AKtive S.r.l. is dedicated to providing advanced surgical solutions that prioritize both patient well-being and environmental responsibility.

Crafted with the utmost care and attention to detail, precision scalpels are designed to provide exceptional performance and safety in ophthalmic surgeries. AKtive precision blades are available for a variety of surgical techniques, including cataract, refractive, retinal and glaucoma procedures. The scalpels are offered with or without a clear safety guard, designed to reduce the risk of accidental cuts. The guard slides easily over the scalpel, covering it when not in use, and retracts completely when the scalpel is used. The intuitive design allows for effortless one-handed operation, ensuring comfort and ease for medical professionals.

All blades are manufactured by AKtive S.r.l. in Italy in our ISO-certified facilities. The blades are CE marked and FDA cleared for sale in the United States.
