTEM.**
- Great packability – flat or rolled.

# Dimension

Our high standards put the **Dimension** far above the standards in back inflation-style BCDs. This BCD incorporates our Wrapture harness system and SureLock II mechanical weight release system, and is made of specially developed ResisteK material to stand up to the most rugged conditions in salt or chlorinated water without fading or abrasion.

## Technical Features

- **WRAPTURE HARNESS SYSTEM:** An ultra-thin inner harness that fixes the BCD snug to the body to prevent riding up in the water while also distributing weight evenly by holding the tank closer to your center of gravity so you can stand and walk upright with ease.
- **GRIPLOCK TANK BAND:** Tanks stay upright and secure with the GripLock Tank Band featuring a finger-saving metal buckle that will never pinch and micro adjustment options for the strap to help you quickly adjust for different sized cylinders.
- **PATENTED SURELOCK II WEIGHT SYSTEM:** allows you to easily insert the weight pouch and an audible "click" lets you know the weights are secure in the BCD. Once engaged, the weights can be released with a firm pull of the handle.
- **Bladder Retraction System:** Bladder retraction system pulls in the sides of the bladder during deflation to keep you streamlined and reduce drag.

# Lotus

The **Lotus** is a women's back inflation-style BCD that incorporates our integrated Wrapure harness system. The Lotus hugs the contours of the female body with specially curved shoulder straps and side lobes to provide an even better fit. Also includes SureLock II mechanical weight system.

## Technical Features

- **WRAPTURE HARNESS SYSTEM:** An ultra-thin inner harness that fixes the BCD snug to the body to prevent riding up in the water while also distributing weight evenly by holding the tank closer to your center of gravity so you can stand and walk upright with ease.
- **GRIPLOCK TANK BAND:** Tanks stay upright and secure with the GripLock Tank Band featuring a finger-saving metal buckle that will never pinch and micro adjustment options for the strap to help you quickly adjust for different sized cylinders.
- **PATENTED SURELOCK II WEIGHT SYSTEM:** allows you to easily insert the weight pouch and an audible "click" lets you know the weights are secure in the BCD. Once engaged, the weights can be released with a firm pull of the handle.
- **Bladder Retraction System:** Bladder retraction system pulls in the sides of the bladder during deflation to keep you streamlined and reduce drag.

# Wave

You're ready for every adventure and unexpected situation with the **Wave BCD**: its fade-resistant ResisteK material is rugged and durable to resist fading and abrasion. This entry-level, wrap-around, jacket-style BCD has a sweet new look.

## Technical Features

- **ResisteK Material** Looks good, and stays that way: made of new, technologically advanced ResisteK material to resist fading and abrasion in saltwater and chlorine.
- **Backpack Handle:** Easy to carry integrated handle.
- **Octo Pockets** Three octo-pocket locations for versatile, functional stowage that suits your preferences.
- **Additional Dump Option** Lower rear. Also has highly visible orange pull bob and can be used in horizontal or head-down orientations.

Dive instruments from Aqualung are “Complex Made Easy.”

From our innovative TFT and IPS screens to our simple magnetic charging connection and advanced Bluetooth 5.0, today's divers have convenient, easy to use technologies and connectivity at their fingertips.

Discover a whole new world on your next adventure with the reliability and functionality of computers and instruments from Aqualung.

instruments<sup>®</sup>

# Our Instrument Technologies.

## **BT 5.0**

Bluetooth with twice the data transfer speed (2 Mbps) for uninterrupted connection and four times the communication distance as compared to Bluetooth 4.2.

## **IPS**

IPS ("In-Plane Switching") screens provide better visuals with richer colors and accurate viewing from all angles, even in direct sunlight.

## **MAGNETIC CHARGING CONNECTION**

Power your dive computer in a snap with Aqualung's magnetic charging cable.

## **NATO STRAP**

This unique strap design doubles back to create a full loop. A simple buckle closure helps the computer stay centered and fastened on your wrist.

## **TFT**

TFT (thin-film transistor) technology offers smooth screen changes for an uninterrupted view of your data along with increased energy efficiency when compared to a regular LCD display.

## **DIVERLOG+ APP**

Staying connected and managing your dives has never been simpler! Wireless Bluetooth Smart connectivity lets you wirelessly sync your dive data with the DiverLog+ app on your mobile device (available for iOS and Android).

