HERITAGE

ARTAV AUSTRALIA'S STORY STARTED IN ADELAIDE, AUSTRALIA, IN THE 1950s.

Started in the 1950s by qualified hairdresser and beautician Arturo Taverna with a salon in the city of Adelaide - developing into a group of 30 salons throughout South Australia - Artav Australia is now firmly established as a respected manufacturer and supplier of professional hair care and beauty products developed to a consistently high standard, following a natural approach and a strong sustainability commitment.

From its inception as market-leading salons in the city of Adelaide to the successful business it is today, Artav Australia has continued to remain a proudly Australian, family owned and run company, continuing to expand its Adelaide-based business with a emphasis on protecting the environment.

Artav Australia's sustainability commitment

Artav Australia is committed to being aware of our effect on the environment and is continually looking to find ways to reduce any impact. As members of the Australian Packaging Covenant (APC) we are united with governments and industry to the sustainable design, use and recovery of packaging.

Artav Australia uses natural, organic, plant based and Certified Organic ingredients that are sustainably farmed and sourced. Our goal is to always deliver the purest product that is good for both the environment and consumer alike.

NATURAL PAPAYA EXTRACT

Depil Hair key ingredient is the natural Papaya Extract, renowned for its active constituent 'papain' (derived from the unripe fruit of the papaya tree), a proteolytic enzyme that hydrolyses protein structures into smaller compounds, inhibiting the efficiency of cellular regeneration, resulting in a slower and sparser hair growth rate.

The natural pure plant herbal extracts used in Natural Look's Depil Hair products are cold filtered and developed specifically for cosmetic use with the typical qualities of the plant remaining fully aromatic and substantial as a result of the meticulous production process.

SALICYLIC ACID

Salicylic acid is a beta-hydroxy acid (BHA), a type of acid derived from natural sources such as willow tree bark, wintergreen leaves or sweet birch bark. Salicylic acid helps to remove dead skin cells, dirt, bacteria, and grime that has built up on the surface of the skin so the pores can remain clear and free from irritants. By removing dead skin cells and bacteria from the skin, salicylic acid helps to purify and exfoliate, which improves skin health and appearance.

WHY DO I GET INGROWN HAIRS?

Hair removal or dead skin cells are major factors that contribute to ingrown hairs. The problem starts when a hair below the skin's surface is unable to rise through the skin surface/epidermis so begins to grow and curl up inside the hair follicle. The hair doubles over itself, making it difficult for it to exit the surface. As the hair continues to grow inside the skin, your body tries to fight it. This can result in a red, ugly bump on the surface of the skin.

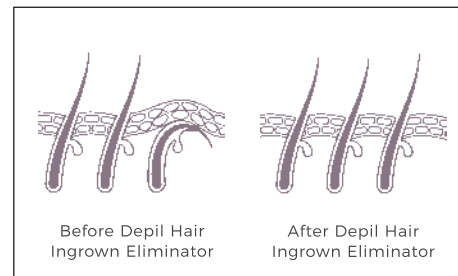

HOW DOES DEPIL HAIR INGROWN ELIMINATOR TREATMENT WORK?

- A combination of nourishing elements bring about optimum hydration and moisturisation of the epidermis.
- Skin becomes softer, smoother and more resilient, reducing the likelihood of ingrown hairs.
- A finer, textured, fresher, and more radiant complexion will be maintained with regular use.

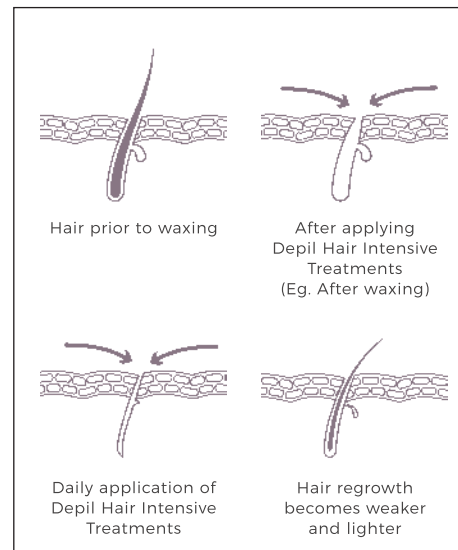

HOW DOES DEPIL HAIR INTENSIVE POST DEPILATORY TREATMENT WORK?

