

**CAUTION**

**Certain materials such as neoprene used in the manufacture of the wetsuit may cause allergies.**

**Consult your doctor if you suffer from allergies before using this wetsuit.**

**COMPLIANCE TO STANDARDS**

AQUA LUNG SPORT and AQUA SPHERE wetsuits comply with the mechanical resistance and performance tests required by the EN14225-1 standard and consequently received the EC certificate.

It should be noted that this wetsuit does not provide protection in areas polluted by radioactive, chemical or biological agents.

**WETSUIT USAGE LIMITATIONS**

This wetsuit is intended for use in conditions which comply with the standard requirements.

**CAUTION**

**It is imperative to follow the recommendations of a qualified person when fitting your wetsuit.**

**Accessories**

**Accessories and spare parts are not available for this wetsuit.**

**PICTOGRAM EXPLANATION**

and wash

Do not use chlorine

Do not iron

Do not put in a dryer

**RECYCLING SCRAP**

Put your wetsuit in the recycling bin when it shows one or more following characteristics:

- Neoprene lost 30% of initial thickness
- Cuffs torn off
- Neoprene delaminating

**BEFORE DONNING**

Check the wetsuit carefully and ensure the zipper works.

**DONNING****CAUTION**

**Avoid sharp objects: rings, earrings, watch, fingernails, ... when donning suits.**

Turn the top half of wetsuit inside out (to the waist) this will facilitate pulling the suit over the feet and legs. If the wetsuit has ankle and wrist cuffs, always turn them out to ease putting on the suit and to avoid damaging the neoprene. Once the wetsuit fits snugly then do up the zipper.

## TO TAKE OFF YOUR WETSUIT

Follow the instructions on how to put on your wetsuit but in reverse make sure you don't damage the neoprene or the zipper.

## SERVICING

Rinse your wetsuit with fresh, cold water after each se. Then dry and store it on a hanger in a dry shady and ventilated location.

EN

### CAUTION

**Do not put your wetsuit in a washing machine nor a dryer. Do not use any chemical or detergent products that may damage the wetsuit's neoprene.**

## MAINTENANCE

AQUA LUNG SPORT and AQUA SPHERE recommends to soap the wetsuit periodically and to rinse it with fresh and tepid water at a maximum temperature of 25°C ± 5°C.

## STORAGE

Never store the wetsuit near an electric motor or heat source which produces ozone. It is recommended to flat store the wetsuit or to hang on an adapted hanger. To avoid any neoprene deformation, do not store anything on the wetsuit.

### CAUTION

**A prolonged exposure to heat, ozone, chlorine or UV rays causes neoprene decomposition.**

## WARRANTY

The warranty applies to all suits where there is a manufacturing fault or a material fault recognised as such by AQUA LUNG SPORT and AQUA SPHERE.

The warranty does not cover damage resulting from improper use and do not cover damage like cuts, scratches, ... due to donning not respecting recommended rules.

The warranty does not apply if the equipment sold was not used or maintained according to the conditions detailed in this guide.

The warranty is void if the suit is modified by a person or workshop that has not been authorised by AQUA LUNG SPORT and AQUA SPHERE.

The warranty covers the free repair or replacement of the suit, at the choice of AQUA LUNG SPORT and AQUA SPHERE.

Packing and transport charges remain the responsibility of the buyer.

Any defective parts replaced remain the property of AQUA LUNG SPORT and AQUA SPHERE. The repair, modification or replacement of any parts during the warranty period does not prolong the duration of the warranty.

The responsibility resulting from the sale of this suit is limited to the warranty above. It excludes any possibility of recourse to any penalties or damages and interest.

To take advantage of this warranty, you must provide a proof of purchase (cash register receipt mentioning the date and the product purchased).
