

# STRIP & CLEAN

## FURNITURE STRIPPER

### BIODEGRADABLE STRIPPING SOLUTION FOR FURNITURE RESTORATION

**GreenEZ® Strip & Clean FURNITURE STRIPPER** is a heavy duty, yet non-hazardous, non-caustic, environmentally safe stripping solution formulated using soybean-based ingredients.

It is designed to remove adhesives, acrylics, paints, urethanes, varnishes, epoxies and related coatings from wood or metal surfaces.

*GreenEZ Strip & Clean FURNITURE STRIPPER* is composed to dry slowly which allows removal of multiple layers of coatings in one application.

**BENEFITS:**

- Dissolves paints & coatings without damaging wood
- Semi-gelled viscosity allows application to vertical surfaces with minimal runoff and waste
- Slow dry time allows easy removal of multiple layers of coatings in only one application
- Water dispersible, low gumming formulation dissolves easily with *Strip & Clean Finishing Cleaner* for fast clean-up
- Contains no highly caustic compounds minimizing potential health hazard
- Solvent free formulation with minimal odor
- Formulated with biodegradable components

**COMPOSITION:** Soy based formulation with proprietary agents and rheology modifiers. Contains no methylene chloride or glycol ether components.

PHYSICAL PROPERTIES at 70° F (21°C):	APPROXIMATE VALUES:
Weight per Gallon:	8.70 +/- 0.10 lb./ gallon
Color & odor:	Light amber liquid with mild odor
VOC content:	4.12 lb./gal (495 g/L)
pH:	8.00 (+/- 0.10) @ 1 to 10 dilution
Flashpoint:	> 200°F (93.3°C)

**COVERAGE:** Approximately 100-150 sq. ft. / ½ gallon. Actual square footage will depend on method of application as well as the type and age of the coating to be stripped, along with the corresponding thickness or number of layers involved in the removal process. Vertical applications typically range on the lower part of the specification when applied at typical 1/8-inch thickness.

**DIRECTIONS FOR USE:** Applicator should read and understand all product technical data, label, and SDS information before using this product. User should test an area before application to determine suitability and results. Remove excessive coatings from the surface with a scraper or wire brush if they are already loose.

**APPLICATION:** *GreenEZ® Strip & Clean FURNITURE STRIPPER* should be shaken or lightly mixed before use to ensure uniformity of the cleaner.

Apply by use of chip brushes or disposable 3/8” nap rollers to all exposed areas. Strip & Clean FURNITURE STRIPPER is of medium viscosity and should be applied in an even layer approximately 1/8” thick.

Allow the material adequate time to penetrate and react with the coating which will aid surface softening and speed the removal process. Longer dwell times of 3-4 hours minimum offer the best results. Depending on coating type or thickness, overnight applications are sometimes helpful.

Strip & Clean FURNITURE STRIPPER will remain wet for several hours, so the user should refrain from any scraping until the treated surface has had time to loosen. The longer the exposure, the easier it will be to remove subsequent coatings.

If there is residual coating on the surface from the first stripping pass, the sequence should be repeated as necessary until all coatings are softened and remove.

**CLEAN-UP:** After the coating has softened sufficiently, the residue should be removed from the surface by use of flat scraper.

After removing the dissolved coating, the surface exhibits a thin film residue that is easily cleaned with *GreenEZ® Strip & Clean Finishing Cleaner*. This is applied by use of damp cloth rag and warm water damp rag rinse.

**CAUTIONS:** Strip & Clean FURNITURE STRIPPER should not be used on plastic, PVC, or rubber surfaces. For best results, do not apply when surfaces are below 40°F (4°C) or above 90°F (31°C).

Do not mix or dilute with any other materials. Keep from freezing. If the product dries on the surface on extended dwell times, simply apply a light second coat to reactivate it.

## GHS HAZARD RATINGS:

**HARMFUL IF SWALLOWED**  
**DO NOT INGEST**

**FIRST AID: REFER TO PRODUCT SDS (SAFETY DATA SHEET) FOR COMPLETE HEALTH AND SAFETY INFORMATION.**

**FOR MEDICAL EMERGENCIES ONLY – CALL INFOTRAC AT 800-535-5053.**

### **WARNINGS:**

**GreenEZ® Strip & Clean FURNITURE STRIPPER is harmful if swallowed. It may cause irritation to skin and eyes.**

**NIOSH/OHSA approved respirators are only recommended if airborne concentrations are expected to exceed exposure limits or if the work area is confined and not well ventilated with limited air flow movement. Wear N-100 99.99% particle masks when applying.**

**Use with NIOSH approved safety glasses for eye protection. Wear protective nitrile or butyl rubber-based gloves to avoid any skin contact. Do NOT use latex gloves. If exposed, wash skin with mild soap and rinse well with water to avoid possible irritation.**

**KEEP AWAY FROM FOOD AND DRINK.  
DO NOT TAKE INTERNALLY.  
KEEP OUT OF REACH OF CHILDREN.**

### **H.M.I.S. CODES (Hazardous Materials Identification System):**

HEALTH = 1, FLAMMABILITY = 1, REACTIVITY = 0, PERSONAL PROTECTION = G

**SHIPPING CLASS:** ITEM 155250, SUB 2, LTL 55, Stripping Solution- NOT HAZARDOUS PER D.O.T. GUIDELINES

**PACKAGING:** 1 quart (6/ case), 1/2 gallon (4/case), 1 gallon (4/case)

**SHELF LIFE:** 1 year properly stored.

**STORAGE:** 40° to 90° F. Keep from freezing. If frozen, thaw to room temperature before using.

**WARRANTY:** *Manufacturer Industries, Inc. (Manufacturer) solely and expressly warrants that its products shall be free from defects in materials and workmanship for one (1) year from the date of purchase. Manufacturer explicitly excludes any written or oral statements or implied warranty on the performance of an applied/installed product manufactured or sold by Manufacturer or through a Manufacturer authorized distributor or reseller. Manufacturer has no control over adherence to Manufacturer's application standards, site conditions, atmospheric variations, installer/applicator skill level or the determination of the suitability of any Manufacturer products for a specific intended purpose. Buyer shall be solely responsible for determining the suitability of Manufacturer's products for the Buyer's intended purposes. Manufacturer MAKES NO WARRANTIES, IMPLIED OR OTHERWISE, AS TO THE MERCHANTABILITY OR FITNESS FOR ORDINARY OR PARTICULAR PURPOSES OF ITS PRODUCTS AND EXCLUDES THE SAME.*

**Replacement of any product shall be the sole and exclusive remedy available and buyer shall have no claim for incidental or consequential damages.**
