SYDNEYSTONE
PRINTFINISHING.COM

BEST. EVER.

The Most Versatile ECO-UV Printer

The X-55 is designed for high-volume production. Whether it's long-life outdoor signage or indoor photo-realistic UV prints, the X-55 can do it all. The 55"x50" full bleed bed is large enough to handle big jobs and small enough for your shop.

Large flatbed printers print at high speeds, but are limited by substrate thickness. Small format printers print specialty items at slower speeds and are limited by substrate length and width.

The Xanté family of X-UV Printers do **BOTH**. It's the best of both worlds.

Signage ■ **Manufacturing** ■ **Specialty Items** ■ **Industrial**

Optional Roll-fed Attachment and Cutter

Only \$3,500

The 48-in. roll-fed attachment and multi-use cutter for X-55 and X-98 UV flatbed printers adds greater capability and flexibility to your UV flatbed. Take advantage of the flatbed design to cut a variety of media, including vinyl, acrylic, paper, and more.

Increase your ROI, become more efficient and serve creative new market trends.
