ViewBoard Mini IFP2410

Key Features

- Interactive front-facing teaching and collaboration
- Built-in myViewBoard® digital whiteboarding software
- Built-in ViewBoard® Cast streaming software

Product Description

The ViewBoard® Mini IFP2410 is a 24" interactive display that transforms podiums and lecterns into collaboration hubs for front-facing teaching. With integrated myViewBoard® digital whiteboarding software, ViewBoard® Cast streaming software, and a 10-point touchscreen, the ViewBoard® Mini makes content creation and sharing easier than ever before. Educators can manipulate and control content, files, images, and annotations on the ViewBoard® Mini touchscreen, then share that content on a larger front-of-classroom display or projector. For dynamic lessons and interactive collaboration, multiple presenters can simultaneously draw, write, and annotate on the ViewBoard® Mini as well - making it an ideal collaboration hub for classrooms, lecture halls, and auditoriums.
