## AUSTRALIAN BLEND 5 NATIVES

### Australian Blend 5 Natives

ColourArt range is formulated with AUSTRALIAN BLEND 5 NATIVES Natural Look's exclusive selection of our five favourite vitamin rich and antioxidant Australian Native Ingredients: Quandong, Kakadu Plum, Desert Lime, Lilly Pilly & Wattleseed.

AUSTRALIAN BLEND 5 NATIVES contains a high content of Vitamin C & Natural Antioxidants to guard against colour fade, extending the life of your colour and leaving the hair in exceptional condition.

**QUANDONG:** a unique Australian fruit found widely throughout the deserts and semi-arid areas of Southern Australia. Contains powerful bio-actives that help to lock-in hair colour, making sure hues stay bright and shiny.

**KAKADU PLUM:** recognised worldwide for the highest recorded levels of Vitamin C of any fruit in the world, it's wild harvested by Indigenous communities exclusively in the Kimberleys, Northern Territory and Arnhem Land. This supercharged ingredient boosts moisture and gloss in particularly dry or lusterless hair.

**DESERT LIME:** Harvested from the clean sub-tropical ecosystem of the Northern Rivers coastal region in New South Wales, Australia, this unique fruit has a long history of Australian Indigenous use as a medicinal food and topical application due to its high antioxidant level. Desert Lime is packed with tiny pearls of potent actives that help reduce the effect of environmental stress and UV damage on coloured hair, making it look shinier and more vibrant for longer.

**LILLY PILLY:** A bush native shrub with small exotic vibrant fruits that grows all along the coastline of New South Wales. This super food berry is renowned for its regenerative, brightening and purifying properties and delivers a potent range of phyto-actives which assist in pumping up fullness and volume of the hair strands especially fine.

**WATTLESEED:** Native to arid and temperate areas of Australia, this seed has pore refining, anti-inflammatory properties and promotes youthful looking hair, due to high levels of amino acids (proteins).

A woman with wavy, light-colored hair is shown from the chest up, looking towards the left. She is wearing a white, high-necked top. The background is a solid, light beige color.