With your DiverLog+ app, you can remotely control all your dive computer settings, view dive log and profile data, add locations, notes and other details from your adventures. After your dive, share your memories, stats, photos, and dive site locations on social media.

\* Our technology ensures that once set, your transmitter is permanently paired to your computer.

\* To ensure accuracy and reliability in our analog collection, Aqualung goes well above the industry standard in utilizing the highest-quality Swiss-manufactured Bourdon tubes.

\* Most of our computers are specifically designed with user-replaceable batteries for your convenience.

# THE AQUALUNG DIFFERENCE

Aqualung controls all **aspects of design**, development and manufacturing of our dive instrumentation. We do this to ensure we have high **quality products** that our divers can rely on. Because of this commitment, you will find this **Aqualung Difference** throughout our product line.

A close-up, low-angle shot of a diver's face underwater. The diver is wearing a red Aqualung mask with a white strap and a black snorkel. The water is a deep blue, and the diver's skin is visible. The Aqualung logo is visible on the strap and the diver's blue BCD.

See the world clearly with  
a new mask from Aqualung.  
Our technologically  
advanced masks suit every  
diver's needs and unique  
face shape.

Frameless technology  
provides panoramic views  
while dual-lens masks  
provide the option for easy,  
snap-in lenses.

Our emphasis on innovative  
design and our use of  
quality materials in our  
snorkels delivers comfort  
and fit your need to breathe  
easy and feel confident on  
your dive.

# Masks & Snorkels<sup>®</sup>

# Our Mask Technologies.

## **ADVANCED FIT TECHNOLOGY**

Only available from Aqualung, AFT creates varying textures within the silicone so it can better conform to any face shape to improve sealing and comfort.

## **PRESSURE REDUCTION ZONE**

Each mask is reinforced for stability and pressure points are reduced to maximize comfort and eliminate leaks.

## **FRAMELESS TECHNOLOGY**

By eliminating the frame, the silicone is sealed directly to the lens, creating a compact and close-fitting design for optimal vision.

## **CARDANIC JOINT BUCKLES**

Used to permit both vertical and horizontal rotation of the buckle, the joint will never pinch your face or pull the mask.

## **QUICK RELEASE BUCKLES**

Even thick gloves won't get in the way of this one-touch adjustment system with buckles attached directly to the silicone skirt for added stability of the mask on the face.

## **NEW LENS QUICK RELEASE SYSTEM**

Remove and replace lenses safely and in a quick snap with our special locking system and included tool.

## **UNIVERSAL ADVANCED SILICONE SKIRT**

Our advanced technology and wrap-around geometrical shape made of crystal-clear, soft silicone provides the perfect fit for the widest variety of face shapes and sizes.

## Purge System

With the single valved purge on the Zephyr Flex you gain an efficient draining snorkel. To give you a safe dry and comfortable breath our splash guards feature a purge channel to allow the majority of the water to escape directly.

Purge channel splash guard

## Comfo-Bite Mouthpiece

The Patented **Comfo-Bite** Mouthpiece is constructed of hypoallergenic silicone to reduce fatigue and is also available in a midi version and can be easily replaced.

# CUSTOM LENSES

OUR LATEST MODELS OFFER A CHOICE OF CUSTOM LENSES TO ENHANCE YOUR VISUAL EXPERIENCE UNDERWATER. CHOOSE YOUR CUSTOM LENSES BASED ON YOUR MOST COMMON DIVING CONDITIONS.

**CLEAR**  
Standard clear lens.

**ULTRA CLEAR**  
Compared to standard glass, there is no green tint to be seen. This glass is clear to the edge. It renders colors, textures and shapes with impressive clarity.

# Reveal UltraFit

Celebrate everything the underwater world has to offer when you see it through the **Reveal UltraFit** dive mask. Our most comfortable mask provides the best fit with its three sizes and adaptable skirt shape for all faces. Easily interchange lenses via a snap-in frame and a special included tool. With innovative features and materials, you've never owned a more advanced mask.