The key element in Natural Look's Depil Hair is the natural papaya extract -which has the ability to hydrolyse protein structures into smaller compounds. Cosmetically, papain is used to treat impure skin and to promote deterioration of the superfluous hair structure and natural exfoliation of the hair.

INGROWN ELIMINATOR TREATMENT

INTENSIVE POST DEPILATORY TREATMENT

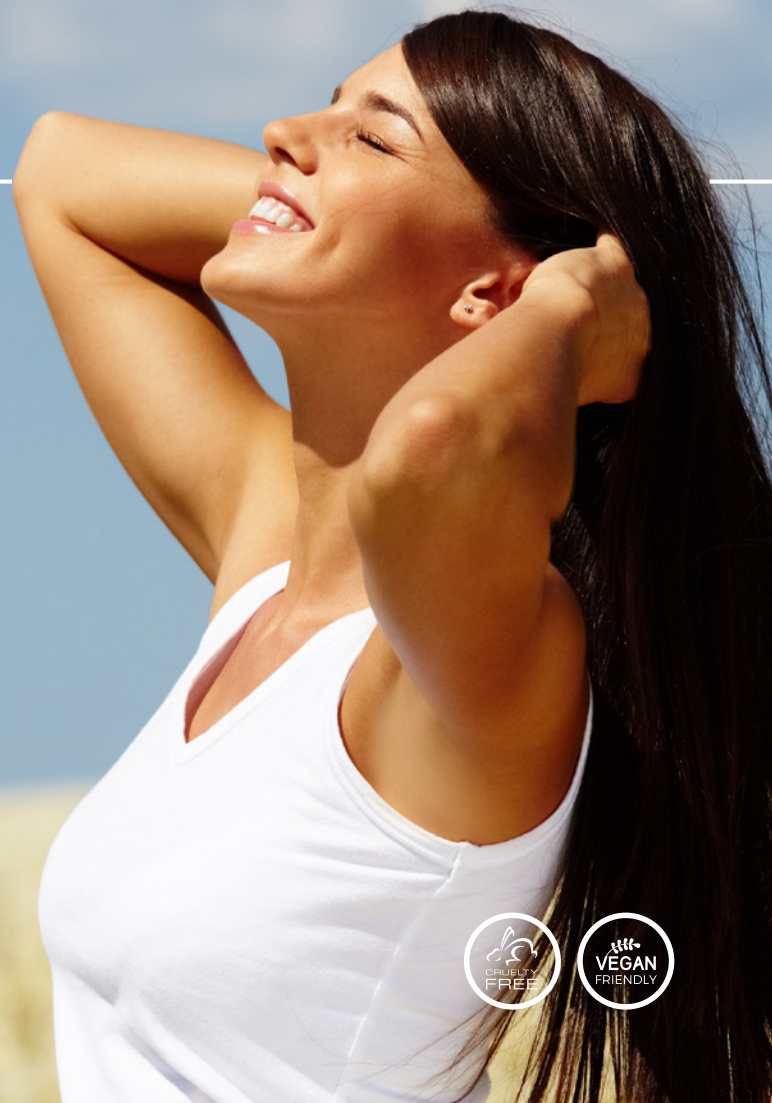

DEPIL HAIR INGROWN ELIMINATOR

Depil Hair Ingrown Eliminator range is designed to prevent and eliminate ingrown hairs or associated bumps on the skin related to waxing, shaving, tweezing, laser, IPL/VPL and other forms of epilation. A special blend of natural conditioners assists the skin by reducing ingrown hair leaving it feeling smooth and silky soft.

Depil Hair Ingrown Eliminator range combines the active ingredient of natural Papaya Extract - used to gently remove dead skin cells without stripping the skin of natural moisture - with Lactic Acid, a natural enzyme action technology to exfoliate the skin, helping reduce the appearance of unsightly bumps and ingrown hairs.

Enriched with Lemon Myrtle Oil and Tea Tree Oil, known for its natural antibacterial action with antiseptic properties to aid in the prevention of infection.
