Natural Care
BEN&ANNA

OUR GUIDING PRINCIPLE

Why we are the way we are

At Ben & Anna we focus on consciously and effectively making use of natural forces, promoting sustainability, conserving resources and supporting personal lifestyles. This helps everyone as much as it helps our environment. We are always looking for ways to add more natural freshness to our products. To achieve this, we use only selected ingredients. We define ourselves through our respect for nature. That is why our products are natural and vegan. We try to avoid plastic as much as possible and keep also our packaging to a bare minimum. We are always looking for better alternatives. We support committed people and creative projects to make our world more liveable and healthier for everyone. We do all of this with conviction and enthusiasm. In doing so, we depend on a steadily growing community.

UNSER LEITMOTIV

Warum wir so sind, wie wir sind

Wir bei Ben & Anna setzen auf Achtsamkeit, um natürliche Kräfte wirkungsvoll zu nutzen, Ressourcen nachhaltig zu schonen und persönliche Lebensstile zu unterstützen. Das hilft uns allen genauso wie unserer Umwelt. Wir wollen mehr natürliche Frische in unseren Produkten. Dafür verwenden wir nur ausgewählte Inhaltsstoffe. Wir sind geprägt durch Respekt gegenüber der Natur. Deshalb sind unsere Produkte natürlich und vegan. Wir versuchen, Plastik in unseren Verpackungen so gut wie möglich zu vermeiden und generell Umverpackungen auf ein Minimum zu beschränken. Wir suchen stets nach noch besseren Alternativen. Wir fördern engagierte Menschen und kreative Projekte, um unsere Welt lebenswerter und gesünder für alle zu gestalten. Das alles tun wir aus Überzeugung und mit Begeisterung. Dabei vertrauen wir auf eine stetig wachsende Community.

OUR PRODUCTS

Natural selection of raw materials and ingredients

Nature has „an herb“ for (nearly) everything. There are countless natural substances which contain active agents for a variety of applications and needs. We have selected a few of these, tested them carefully and used them in our product range, from deodorants to Toothpaste tablets. In the process we have set an exceedingly high bar for ourselves. That is why we consciously make sure that our products are also certified accordingly. All our products contain only ingredients that are natural in origin. They are also vegan and free of microplastics. We personally think this is not only healthier, but also urgently needed, as we work towards creating a world that is as plastic-free as possible.

UNSERE PRODUKTE

Natürliche Auslese bei Roh- und Inhaltsstoffen

Gegen oder vielmehr für (nahezu) alles ist in der Natur „ein Kraut gewachsen“. Es gibt eine Vielzahl natürlicher Substanzen und Wirkstoffe: für eine Vielfalt an Anwendungen und Bedürfnissen. Einige davon haben wir ausgewählt, sorgfältig getestet und gezielt für unsere Produktpalette - vom Deo bis zur Zahnpastatablette - genutzt. Wir setzen uns dabei selbst hohe Maßstäbe. Deshalb achten wir bewusst darauf, dass unsere Produkte auch entsprechend zertifiziert sind. All unsere Produkte enthalten ausschließlich Inhaltsstoffe, die zu 100% natürlichen Ursprungs sind. Zudem sind sie vegan und frei von Mikroplastik. Wir halten das persönlich nicht nur für gesünder, sondern auch für dringend geboten – denn wir arbeiten an einer möglichst plastikfreien Welt.

OUR PACKAGING

Less individual packaging means more for everyone

In addition to fresh designs, we also use the most environmentally friendly packaging materials available. Packaging is only used when necessary and as sparingly as possible. In this way, we use fewer resources. This is better for us and for the environment. In general, we do not use plastic or other synthetic materials. We prefer to test, optimize and use renewable raw materials, recyclable materials or materials certified as environmentally friendly. This is how we ensure that our products remain safe and durable and user-friendly. At the same time, we remain open to fresh ideas and alternatives when it comes to modern packaging.

UNSERE VERPACKUNG

Weniger im Einzelnen bringt für alle mehr

Neben einem frischen Design achten wir auch bei unseren Verpackungsmaterialien konsequent auf eine hohe Umweltverträglichkeit. Verpackt wird nur wördig und so sparsam wie möglich. So verbrauchen wir weniger Ressourcen im Einzelnen. Das bringt uns und unserer Umwelt insgesamt mehr. Generell verzichten wir dabei auf Plastik oder andere Kunststoffe. Lieber testen, optimieren und nutzen wir nachwachsende Rohstoffe, recyclebare oder als umweltschonend zertifizierte Materialien. So gewährleisten wir, dass unsere Produkte sicher und haltbar sowie zugleich umwelt- und anwenderfreundlich bleiben. Und genauso bleiben wir offen für frische Ideen und Alternativen, wenn es um zeitgemäße Verpackungen geht.

OUR CREED

Ideas & Involvement = Concepts brought to life

Our high standards often lead to challenges. However, we cannot and do not wish to face these alone. We believe that forward-thinking leads to better outcomes when it is done collectively. In addition, we provide targeted support for sustainable concepts or projects and, above all, for those who stand behind them with their ideas and their practical involvement. The non-profit initiative Project Wings is one such example. With structured and innovative projects and lots of enthusiasm, people are working here to make our world a better and more sustainable place for all of us to live in. We find this important, exciting and real. That's why our recommendation is: Get involved!

UNSERE ÜBERZEUGUNGEN

Ideen & Engagement = gedacht und gemacht

Unsere Ansprüche haben in der Regel viel mit Herausforderungen zu tun. Diesen können und wollen wir uns jedoch nicht allein stellen. Denn Weiterdenken lässt es sich in der Regel gemeinsam immer besser. Zusätzlich unterstützen wir gezielt nachhaltige Konzepte oder Projekte und vor allem diejenigen, die mit ihren Ideen und ihrem ganz praktischen Engagement dahinterstehen. Die Non-Profit-Initiative Project Wings zählt beispielsweise dazu. Mit strukturierten wie innovativen Projekten und vor allem mit einer großen Portion Enthusiasmus sind hier Menschen im Einsatz, um unsere Welt für uns alle lebenswerter und nachhaltiger zu gestalten. Wir finden das wichtig, aufregend und authentisch. Deshalb lautet unsere unbedingte Empfehlung: Nachahmenswert bzw. Mitmachenswert!