## Zephyr Flex

### Technical Features

- At the very heart of the snorkel is our shaped and protected silicone Elliptical Purge Valve: the shape of the valve guarantees sealing as well as ease of purging.
- The anatomically-designed mouthpiece made from medical silicone reduces jaw fatigue.
- The joint between the mouthpiece/valve box and the corrugate is a swiveling sealed connection that rotates for a better fit.
- The large snorkel retainer is very easy to use even with thick gloves, thanks to an ergonomically-designed structure.
- The D-barrel-shaped tube helps the Zephyr Flex rest more streamlined against the diver's face.

# Impulse Classic

**KEEPS WATER OUT**, the **Impulse** has two valves: if a wave breaks over the snorkel, the upper valve directs most of the water out before it reaches the mouthpiece. But if water does get past the first valve, it will drain out through the lower valve.

- **CLEARs EASILY**, in the unlikely event that you would need to clear the reservoir below the mouthpiece, all it takes is a gentle puff of breath.
- **ELIMINATES JAW FATIGUE**, our patented Comfo-Bite™ mouthpiece does not necessitate clenching your teeth, reducing fatigue, even after hours of adventure. Mouthpieces are replaceable. Available in two sizes.

From full-foot to open-heel, your next pair of fins from Aqualung are waiting. Our fins are technology-packed to provide the ultimate in durability, control, and performance.

Comfort is key and ensured by our ergonomic features such as the mid-foot pivot point or customizable options such as our three choices of heel straps. Kick confidently with fins from Aqualung.

**Firs®**

# Our Fin Technologies.

## **MID FOOT PIVOT POINT (PATENT)**

The fin blade connects via dual pivot points to the middle of the foot pocket, allowing for a natural foot position, larger range of motion, and increased control.

## **WAVE RIB TECHNOLOGY**

Unique composite material side ribs produce a wave effect as your energy output is transferred through the fin, providing power improving kick efficiency.

## **CHANNEL STRUCTURE**

Molded channels are structured for smoother water movement over the blade, producing strong movements in any water conditions.

## **HYDRO POWER VENT**

Vent at the top of the foot pocket allows water to channel through the blade, reducing resistance and providing stability for any kicking style.

## Wave Rib

The elastomer rubber sections of the side ribs work together with the wave-shaped structures, accumulating (loading) the energy

of every kick that is released during the kick cycle. The effect is a solid, powerful yet easy kick.

## Straps & Buckles System

Our buckles and straps are fitted to the fin using a mushroom fitting, this aids the buckle in both being fully secure while still being able to rotate in all directions no matter what

force is applied. The straps used are varied from our Silicone Bungee to stainless steel springs to our made in house polymer straps.

## Mid Foot Pivot

Aqualung's Mid-foot pivot patented technology links the blade to the middle of the foot pocket through two pivot points. This allows the foot and toes to keep the natural stable position while keeping a wide range of motion in the blade. The result is more comfort, energy, control and efficiency.

# Phazer

A fin that works for you, not against you that's the **Phazer**. Optimizing efficiency with every kick, this fin adapts to each user from beginner to professional to maximize power and minimize effort. Experience the revolutionary design today

## Technical Features

**WAVE RIB TECHNOLOGY**  
Unique composite material side ribs produce a wave effect as your energy output is transferred through the fin, providing power improving kick efficiency.

**HYDRO POWER VENT**  
Vent at the top of the foot pocket allows water to channel through the blade, reducing resistance and providing stability for any kicking style.

# Storm Max

Take your kicking power to the max with the **Storm Max** fin. It's everything a serious diver could want in an open heel fin with extended durability from its single-material design.

The strong blade provides perfect propulsion with minimal effort for your best dive ever.

## Technical Features

### CHANNEL STRUCTURE

Molded channels are structured for smoother water movement over the blade, producing strong movements in any water conditions.

### HYDRO POWER VENT

Vent at the top of the foot pocket allows water to channel through the blade, reducing resistance and providing stability for any kicking style.

# Express SS

The armadillo hinge of grooved material on the top of the foot, absorbs energy from your kick and releases it again at the end of the kick cycle for a more efficient kick and reduced strain. Includes Spring Straps for easy on/off.

## Technical Features

### MID FOOT PIVOT POINT (PATENT)

The fin blade connects via dual pivot points to the middle of the foot pocket, allowing for a natural foot position, larger range of motion, and increased control.

# Stratos ADJ

Kick it like a pro, even if it's your first dive: the **Stratos ADJ** is designed for ease, with responsive, dual-material side ribs and blade to help you get the most out of your kick. The blade quickly reaches the optimal angle needed to move water quickly and efficiently. This is a strap-style fin for easy adjustment.

