

Model DPF1000Z

For easy loading of your coils!

This open side decoiler ensures both easy and quick loading of a coil from a pallet and positioning it in front of the operating machine. Mobile and compact, it is equipped with a hydraulic lever system that allows for effortless adjustment of the height of the mandrel before it is expanded. Easily operated by a single operator, it will avoid the need of a forklift truck to position your coils.

Product **PLUS**

- Open side mandrel for easy loading of your coil
- Single operator loading and moving the coil
- The hydraulic lifting system of the mandrel enables self-loading
- Brake for adjusting the coil speed
- Device allowing the rewind without action on the hub expander
- Uncoiling from the top or the bottom
- Side wheels for more comfort when pushing

Features DPF1000Z

Maximum width of the coil (mm)	1000
Maximum load by coil (kg)	1000
Maximum external diameter (mm)	1100
Internal diameter of the coil (mm)	from 310 to 540
Width between forks (mm)	270
Fork height (mm)	95
Height ground - mandrel axis (mm)	from 400 to 700
Dimensions (L x W x H mm)	1400 x 730 x 970
Net weight (kg)	259
