

Tubing Straightener

PART NUMBER: 60-58350

OPERATION INSTRUCTIONS

This Tubing Straightener is designed to help straighten aluminum, brass, copper or stainless steel tubing. If you need any assistance during use or if you have questions about this process, call our Tech Help Line at (254) 848-4300.

Tools Included with Kit:

- Hand Operated Tubing Straightener

Tips:

- Designed to straighten rolls of brake line, fuel line, or similar automotive hardlines.
- Heavy duty carbon steel rollers mounted in 1/4" thick aluminum frame.
- Compatible with all Flo Supply tubing that falls within the designated size range.
- Works with aluminum, brass, copper, and stainless steel tubing. 3/16" (16mm) to 1/2" wall thickness.
- 3/16" (4.75mm) to 1/2" (12.5mm) tube diameter.
- Designed to be clamped in a bench vice.

- Clamp tubing straightener firmly in a table vise.

- Loosen the top adjustment knob to allow the open end of your tubing to go through the rollers.

IMPORTANT: All appropriate safety equipment (gloves, tools etc.) must be used during the installation of this product(s).

Nitro Dave's LLC accepts NO responsibility for injuries or damages resulting during and/or from the installation of any product(s). All products are intended for off-road use only.

Tubing Straightener

PART NUMBER: 60-58350

OPERATION INSTRUCTIONS

- Without bending the end of the tube too sharply (avoiding kinks) begin to feed the tube through the rollers.

- Once the tube is through all 5 rollers, slowly tighten the top knob until the tube shows slight deformation up and down (less than 1/4" between the top and bottom rollers).

- Push the tube through the rollers, adjusting the top tension knob, until you get the desired length of straight tube.

- Your tube is ready for use.

IMPORTANT: All appropriate safety equipment (gloves, tools etc.) must be used during the installation of this product(s).

Nitro Dave's LLC accepts NO responsibility for injuries or damages resulting during and/or from the installation of any product(s). All products are intended for off-road use only.