Technical Features

- **Ergonomic Straps:** Ergonomic straps let you adjust the size for your perfect fit. Easy to operate, even while wearing thick gloves.
- **Maximum Efficiency:** Softer materials hold your foot while a more durable material is precisely placed to prevent the fin from stretching during the crucial power stroke of the kick cycle.
- **Optimal Positioning:** Flexible material between the blade and pocket aids in positioning of the fin for maximum propulsion.

# Stratos 3

The best all-around full-foot fin for warm water. And it's so durable, it passed every anti-shock and stress test we subjected it to! But Stratos 3 doesn't compromise on price or comfort: it's lightweight and affordable. The four-channel structure forces water to flow along the blade for heightened swim performance.

## Technical Features

### CHANNEL STRUCTURE

Molded channels are structured for smoother water movement over the blade, producing strong movements in any water conditions.

Wind

A full-pocket, entry-level fin that’s ideal for your next scuba or snorkeling adventure.

Lightweight yet robust, compact yet comfortable, this fin is ideal for travel. Enjoy the ergonomic foot pocket designed for the anatomy of the foot. This fin features a rigid sole for optimal foot protection and smooth power transition to the blade.

Technical Features

- **Full-Pocket Design:** High comfort, no booties required. Full-pocket fins give you increased perception of your kicks effect on the water. Foot pocket is made of soft material for comfort.
- **Stable Fit:** Grip on inner sole ensures stability by preventing your feet from sliding around inside the fin. This means you’re less likely to lose your fin or waste energy from your foot moving inside the pocket.
- **Responsive, Dual-Material Construction:** Blade is made of lightweight polypropylene with rubber inserts for durability and elasticity. Structured side ribs ensure progressive, controlled flexing of the fin.
- **Rigid Sole:** The rigid sole offers optimal foot protection and smooth power transition to the blade.

# Alaskan Drysuit

The **Alaskan** is our latest design in trilaminate drysuits. It features a telescopic torso and front zipper that allow the diver to equip himself. The neck and wrist seals are produced in latex and boots have reinforced soles for increased durability.

## Technical Features

- Telescoping torso for ease of donning.
- Adjustable crotch strap and suspenders secure suit in place.
- Latex wrist & neck seals keep water out.
- Spacious pockets with attachment loops.
- Durable material overlays in seat and knees for longer life in high-wear areas.

# Fusion Bullet Drysuit

As our premium Fusion model, the Bullet has been engineered for the harshest diving environments. The Fusion line is based on our patented Dual Layer System originally designed for the Special Forces. The Bullet features a breathable AirCore inner layer paired with a protective super-stretch neoprene outer layer. Strategically placed GatorTech Pro™ armor and reinforced seams ensure maximum durability. The Bullet is a rugged design that will endure any adventure

### Technical Features

- SLT FlexNeck
- Environmentally friendly PAH (Polycyclic Aromatic Hydrocarbons) free neoprene
- Durable Small Diamond coating on shoulders and arms increases durability
- Watertight taped interior seams for watertight integrity
- Highly visible ultra-reflective safety tape
- Abrasion resistant Powertex reinforcement panels
- Wide opening cargo pocket with mesh drainage panel for extra storage

# Thermal Fusion Undergarment

The Thermal Fusion is Aqua Lung's highest performance diving undergarment, maximizing warmth while providing unrivaled flexibility and fit.

Our patented Thermal Core Technology, a dual layer design, offers the diver with an unlimited range of motion while maintaining a streamlined fit. The inner layer, a relaxed cut thermal core constructed of Polartec® 200 fleece, delivers superior warmth. The outer layer, a Polartec®

Power Stretch Pro® fleece, applies compression which streamlines the inner core to the divers body. The result is a custom fit with maximum range of motion.

The superior insulation value of the Thermal Fusion has been validated in independent laboratory tests by the Sport Innovation Center (SPIN).

SPIN collaborates with Olympic and Paralympic athletes and is a breakthrough leader in sport technology. They performed cold water immersion and controlled cold weather environmental tests to determine the effectiveness of dive garments in protecting skin and core temperatures.

