

Happy Mother's Day 2016!

*On this special day,
We thank our moms, our mothers
We thank them for giving life to us,
Our sisters and brothers.*

*Mothers took care of us
When we were sick, ill or sad.
They made us food and our bath,
Then, as the night came, they put us in bed.*

*They guided us through good and through bad times,
always on our side.
They filled our days with joy and pleasure,
They made our days shine bright.*

*Today and on every other day,
We should acknowledge the woman, who gave us birth,
Who nourished us in times of thirst and hunger,
Who gave us a place on earth.*
