Marsala Madness

BY GEETA WAHAB

One of the most loved wines, the deep, earthy, rich red of Marsala is hitting the home.

FLORAL CUSHION

The **Replay Two-Piece Sectional Sofa with Chaise** (\$2,299 CDN) from EQ3 is the perfect marsala focal piece for a living space. The rich colour draws the eye in and warms the room. It adds just enough colour to a room for a new look without taking over the room. To recreate the same feel outside, check out the **Allen + Roth Pardini Four-Piece Outdoor Conversation Set** (\$1,399 CDN) from Lowes. With fade- and stain-proof cushions and a rust- and weather-proof frame, this patio set is built to last.

If you've already got a couch you love, a budget-friendly option is adding a couple of cushions to the room. The **Ombre Pillow in Wildberry** (\$325 CDN) from Elte will add a bold and rich hit of marsala to any room. For a more subtle and breezy hint of marsala, check out the **Floral Cushion** (\$29.99 CDN) from HomeSense that also has touches of soft peach and golden yellow.

If you've got the space and you're looking for a bold new look, try these window and wall treatments from Laura Ashley. The **Highland Check Grape Fabric** (\$72 US) is perfect for blinds or drapes and offers an interesting backdrop while the **Peony Garden Wallpaper** (\$46 US) or the **Summer Palace Cranberry Wallpaper** (\$48 US) can be dressed up or down. Finally, the rich colour of this **London Transit Print** (\$36 CDN) from Indigo is perfect for any room or office space. ä