Comparative testing against our competitor's top rated undergarment confirms the Thermal Fusion superiority. The science proves that the Thermal Fusion performed best overall in preventing heat loss in extreme environments!

# Heat Gloves

Our heat gloves are made using a closed-cell neoprene with gas-filled micro bubbles for outstanding warmth. Palm and finger areas feature Titanium Slick Skin, which dries faster and keeps hands warmer than traditional materials. Backed by Aqualung tech, our 5mm **Heat Gloves** are the solution to keeping water out and warmth in.

## Technical Features

- Sealed seams provide longevity and superior water tightness.
- Lined with Glideskin for ultimate comfort, wet or dry.
- Choice of 5mm or 3mm neoprene in 5-finger design for desired cold water insulation.
- 6mm neoprene in 3-finger Heat Mitt design provides exceptional cold water insulation.

Aqualung has the modern wetsuits to suit every diver's preference and needs. Innovative technologies such as water-based glues and liquid fusion seams offer superior performance in every detail. Experience the warmth, comfort, and style of Aqualung wetsuits.

Wetsuits<sup>®</sup>

# Our Wetsuit Technologies.

## **LIQUID FUSION**

Liquid fusion technology coats triple-stitched seams for added durability and ankle cuff seals to limit water entrance.

## **SUPER STRETCH**

An innovative neoprene used in our premium wetsuits that has 3x the stretch of standard neoprene.

## **POWERTEX KNEEPADS**

Durable Powertex kneepads provide protection for high-abrasion areas while maintaining superior flexibility.

## **WATER BASED GLUE (AQUA A)**

Eco-friendly, water-based glues replace volatile solutions used in other bonding agents.

# SUSTAINABLE COMMITMENT

Aqualung is committed to using environmentally friendly materials and processes whenever possible to help reduce our carbon footprint.

## WETSUITS

### LAMINATION

#### Water-based Glue

The laminating glue is water-based hence eliminating solvent volatile compounds.

### FABRICS

#### Dope-Dyed Yarn

Dope-dyeing infuses dye pigments into molten plastic solution to produce yarns without dyeing process.

This saves tremendous amounts of water while reducing energy consumption and water pollution.

### NEOPRENE RUBBER FOAM

#### Eco Carbon Black

Carbon black, one of the key ingredients of neoprene, can now be pyrolyzed made from scrap rubber tires.

This significantly reduces energy consumption and reduces CO<sub>2</sub> emission by 200g per wetsuit.

#### Limestone

We use earth mined limestone to replace petrochemicals in our neoprene. It comes from nature and has less environmental impact.

Solaflex

The **Solaflex** remains Aqualung's most advanced wetsuit with its unique features and fit for improved warmth. In addition to its 8mm torso and 7mm arms and legs, this new updated version incorporates a fleece linen to provide extra warmth. As with all Aqualung's wetsuits, it has environmentally-friendly features, such as non-P.A.H. (Polycyclic Aromatic Hydrocarbons) neoprene. Unique designs are specially tailored for men and women.

Technical Features

- 

**LIQUID FUSION**  
Liquid fusion technology coats triple-stitched seams for added durability and ankle cuff seals to limit water entrance.
- 

**POWERTEX KNEEPADS**

# Wave modular system

The Wave modular wetsuit system provides versatile options that are durable and comfortable. The modular system addresses wetsuit needs for a variety of water temperatures—from 13° to 25°C (55°F -77°F).

For colder waters, there is an add-on step-in jacket and an optional hood or the 6mm jumpsuit with hood attached and front zipper. For warmer water, the reversible shorty offers the right solution. Thanks to the high-density neoprene, the size markings inside and outside (one color per size), and the white personal identification field to write the number of the suit along the zipper, the **Wave** collection provides the perfect solution for intensive use.

## Wave 6mm with Hood

### Technical Features

- 6mm high density neoprene (petroleum free).
- Durable thanks to the double-glued, two-thread blind-stitched seams.
- All seam junctions are sealed by a small patch to offer superior warmth, comfort and durability.
- Ring seals on arms and legs stop water entry.
- Ankle zipper on the model with ergonomic hood attached and front zipper.
- Powertex knee panel for more durability.

# Wave Junior Shorty

The key to stoking a lifelong desire for adventure in kids is to provide a small amount of challenge, create opportunities for wonder, and minimize discomfort. That's why we've designed an ultra-stretchy, low-bulk kid's wetsuits available in 4mm thicknesses thick to keep small bodies insulated. Give them the chance to reach for something new.

