

# LA Outdoor Fabric Cleaning Instructions

## Cleaning Code Information

The following recommended cleaning codes are devised as a result of tests made by the fabric manufacturers having adhered to the Joint Industry Standards Committee. They in no way intend to imply that we are in any way guaranteeing these fabrics or the cleanability thereof.

### “W” Code

Clean this fabric with the foam only of a water-based cleaning agent to remove overall soil. Many household cleaning solvents are harmful to the color and life of the fabric. Cleaning by a professional furniture cleaning service only is recommended. To prevent overall soil, light brushing to remove dust and grime is recommended.

### “S” Code

Clean this fabric with pure solvents (petroleum distillate-based products, Energine, Carbona or similar products may be used) in a well ventilated room. Cleaning by a professional furniture cleaning service only is recommended. Caution: Water stains may become permanent and unable to be removed with solvent cleaning agents. Avoid products containing Carbon Tetrachloride, as it is highly toxic. To prevent overall soil, frequent vacuuming or light brushing to remove dust and grime is recommended.

### “SW” Code

Clean this fabric with the foam only of a water-based cleaning agent or with a pure solvent in a well ventilated room (petroleum distillate-based products, Energine, Carbona or similar products may be used). Cleaning by a professional furniture cleaning service only is recommended. To prevent overall soil, frequent vacuuming or light brushing to remove dust and grime is recommended.

All LA Outdoor fabrics and their cleaning codes are on the second page of this document.
