KONK FOAM INSECTICIDE II
PRESSURIZED CONTACT & RESIDUAL CRACK, CREVICE INSECTICIDE SPRAY
FOAM

For Indoor Use to Control Spiders, Sowbugs, Earwigs, Cockroaches, Crickets,
Millipedes, Silverfish, Ants, Fleas, Carpet beetles, Brown Dog Ticks. For Outdoor Use to
Control Ants in Ant Hills and Outdoors to Control Bees and Wasps (Including Yellow
Jackets and Hornets) In Their Nests.

DOMESTIC ACTIVE INGREDIENT:

Pyrethrins 0.050 %
N-octyl bicycloheptene dicarboximide 0.250 %
Permethrin 0.200 %

REG. NO. 32617 P.C.P. ACT

NET CONTENTS 100-600 g

CAUTION
EXPLOSIVE

KEEP OUT OF REACH OF CHILDREN
READ THE LABEL BEFORE USING

[OPTIONAL MARKETING STATEMENTS – for use on container label and/or lid]

[SPRAYS UPSIDE DOWN]
[SPRAYS IN ANY POSITION]
[ALL ANGLE SPRAY]
[SPRAYS 360°]
[WATER BASED]
[COMFORT BUTTON/ACTUATOR]
[USER FRIENDLY] [READY TO USE]
[PROVIDES RESIDUAL KILLING ACTION]
[FAST ACTION]
[INDOOR & OUTDOOR USE]
[NON FLAMMABLE]
[CONTAINS A BOTANICAL INSECTICIDE DERIVED FROM THE CHRYSANTHEMUM FLOWER]
[CONTAINS PYRETHRIN, A BOTANICAL PESTICIDE]
[CONTAINS CHRYSANTHEMUM FLOWER PYRETHRUM]
[TRIPLE ACTION JET SPRAY [FOAM] THREAT!- ACCURATE FOAM, REACHES ROOF EAVES, KILLS RETURNING LISTED INSECTS]
[STICKY FOAM KILLS WASPS RAPIDLY]
[DELIVERS A POWERFUL FOAM QUIET] SPRAY]
[USE [APPLY](SPRAY) WITH ACCURACY]
[REACHES NESTS UNDER ROOF EAVES, AROUND CARPORTS, DOORWAYS AND WINDOW FRAMES]
[TRAPS LISTED INSECTS IN THE NEST- KILLS [RAPIDLY] ON CONTACT]
[DROPS WASPS RAPIDLY]
[KILLS WASPS, YELLOW JACKETS, AND HORNETS ON CONTACT [GIVES RAPID KNOCKDOWN AND KILL]
[GIVES RAPID CONTACT KILL AND RESIDUAL KILL OF LISTED INSECTS RETURNING TO THE TREATED NEST]
[FOAM [JET] SPRAY]
[STICKY FOAM STOPS KILLS WITHIN SECONDS]
ACCURATE FOAM SPRAY]
[KILLS RETURNING LISTED INSECTS]
[COATS NESTS
[FOAM INCREASES ACCURACY AND PRECISION OF PRODUCT PLACEMENT]
[EXPANDING FOAM]
[BARRIER SPRAY]
[BLANKETS WASP AND HORNET NESTS]
[JET STREAM]
[SPRAY NESTS SAFELY FROM 2-2.5 M (6-8 FEET)]
[FAST KNOCKDOWN] [FAST ACTION]
[NON STAINING]
[KILLS ANTS IN CRACKS AND CREVICES]
[FOAM REACHES AND KILLS ANTS]

DIRECTIONS FOR USE:

SHAKE WELL BEFORE USE. [Remove protective cap and insert [applicator wand/extension tube/wand/applicator] into spray nozzle before using.] [Wait approx. 30 seconds [before spraying] [to allow formula to [settle][/][[equilibrate]] [& for optimal stream].

For use indoors as a crack and crevice treatment to control ants, spiders, sowbugs, earwigs, cockroaches, crickets, millipedes, silverfish, fleas, carpet beetles and brown dog ticks. KONK FOAM INSECTICIDE II can also be used outdoors to control ants in cracks and crevices and outdoors to control bees and wasps (including yellow jackets and hornets) in their nests.

DO NOT apply as a space spray or broadcast application. ONLY crack and crevice applications are permitted. Crack and crevice is an application directly into narrow openings on the surface of the structure. It does not include the treatment of exposed surfaces. Narrow openings typically occur at expansion joints, utility entry points and along baseboards and mouldings.

Indoor Use:

To Control Ants, Carpet Beetles, Cockroaches, Crickets, Earwigs, Millipedes, Sowbugs, Spiders and Silverfish: Thoroughly treat indoor building surfaces in hard to reach areas including, cracks, crevices in walls, floors and ceilings; along and behind baseboards; walls behind and floors beneath appliances (e.g., refrigerators and stoves) and furniture (e.g., shelves, drawers, cabinets and storage units); around garbage containers; localized areas of floors and floor coverings; and points of entry (e.g., around windows and doors). Treatment must only be repeated after 7 days if pest problem persists or reoccurs.