Technical Features

- 4mm ultra stretch neoprene easy to pull on and off.
- Long lasting seams are glued and blind stitched to keep the water out.
- 4mm, can be use as extra protection over a wetsuit or as a shorty for warm water.

Gloves

Liquid Grip

Aqualung **Liquid Grip** Gloves deliver optimal comfort, warmth and functionality. Liquid rubber seams help the gloves last longer with reduced water transfer and thread fraying. Patented X-tend cuffs provide a durable edge without reducing stretch.

Technical Features

- 3mm or 5mm neoprene thickness.
- Liquid rubber-coated seams.
- Embossed grip for maximum grip.
- X-tend cuff finish to preserve stretch and durability.

# Boots

## Manta

**Manta** Boots feature a raised heel, built-in arch, and a patented two-seam pattern for added comfort. Arch support ensures that your foot and ankle are stabilized. Manta Boots come equipped with a heavy-duty zipper for easy donning and doffing. Seams are glued and sewn to maximize boot strength and durability.

### Technical Features

- 5mm neoprene thickness.
- Comfortable as a sneaker shoe: compression-molded sole build in arch support, and raised heel.
- Slip-resistant.
- Durable thanks to the heavy-duty fabrics and non-corrosive zipper.

## SuperLow

The ideal warm water dive boot, **SuperLow** Boots are made with as few seams as possible, strategically placed away from the foot's widest areas to decrease chafing. Less seams doesn't mean less protection, as these boots are designed to prevent excess water retention and come with a treaded sole that keeps your feet from getting punctured or stung in and out of the water.

### Technical Features

- 3mm neoprene.
- Maximum comfort thanks to ISO the Ergo shaped footbed and outsole to match the profile of the foot.
- Non corrosive YKK zippers.
- Thick treaded sole to protect the feet and specific pattern for slip-resistance.

### Boots

## SuperZip

Keep your feet warm and secure. The **SuperZip** Boots protect your feet with a tight seal that reduces water transfer to keep them warmer for longer. Meanwhile, the cuff binding is made from elastic to provide a more comfortable fit. **Superzip** Boots are strengthened with extra padding in the sole, toe cap, and heel cap to keep them going strong dive after dive.

#### Technical Features

- 3, 5 or 7mm neoprene.
- Maximum comfort thanks to the Ergo shaped footbed and outsole to match the profile of the foot.
- Protective 8mm thick treaded sole and additional protection and durable panels on critical areas on the upper parts.
- Non corrosive YKK zippers.

# Ergo Sock

Protect your feet in all conditions with socks. We've designed this one to be worn comfortably with a wetsuit or drysuit: it adds a layer of warmth in cold waters and prevents blisters while wearing open-heel fins. Booties also protect your feet from scrapes and stings when wading in and out of the water during shore dives.

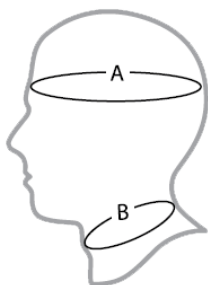

## Technical Features

- 3mm neoprene available in high and low profile.
- Silicone print on the sole for grip.
- Glued and blind-stitched seams prevent water entering.

# forever blue

a sustainable future.

**This ocean planet is our home, and it's up to us to protect our aquatic playground.** From product conception to creation to packaging, Aqualung is reimagining the business of diving and how it fits into a **more sustainable world.**

At every turn, we are asking **"what can we do to make this better for the planet?"** We aim to promote a **healthier ocean** for future generations of divers and **ocean lovers.** True and lasting changes require hard work and dedication, principles Aqualung applies to achieve our vision of a better tomorrow.

We also acknowledge that sustainability is not enough in today's world. By working together, divers and dive companies can bring awareness to aquatic issues, **advocate for change,** and begin **the restoration** of the precious habitats we are fortunate to visit.

Just as life follows a cycle, we believe in circular economic practices that **restore the environment** and **eliminate waste.** From the design and creation of our products to our **eco-friendly** packaging projects to the initiatives of our **Ocean Ambassadors** to the achievements of divers like you, Aqualung celebrates and supports a **brighter future for the ocean.**
