Make fabulously fringed earrings!

- Embroidery floss in at least 3 colors
- Tape measure or ruler
- Scissors
- A pair of hoop earrings (any size you prefer)
- Wire cutters
- 24-gauge wire
- Safety pin

1 Start by cutting your thread into 4" pieces with scissors—you'll need to cut 50 of these 4" strips (in whatever combination of your three colors you like) for each earring.

2 Take 5 pieces of thread strips and lay them together in a straight line. Fold that line of thread in half and hold on to the bottom so that the top forms a loop.

3 Lay the loop under one hoop. Hold on to the bottom of the threads and bring them up and over the hoop, through the looped thread at the top and pull down to form a knot. Repeat 9 times.

4 Cut 10 (1 1/2") pieces of wire. Wrap a piece of wire around the knot of a tassel—it helps to hold the end of the tassel taught. Trim away excess wire and repeat with remaining tassels.

5 Take your safety pin and gently comb apart the embroidery threads to give the tassels a fluffier appearance. Now just repeat all of these steps to make the other earring!
