

Product Guide

# British Design, Global Inspiration.

Bringing furniture to life is our mission.

Our handles are manufactured to be as tactile as they are aesthetic. Our collections are designed to be as unique as they are practical.

As a team of designers and engineers, we don't wait for trends. We create them. Leaning on our British Heritage, we find inspirations from around the globe and bring it home to forge the finest handles.

Throughout this product guide, you will explore our featured collections, curated by our dedicated team of designers.

No matter the furniture, we'll handle it.

# Our Dedication to Perfection

Every handle we make has to earn its place – in our range and on your project. Nothing leaves our factory until it's the perfect balance of form and function. Getting there isn't simple and we have a 6 step approach. It takes a team of artists and engineers to create the concept, an expert eye to source the highest quality materials, and craftsmen to bring it to life.

The result is a handle that has been refined to perfection, one we're proud to put our name on.
