

Model CT1000

Product **PLUS** Ideal for cutting to length from a coil!

The CT1000 light cutting system is very effective thanks to its versatility of use and set-up. Whether on site or in the workshop, installed on a pallet, workbench or table trolley, this lightweight cutting unit lets you quickly cut sheets up to 1 m wide from a coil. Its two lift handles, compact size and low weight make transport as easy as possible to your worksite.

Application areas

- Roofing
- Metal joinery
- Insulation
- Maintenance workshop

Advantages

- Easy and versatile to use
- Convenient to transport to the worksite or move around the workshop
- Cost-effective solution for cutting to size from coil or sheet