To Control Fleas and Brown Dog Ticks:

DO NOT SPRAY PETS WITH THIS PRODUCT. Only treat pets with products specifically registered for use on that type of pet. Apply to indoor building surfaces, including cracks and crevices in walls and floors, along and behind baseboards, window and door frames, and localized areas of floor and floor coverings. For effective flea and tick control indoors, clean any area used by the pet. Cleaning the areas includes vacuuming floors, carpets, furniture, etc. (discard vacuum bag after use) and washing the pet's bedding, living quarters, and surrounding area. Treatment must only be repeated after 7 days if pest problem persists or reoccurs.

Outdoor Use:

To Control Ants:

For the control of ants outdoors, gently insert the (wand or applicator wand or extension tube) as far as possible into cracks and crevices in driveways, patios, sidewalks, or interlocking brick where ants hide. (Pull or Push or Depress) (trigger or nozzle) and allow foam to fill the area. Stop spraying when the foam comes back out the crack or crevice. For best results, treat all cracks and crevices in the area where ants are found. (denotes alternative text) Treatment must only be repeated after 7 days if pest problem persists or reoccurs.

2020-08-17

To Control Wasps, Bees, Hornets & Yellow Jackets In Their Nests:

The best time to apply the product to nests is in late evening or early morning, during cooler temperatures, and when most bees and wasps are at rest inside the nest. Observe for little activity around the nest opening. **DO NOT** stand directly under the nest. Treated insects may fall out of the nest and die. Spray only if there is little to no wind or breeze. From a distance of 2 to 2.5 metres (6-8 feet), with the wind coming from behind, point applicator wand in direction of the insect nest. Depress nozzle, and continue spraying until the opening of the nest is completely covered with the insecticide foam. Because the insects will now be unable to leave the nest, insert the applicator wand into the nest opening and fill the nest space (or void where nest is located) with the insecticide foam. Wait at least 48 hours or until no signs of activity before removing the nest. Treatment must only be repeated if pest problem persists or reoccurs.

[Application to vinyl and aluminum siding (particularly lightly colored, aged, weathered or otherwise damaged) may result in staining, bleaching or discoloration. Factors such as extreme heat and direct sunlight can promote damage. Always pre-test a small inconspicuous area to be treated, for colour fastness and staining. Pre-test siding. Evaluate 30 minutes after test application for potential staining. Never apply to vinyl or aluminum siding while exposed to direct sunlight or during the heat of day. Do not apply to tapestries, wall paper or similar materials that may stain.]

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. May cause eye or skin irritation. Harmful if swallowed, inhaled or absorbed through skin. Provide adequate ventilation of area being treated. Avoid contact with skin, eyes and clothing. Do not inhale spray mist. **DO NOT USE IN ANIMAL FEED AREAS.**

Wash thoroughly with soap and warm water after using. Cover ornamental fish ponds before spraying. Do not contaminate animal feeding areas. Contents under pressure. Do not place in hot water or near radiators, stoves or other sources of heat. Do not store or use above 50°C as container may burst. Avoid freezing. Do not puncture or incinerate container. **Do not use this product in or on electrical equipment due to possibility of shock hazard.**

Restrictions:

- **DO NOT** apply to any body of water.
- **DO NOT** contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.
- Avoid application of this product when winds are gusty.
- **DO NOT** contaminate food/feed. **DO NOT** apply to surfaces that may come into contact with food/feed. Cover or remove all food/feed. Cover all food/feed processing surfaces, equipment and utensils or thoroughly wash following treatment.
- **DO NOT** apply when people, pets or livestock are present.
- **DO NOT** allow people, pets or livestock to enter treated areas until sprays have dried.
- **DO NOT** allow spray to drip or allow drift onto non-target surfaces.
- **DO NOT** apply to people, pets, livestock or sources of electricity.
- **DO NOT** apply to furniture, mattresses, linens, toys, or clothing.
- **DO NOT** apply to overhead areas or in confined spaces (for example, indoors in attics, crawlspaces, small storage rooms, closets and outdoors in eaves, soffits).

2019-7124

2020-08-17

- When applied indoors, ventilate treated areas after application by opening windows and doors or using fans where required to aid in the circulation of air.
- DO NOT apply in areas where plants are grown for food or feed (e.g., vegetables, fruit, herbs). Avoid spraying vegetation and non-target structural surfaces. Hose off any plants or non-target structural surfaces that are contacted with foam with water.
- DO NOT apply as a space spray or broadcast application.

FIRST AID: IF ON SKIN OR CLOTHING, Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. **IF IN EYES,** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **IF SWALLOWED,** Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: This product contains petroleum distillates. Vomiting may cause aspiration pneumonia. Treat symptomatically.

ENVIRONMENTAL PRECAUTIONS: Toxic to aquatic organisms. Toxic to birds. Toxic to bees. Toxic to beneficial insects. Toxic to wildlife.

DISPOSAL: When container is empty, press button to release all pressure. Do not re-use. Do not throw into fire. Wrap in newspaper and then discard in household garbage.
