1.Product Features

The voice translator is an AI product integrating multiple AI technologies such as speech recognition, OCR, text translation, speech synthesis, etc. As long as the voice is spoken, it can be instantly translated into the language you want and broadcast, and the photo text can be translated into a foreign language. It also has more exciting features. In the scenes of traveling abroad, foreign language learning, business communication, etc., the communication problems between different languages are effectively solved.

6.Safety

.Caveat

(1)Do not use this equipment in places where electronic equipment is prohibited, such as gas stations, fuel depots, chemical plants, etc., as this may cause an explosion or fire.

(2) Please do not use unrecognized or incompatible power supplies, chargers, which may cause fire, explosion or other hazards.

(3) When charging is complete or not charging, disconnect the charger from the device and unplug the charger from the power outlet.

(4) It is strictly forbidden to place the equipment in an environment with too high or too low temperature to avoid fire, explosion or product failure; it is strictly forbidden to bring the equipment close to heat sources such as ovens, electric heaters, etc., and should not be put into fire; lithium batteries should not be exposed to such as sunshine, fire roast or similar in an overheated environment.

(5) Do not allow children or pets to swallow this device or its accessories to avoid injury.

.Disclaimer

(1) Please read the product manual carefully before use and strictly follow the instructions.

(2) This product is not responsible for the translation results.

(3) This product is not waterproof, because the machine damage caused by water ingress is borne by the user.

(4) Do not place this product in an environment with high temperature, high humidity and damage to the product.

(5) Do not allow children or pets to swallow this device or its accessories to avoid injury.

.FAQ

(1) Please do not turn off the power until the system update is completed.

(2) Please connect wireless network when using this machine, currently we only support 4G network. The network environment may affect the response speed of translation or cause translation failure, please switch to another network at this time.

(3) When translating, press and hold the "Translate" button until you see the microphone icon and speak. To ensure correct speech recognition, please use normal speech speed and release the button when you finish speaking.

(4) Please place the microphone at a distance controlled to within 30 cm from your mouth for clear recognition and translation.

(5) Please use to speak at normal speed, repeated interruptions or joining two words together will cause the translation to fail.

(6) Please try to speak in a standard voice and reduce the use of dialects and slang.

(7) If the translation is not accurate, try to use a different expression.

7.Warranty

1. This product is free of charge for 1 year.

2. During the warranty period, in accordance with the failures caused by the normal use of the instructions (determined by the company's after-sales personnel or authorized service personnel of our company), it will be repaired free of charge.

3. During the warranty period, the following conditions are not covered by the free warranty:

(1) Failure to provide warranty certificate and valid purchase certificate.

(2) Unauthorized repair, misuse, collision, negligence, abuse, accident, improper use of this product, etc.

(3) Because it is exposed to glare, fire or similar overheating for a long time.

(4) Machine damage or performance failure due to human factors such as water ingress.

4. Loss caused by the adapter due to the use of unqualified power supplies exceeding 5V/1A. Regardless of the contract, civil disputes, etc.

The company is not special about anything. Occasionally or indirectly responsible for loss and damage.
